SECTION 1: INTRODUCTION

1. Right Honourable Speaker, Honourable Members of Parliament, on the authority of His Excellency President John Dramani Mahama, and in accordance with Articles 179 of the 1992 Constitution and Section 21 of the Public Financial Management Act, 2016 (Act 921), I have the honour and privilege to present to this august House the Budget Statement and Economic Policy of Government for the 2026 Financial Year.
2. Mr. Speaker, I accordingly move that this august House approves the Budget Statement and Economic Policy of Government for the year ending 31st December 2026.
3. Mr. Speaker, in accordance with law, I also lay before this House the following statutory reports:
 - The 2025 Annual Report on the Petroleum Funds, in accordance with Section 48 of the Petroleum Revenue Management Act, 2011 (Act 815), as amended; and
 - The 2025 Annual Report on the Collection and Utilisation of the African Union Import Levy, in line with Section 7 of the African Union Import Levy Act, 2017 (Act 952).
4. Mr. Speaker, I will also present the following Bills, Regulations and Memoranda for consideration:
 - The Value for Money Bill;
 - The Virtual Asset Service Providers Bill;
 - The Value Added Tax (Amendment) Bill;
 - The COVID-19 Health Recovery Levy (Repeal) Bill;
 - The Ghana Education Trust Fund (GETFund) (Amendment) Bill
 - The National Health Insurance (Amendment) Bill;
 - The Public Procurement Regulations;
 - Request for approval for a Revised Investment Policy of the Ghana Petroleum Funds in line with Section 30 (1)(a) of the Petroleum Revenue Management Act, 2011 (Act 815); and
 - Request for approval to implement an AI-powered trade data analytics system to support customs revenue mobilization.
5. Mr. Speaker, I stand before this House humbled by the confidence reposed in me by His Excellency the President to deliver his second Budget under the *Reset Agenda*.
6. When this administration took office, we met an economy in distress, weighed down by debt, weakened by mismanagement, and stripped of confidence. The 2025 Budget was our first act of courage, a declaration that Ghana would rise again through discipline, reform, and purposeful leadership.
7. Mr. Speaker, the theme for this year's Budget draws from the President's profound words in his 2025 State of the Nation Address when he declared:
"Mr. Speaker, today, inspired by the Almighty God and propelled by

the massive mandate given to me by the people of Ghana, I am moved to make a purposeful and bold declaration. That, I, John Dramani Mahama, will fix the economic crisis confronting our country and reset it on the path of growth and prosperity”.

8. It is with that same conviction that we present the 2026 Budget under the theme: ***"Resetting for Growth, Jobs, and Economic Transformation."***
9. Mr. Speaker, under President Mahama's leadership, this government has chosen a harder but higher road, the road of reform, renewal, and resilience.
10. We have restored fiscal discipline, brought inflation under control, stabilised the cedi, and rekindled investor confidence.
11. Ghana's economy is breathing again, stronger, steadier, and full of promise.
12. This is not just a recovery; it is a reset. It is the story of a nation that refused to stay down.
13. This is a rebirth from the ashes of a daunting inheritance; a heavy burden laid upon us by the previous administration.
14. It is a revival forged amid the tempest of hopes harboured by the ordinary Ghanaian whose spirit has long been weathered by 8 years of hardship, impoverishment, and the shadows of deception.
15. It is the story of Ghanaians who endured hardship with dignity and held on to hope when the road was rough.
16. Mr. Speaker, we have learned a powerful truth: fiscal discipline is the backbone of national progress.
17. There is no shortcut to responsible economic management.
18. Never again must we allow recklessness, waste, and indiscipline to define how we handle the people's money.
19. President Mahama has made it clear that under his watch, the integrity of our public finances will remain sacred.
20. Mr. Speaker, on behalf of His Excellency the President, I extend our deepest gratitude to Organized Labour, the workers of Ghana, the Employers Association, and all employers for their unwavering commitment to nation-building. Your partnership, discipline, and sacrifice continue to drive Ghana's progress.
21. Together with Government, we have successfully agreed on the National Minimum Wage and Base Pay for 2026, ahead of this Budget, reflecting our shared vision of fairness, stability, and productivity.

22. Going forward, the National Tripartite Committee will serve not only as a platform for wage discussions but as a permanent forum for economic dialogue, where Government, Labour, and Employers work hand in hand to shape policies that create jobs, sustain growth, and deliver a more prosperous future for every Ghanaian.
23. Mr. Speaker, we have learned a powerful truth: fiscal discipline is the backbone of national progress. There is no shortcut around responsible management. Never again must we allow recklessness, waste, and indiscipline to define how we handle the people's money.
24. President Mahama has made it clear that under his watch, the integrity of our public finances will remain sacred.
25. Mr. Speaker, confidence is returning. The Black Star is rising once more. Ghana is back, strong, stable, and full of hope. And yes, our Black Stars are heading to the World Cup!
26. With that renewed energy and optimism, this Budget is about building on the foundation we have laid, turning stability into opportunity, and opportunity into prosperity.
27. Mr. Speaker, the 2026 Budget marks a decisive shift:
 - from recovery to transformation;
 - from resilience to productivity; and
 - from stability to jobs.
28. Mr. Speaker, over the next year and beyond, Government will focus on three strategic priorities to reset for growth, jobs, and transformation:
 - **Consolidating Macroeconomic Stability:** We will sustain fiscal discipline, strengthen revenue mobilisation, and ensure responsible debt management. Inflation will remain on a firm downward trajectory towards optimal levels, exchange rate stability will continue to be prioritised, and our medium-term debt strategy will protect us from future shocks;
 - **Accelerating Economic Transformation and Job Creation:** We will invest boldly in energy, infrastructure, commercial agriculture, aquaculture, and agribusiness, and expand transformative programmes like the 24-Hour Economy and Big Push Infrastructure Agenda. These investments will create sustainable jobs and unleash opportunities across all 16 regions; and
 - **Strengthening Security and Social Sectors for Inclusive Growth:** We will modernise education, improve healthcare access, retool our security forces, and extend electricity, water, and sanitation to every community, while protecting the environment for generations to come.
29. Mr. Speaker, our vision is clear:
 - A Ghana that produces more than it consumes;
 - A Ghana that exports value-added goods, not just raw materials;

- A Ghana where jobs are decent, incomes are rising, and opportunity is shared by all; and
 - A Ghana where every citizen lives with dignity and pride.
30. That is the Ghana we are building, one powered by discipline, driven by vision, and anchored on shared prosperity.
31. Mr. Speaker, having outlined the guiding theme and vision for this Budget, I now turn to the state of the Ghanaian economy as of September 2025 to show where we stand, what we have achieved, and where we are heading.
32. After that, I will present the policies, priorities, and resource allocations that will drive Ghana's growth, jobs, and economic transformation in 2026 and beyond.

SECTION 2: GLOBAL ECONOMIC DEVELOPMENTS & OUTLOOK

Global Economic Performance

33. Mr. Speaker, the year 2025 has unfolded against a backdrop of deepening global uncertainty. Heightened trade disputes, persistent geopolitical tensions, and uneven monetary tightening across major economies have dampened global confidence and investment flows. Yet, despite these challenges, the world economy continues to demonstrate remarkable resilience.
34. According to the IMF's October 2025 World Economic Outlook, global growth is projected at 3.2 percent in 2025 and 3.1 percent in 2026 as shown in Table 1. While this represents a modest deceleration from the post-pandemic rebound, it nonetheless points to a sustained, but fragile, recovery. Advanced economies are expected to grow by about 1.6 percent, constrained by tight financial conditions and subdued productivity gains. In contrast, emerging markets and developing economies are projected to expand by around 4 percent, reflecting stronger macroeconomic frameworks, improved fiscal discipline, and targeted structural reforms.

Table 1: Global Economic Growth Rates for Selected Countries (%)

* Projections

35. Mr. Speaker, many emerging and developing economies remain exposed to external shocks, ranging from volatile commodity prices to capital flow reversals and climate-related disruptions. These risks underscore the importance of prudent macroeconomic management, diversification, and adaptive policy responses to sustain growth and preserve stability in an uncertain environment.

Sub-Saharan Africa: Outlook and Drivers

36. Mr. Speaker, within this global landscape, Sub-Saharan Africa continues to chart a steady path toward recovery. The region's growth is projected at 4.1 percent in 2025 and 4.4 percent in 2026, supported by ongoing macroeconomic stabilization and structural reforms in key economies. Countries such as Ethiopia, Rwanda, and Cote d'Ivoire are expected to maintain growth rates above 5 percent, driven by infrastructure expansion, digital innovation, and resilient domestic demand. However, resource-dependent and conflict-affected nations continue to face significant headwinds arising from lower commodity revenues, limited fiscal space, and fragile security conditions.

Global Inflation Developments

37. Mr. Speaker, global inflationary pressures are gradually easing as supply chains normalize and monetary policy tightening takes effect. Headline inflation is projected to decline from 4.2 percent in 2025 to 3.7 percent in 2026. In advanced economies, inflation is expected to converge toward 2.2 percent, in line with central bank targets. Emerging and developing economies, however, will continue to face relatively higher inflation, averaging around 4.7 percent, owing to exchange rate volatility and food price fluctuations.
38. In Sub-Saharan Africa, average inflation is forecast to ease from 13.1 percent in 2025 to 10.9 percent in 2026. This reflects the impact of tighter monetary policy, improved food supply, and more stable exchange rates. Nonetheless, persistent food insecurity, climate shocks, and political instability may pose downside risks to the disinflation outlook.

Commodity Market Trends

39. Mr. Speaker, global commodity markets remain a critical determinant of economic performance. The World Bank's October 2025 Commodity Markets Outlook projects an average of 8 percent decline in commodity prices in 2025, following a 12 percent decline in 2024, reflecting weaker global demand and improved supply conditions.
40. Brent crude oil prices are expected to average US\$68 per barrel in 2025, down from US\$79 in 2024, as inventories rise and global demand softens. Gold prices are projected to remain elevated at US\$2,350 per ounce in 2025, driven by persistent geopolitical tensions and sustained central bank demand. Cocoa prices have surged to an average of US\$7,800 per metric tonne in 2025, up from US\$5,900 in 2024, due to adverse weather and production shortfalls in West Africa. Prices are, however, expected to stabilize in 2026 as supply improves.

Table 3: Commodity Prices

Year	Gold (per oz)	Cocoa Beans (per mt)	Crude Oil (per bbl)
2022	1,802.00	4,000.00	98.00
2023	1,944.00	5,200.00	82.30
2024	2,408.00	5,900.00	79.00
2025*	2,350.00	7,800.00	68.00
2026*	2,280.00	6,900.00	70.00

*Projections

ECOWAS Sub-Region: Growth and Inflation Outlook

41. Mr. Speaker, growth in the ECOWAS sub-region is expected to rise from 4.4 percent in 2025 to 4.7 percent in 2026, signalling a gradual and broad-based recovery. This rebound is being driven by stronger domestic demand, infrastructure investment, and renewed momentum in regional trade and integration. The WAEMU economies, in particular, are forecast to expand by 5.6 percent, reflecting sustained agricultural growth and improved policy coordination.

Table 4: ECOWAS Sub-Region: Growth Rates (%)

Region/Country	2022	2023	2024	2025*	2026*
ECOWAS	4.0	3.6	4.4	4.4	4.7
WAEMU	5.6	1.7	6.0	5.9	5.6
Benin	6.3	6.4	6.5	7.0	6.7

Cabo Verde	17.40	4.0	6.0	5.2	4.8

Source: IMF WEO Statistical Annex October 2025/MoF

* Projections

42. Inflation across the sub-region is expected to moderate from 17.1 percent in 2025 to 15.8 percent in 2026, underpinned by tighter monetary policy, improved food supply, and declining import costs. However, food insecurity, currency depreciation, and political instability could still undermine price stability and slow the pace of disinflation.

ECOWAS Macroeconomic Convergence

43. Mr. Speaker, ECOWAS member states have made tangible progress in reducing fiscal imbalances, limiting central bank financing, and rebuilding reserves. Nevertheless, most countries continue to fall short of the convergence thresholds required for the ECOWAS Single Currency Programme. Sustained reforms and closer policy coordination are therefore critical to achieving lasting macroeconomic convergence and deeper regional integration.

Ghana's Progress Toward Convergence

44. Mr. Speaker, Ghana's progress toward the convergence criteria has been significant:
- In 2025, the fiscal deficit is projected at 2.8 percent of GDP, below the 3 percent benchmark;
 - Gross external reserves now cover 4.8 months of imports, exceeding the minimum threshold of three months;
 - Inflation stands at 8 percent as of October 2025, slightly above the revised limit of 5 percent;
 - Central Bank financing of the budget remains at zero, compared to the regional ceiling of 10 percent of previous year's revenue; and
 - Public debt has stabilized far below the 70 percent of GDP benchmark; and
 - Exchange rate has remained broadly stable, recording a modest appreciation against the US dollar.

45. Mr. Speaker, by the third quarter of 2025, Ghana had met five out of the six ECOWAS convergence criteria, a marked improvement from the same period in 2024. This progress reflects the Government's strong commitment to macroeconomic stability, supported by frontloaded fiscal consolidation, credible structural reforms, and an appropriately tight monetary policy stance.
46. Mr. Speaker, this achievement demonstrates that Ghana is not only stabilizing its economy but also reasserting its role as a leader in regional economic integration. Stability and growth are reinforcing each other through sound policies, credible institutions, and disciplined implementation.
47. Mr. Speaker, Ghana reaffirms its unwavering commitment to the ECOWAS Single Currency Programme and pledges to continue playing a leadership role in advancing regional monetary and economic integration. Our collective progress shows that regional convergence is no longer a distant goal, it is within our grasp.

Table 5: Ghana's Status of Achievement of ECOWAS Convergence Criteria

No.	Convergence Criteria	Target	End-September 2025
Primary Criteria			
1	Budget Deficit (Inc. Grants)/GDP	≤ 3%	2.3% (Achieved)
2	Inflation (annual average)	≤ 5%	18.7% (Not Achieved)
3	Central Bank Budget Deficit Financing	10%	zero financing (Achieved)
4	Gross External Reserves	≥ 3 months	4.8 Months (Achieved)
Secondary Criteria			
5	Nominal Exchange Rate	± 10%	18.4 Appreciation (Achieved)
6	Public Debt /GDP	≤ 70%	48.9 (Achieved)

Source: BoG/MoF

48. Mr. Speaker, this is evidence that Ghana is not just stabilizing for itself, but reasserting regional leadership.
49. Mr. Speaker, we reaffirm Ghana's strong commitment to the ECOWAS single currency programme and pledge to play a leadership role in advancing regional monetary integration.

SECTION 3: STATE OF GHANA'S ECONOMY IN 2025

50. Mr. Speaker, the year 2025 marked a decisive turning point in our collective effort to restore macroeconomic stability and rebuild confidence in Ghana's economy. After years of volatility, the foundations of recovery are now firmly in place, and Ghana is once again moving with purpose and conviction toward sustainable growth.
51. At the beginning of the year, we inherited the lingering effects of the fiscal pressures of 2024, pressures that weighed heavily on households, businesses, and public finances alike. Confidence was fragile, inflation remained elevated, the exchange rate was unstable, and public debt was elevated. Yet, through strong leadership, fiscal discipline, and policy consistency, the tide has turned. Ghana's economy is now on a clear path of recovery, marked by renewed investor confidence and an improving macroeconomic outlook.
52. Mr. Speaker, before reviewing the performance of the economy over the first three quarters of 2025, it is important to recall the ambitious but realistic targets we set at the start of the year, targets that embodied our determination to stabilize the economy, rebuild trust, and reignite growth. We pledged to achieve:
- Overall real GDP growth of at least 4.0 percent, signalling confidence in a strong post-stabilization recovery;
 - Non-oil real GDP growth of at least 4.8 percent;
 - An end-year inflation rate of 11.9 percent, to deliver real relief to households and businesses;
 - A primary surplus of 1.5 percent of GDP on commitment basis, as proof of fiscal prudence and restored credibility; and
 - Gross international reserves of no less than three months of import cover, to safeguard external stability and protect the Cedi.
53. Mr. Speaker, these targets were not mere statistics. They were a solemn pledge to the Ghanaian people; that this Government would transform stability into progress, and prudence into prosperity. They represented our shared belief that disciplined management and social protection can go hand in hand.
54. Recent macroeconomic data on the performance of the economy confirm that:
- Our recovery is gaining solid traction as the economy expanded by 6.3 percent in the first half of 2025, far exceeding the annual growth projection of 4.8 percent. The private sector is beginning to reassert itself as the engine of growth.
 - Inflation, which stood at 23.8 percent in December 2024, declined sharply to 8 percent in October 2025, returning Ghana to single-digit inflation for the first time in four years, reflecting the combined impact of improved food supply, exchange rate stability, and decisive monetary and fiscal coordination.

- In response, the Bank of Ghana has reduced the monetary policy rate by 650 basis points, from 28 percent to 21.5 percent, while maintaining a strong monetary anchor to prevent a resurgence of inflation. This has lowered the cost of credit, improved liquidity conditions, and supported business recovery and job creation.
 - Our external balances have improved.
 - The financial sector, once under strain, is now stable and well capitalized.
 - Fiscal discipline has been restored.
 - Through careful expenditure control, enhanced domestic revenue mobilization, and targeted social interventions, we have begun to consolidate gains that will sustain growth in the years ahead.
55. Mr. Speaker, these achievements are not accidental. They are the result of deliberate choices, choices anchored in sound economic management, institutional discipline, and an unyielding commitment to the Ghanaian people. We have stabilized our economy without losing sight of inclusion and social protection.
56. Mr. Speaker, Ghana is emerging stronger, more resilient, and more confident. The difficult decisions we took in the past one year are beginning to yield results. We are determined to sustain this momentum, deepen reforms, and translate stability into real opportunities for households, youth, and businesses.
57. Mr. Speaker, I will now present the detailed updates on the performance of the Economy in 2025.

Real Sector Performance

GDP Performance

58. Mr. Speaker, Ghana's real sector continued to strengthen in the first half of 2025, marking a firm recovery built on resilience and confidence.
59. According to the Ghana Statistical Service, overall GDP expanded by 6.3 percent in the first half of 2025, up from 5.1 percent during the same period in 2024. This growth was broad-based and driven mainly by the services and agriculture sectors, which benefitted from lower inflation, renewed business confidence, and a stable exchange rate environment.
60. Non-oil GDP surged to 7.8 percent, highlighting the growing role of domestic production and consumption in sustaining Ghana's recovery. This performance reaffirms the structural shift underway, from dependence on extractive industries toward a more diversified, inclusive growth model anchored in local enterprise and productivity.

Services Sector Performance

61. Mr. Speaker, the services sector remained the primary engine of growth, expanding by 8.8 percent in the first half of 2025, compared to 3.2 percent in the same period of 2024. This remarkable rebound demonstrates the renewed

vitality of Ghana's service economy, particularly in technology, finance, and education.

62. The Information and Communication sub-sector grew by an impressive 17.2 percent, up from 16.5 percent in 2024. This was driven by rising data usage, fintech expansion, and continued investment in digital infrastructure, reflecting the success of policies promoting a modern, technology-driven economy.
63. The financial and insurance sector also grew by 9.5 percent, supported by improved capitalization, digital transformation, and stable market conditions. Transport and storage expanded by 6.7 percent, reflecting greater trade activity and logistics efficiency as inflation eased and energy costs stabilized.
64. The education sub-sector posted strong growth of 14.9 percent, fueled by increased funding and higher enrolment under the Free Senior High School and Capitation Grant programmes. These investments continue to yield social and economic returns through skills development and human capital expansion.
65. Mr. Speaker, these trends confirm that Ghana's recovery is increasingly being driven by innovation, technology, and services. The modern economy is taking shape, one built on productivity, knowledge, and opportunity rather than short-term consumption.

Agriculture Sector Performance

66. Agriculture also delivered a robust performance, growing by 6.0 percent in the first half of 2025, compared to 2.9 percent a year earlier. Growth was broad-based, with crops expanding by 6.2 percent, livestock by 5.8 percent, and fishing by 7.7 percent.
67. Most notably, cocoa production rebounded from a sharp contraction of 21.4 percent in the first half of 2024 to a positive 2.8 percent growth in 2025. This recovery was made possible by improved pest control, timely fertilizer distribution, and sustained investment in farmer support programmes.

Industry Sector Performance

68. Mr. Speaker, growth in the industry sector, though moderated to 3.2 percent due to lower oil output, remains encouraging. Manufacturing expanded by 6.3 percent, compared to a contraction of 0.5 in 2024, reflecting improved energy reliability and domestic demand, while construction grew by 4.0 percent on the back of renewed infrastructure projects and private housing developments.

Figure 1: Overall GDP and Sector Growth Rates, percent

*Revised

**provisional

69. Mr. Speaker, these developments confirm that Ghana's growth in 2025 is broader, stronger, and more resilient than a year ago, anchored in sectors that create jobs, add value, and stimulate inclusive prosperity.

GDP Growth through the Expenditure Lens

70. Mr. Speaker, Ghana's growth momentum has strengthened in 2025, driven by rising private consumption, prudent government spending, and expanding exports.
71. Overall GDP grew by an average of 6.3 percent in the first half of 2025, signalling a steady recovery anchored on confidence, productivity, and resilience.
72. Total consumption expenditure grew by an average of 6.7 percent in the first half of 2025, up from 5.4 percent in the same period of 2024. This strong rebound in demand reflects renewed household confidence and the Government's deliberate efforts to restore purchasing power through stable prices, job creation, and improved real incomes.
73. Household consumption, the heartbeat of domestic demand, expanded by 8.2 percent in the first half of 2025, compared with 5.5 percent a year earlier. This growth underscores the real impact of lower inflation, higher agricultural output, and stronger remittance inflows on everyday living standards.
74. In contrast, Government consumption recorded a lower average growth of 3.7 percent in the first half of 2025, down from 4.6 percent in the same period of 2024. This outcome reflects strict adherence to fiscal discipline and the Government's commitment to prioritising efficiency and value for money in public expenditure.

75. On a quarterly basis, Government consumption rose by 8.2 percent in the first quarter of 2025 but contracted by 0.2 percent in the second quarter, demonstrating the deliberate tightening of recurrent spending as revenue performance improved. These numbers are evidence that this Government is spending smarter, not bigger.
76. Mr. Speaker, exports of goods and services also performed strongly, growing by an average of 11.5 percent in the first half of 2025, up from 10.0 percent in the same period of 2024. This was supported by record-high gold exports, rising cocoa output, and improved non-traditional exports.
77. Mr. Speaker, in summary, the expenditure-side growth story of 2025 is one of balance and responsibility: households are spending and thriving again, government is consolidating with discipline, and exports are driving national income. This is the kind of growth that sustains stability, creates jobs, and keeps Ghana firmly on course toward The Ghana We Want.

Price Developments

78. Mr. Speaker, inflation continued to decline sharply through the first ten months of 2025, marking Ghana's most rapid disinflation in over two decades. This achievement underscores the effectiveness of our coordinated fiscal and monetary policies.
79. Headline inflation fell from 23.8 percent in December 2024 to 8 percent in October 2025, returning Ghana to single-digit inflation for the first time in four years. This turnaround reflects prudent macroeconomic management and restored policy credibility.

Figure 2: Inflation Trends

Source: GSS

80. Mr. Speaker, this progress was made possible by a combination of fiscal restraint, careful monetary calibration by the Bank of Ghana, a stable Cedi, and improved domestic food supply. Together, these measures created a predictable environment for households, businesses, and investors, rebuilding confidence in both the economy and the Ghanaian currency.
81. The decline in inflation was driven largely by lower food inflation. Food inflation dropped from 27.8 percent in December 2024 to 9.5 percent in October 2025, supported by better harvests, reduced transport and storage costs, and improved market access across regions.
82. The October CPI data shows that commodities such as garden eggs, cocoyam leaves (Kontomire) or Alefu, Pawpaw, Fresh Tomatoes, Cabbage, Okro, and Fried Fish recorded significant price declines, reflecting the payoff from investments in irrigation, mechanization, and logistics under ongoing agricultural programmes.
83. Non-food inflation also eased markedly, from 20.3 percent at end-2024 to 6.9 percent by October 2025, driven by stable utility tariffs, lower transport costs, and a decline in global oil and commodity prices.
84. Inflation for imported items fell from 18.0 percent at end-December 2024 to 7.8 percent in October 2025, while inflation for locally produced goods dropped even more sharply, from 26.4 percent to 8.0 percent. This confirms that both external and domestic price pressures have eased significantly.
85. Mr. Speaker, these gains are the direct result of policy discipline, fiscal consolidation, and productive sector support. The Bank of Ghana maintained a firm but flexible policy stance to anchor inflation expectations, while government's spending control and improved domestic production helped stabilize supply conditions.
86. Mr. Speaker, these achievements have brought tangible relief to households that faced double-digit price increases only a year ago. The progress is visible in market stalls, in transport fares, and in the purchasing power of ordinary Ghanaians.
87. The task ahead, Mr. Speaker, is to sustain this stability. We must remain disciplined, deepen support for food production and distribution, and maintain strong coordination between fiscal and monetary policy. These are the pillars that will keep inflation low, the Cedi stable, and growth inclusive, for which the Mahama Administration is committed to.

Fiscal Performance

88. Mr. Speaker, on the fiscal front, Government remained resolute in restoring discipline, transparency, and credibility to public finances. The progress made in 2025 marks one of the strongest fiscal turnarounds in Ghana's recent economic history.

89. The primary balance on a commitment basis improved sharply, from a deficit of 3.0 percent of GDP in 2024 to a surplus of 1.6 percent by September 2025, outperforming programme targets and placing us firmly on course to exceed the 1.5 percent surplus by year-end. This reflects Ghana's commitment to credible fiscal anchors and consistent macroeconomic reform.
90. Mr. Speaker, this improvement was driven by a combination of strong revenue mobilisation effort and prudent expenditure management. As we stated with conviction when the e-levy was removed, the world did not stop, Ghana thrived. Through broader tax reforms, efficiency gains, and enforcement discipline, we have achieved more with less.
91. Non-oil tax revenue rose to 8.7 percent of GDP for the first nine months of 2025, up from 7.8 percent in the same period in 2024. This growth reflects enhanced tax compliance, administrative efficiency, and digitalisation efforts at the Ghana Revenue Authority.
92. The introduction of the fuel levy in July 2025 helped close loopholes, improved tracking, and widened the tax net without burdening productive sectors.
93. Although oil revenue fell below target due to lower global prices and production volumes, this was effectively offset by stronger VAT and corporate income tax collections, demonstrating improved revenue diversification and resilience.
94. On the expenditure side, Government maintained tight control over non-priority spending while safeguarding essential social and capital expenditures. Current expenditure was contained within programme ceilings, while capital investment was prioritised toward ongoing projects with high impact on growth, infrastructure, and jobs.
95. Mr. Speaker, fiscal consolidation has been strengthened through structural reforms, including amendments to the Public Financial Management Act, which introduced an operational fiscal rule mandating a minimum primary surplus of 1.5 percent of GDP and a long-term debt rule targeting a debt-to-GDP ratio below 45 percent by 2035. These reforms will anchor fiscal discipline across electoral cycles.
96. For the first time, Mr. Speaker, the Government has full oversight of expenditure commitments through a newly established Commitment Authorisation System, implemented under the amended Public Procurement Act. This reform curbs arrears accumulation and strengthens fiscal predictability.
97. Furthermore, the Compliance Division of the Ministry of Finance now publishes a Quarterly list of public institutions that are complying with the requirement to submit their quarterly Commitment Control Report to the Ministry of Finance through the Internal Audit Agency. This innovation is already improving accountability and transparency in public financial management.

98. The Ministry of Finance will also commence the publication of a Compliance League Table, ranking public institutions based on their adherence to fiscal discipline.
99. Mr. Speaker, Ghana's public debt position improved markedly in 2025, reflecting the implementation of a prudent debt management strategy. Public debt to GDP ratio reduced from 68.9 percent at the end of September 2024 to 45.0 percent a year later-the first sustained reduction in nearly a decade.
100. As a result, domestic interest rates fell sharply, reducing the cost of servicing domestic debt by nearly GH¢8.8 billion.
101. The 91-day Treasury-bill rate declined gradually from about 29 percent at the beginning of 2025 to around 10.6 percent by October, significantly reducing short-term financing costs and easing liquidity pressures.
102. Mr. Speaker, this turnaround has created fiscal space for priority social and capital investments while restoring investor confidence in the domestic debt market.
103. The appreciation of the Ghana cedi, combined with ongoing debt restructuring, has eased the foreign currency burden on the budget, lowered external debt service costs and moderated Ghana's total debt obligations, thereby reinforcing investor confidence both at home and abroad.
104. Indeed, a Debt Sustainability Analysis (DSA) conducted in October 2025 confirms that Ghana has now moved from a high risk to a moderate risk of debt distress, a major milestone on the path to debt sustainability and creditworthiness restoration.
105. Mr. Speaker, this achievement is proof that responsible fiscal management delivers tangible results. Government will continue to deepen fiscal prudence, expand domestic revenue mobilisation, and adhere strictly to our Medium-Term Debt Management Strategy to safeguard these gains.
106. Government began 2025 with a bold fiscal consolidation plan, designed to rebuild buffers, restore macroeconomic stability, and anchor debt sustainability. The consistent implementation of this plan has yielded substantial progress.
107. Mr. Speaker, I am pleased to report that the consolidation we are witnessing is one of the strongest in recent history, underscoring the Government's unrelenting commitment to sound fiscal governance and reform-driven growth.
108. The fiscal deficit has narrowed significantly, the primary balance has turned positive, and expenditure restraint has been achieved without compromising essential social protection programmes and growth-enhancing investments.
109. Mr. Speaker, the provisional fiscal performance for the first three quarters of 2025 demonstrates this progress. It is presented against the revised 2025

overall deficit target (commitment basis) of 2.8 percent of GDP with a primary surplus of 1.5 percent of GDP on commitment basis, and an overall deficit (cash basis) of 3.8 percent of GDP with a primary surplus of 0.5 percent of GDP.

110. Mr. Speaker, provisional data on revenue and expenditure performance for the first three quarters of 2025 reveal the following favourable fiscal outturn:
- Primary Balance (commitment basis) recorded a surplus of 1.6 percent of GDP, exceeding the target of 0.6 percent;
 - Overall Fiscal Balance (commitment basis) registered a deficit of 1.5 percent of GDP, significantly better than the target deficit of 3.2 percent;
 - Overall Fiscal Balance (cash basis) recorded a deficit of 2.3 percent of GDP against a target of 4.0 percent; and
 - Primary Balance (cash basis) achieved a surplus of 0.7 percent of GDP, compared to a projected deficit of 0.2 percent.

Figure 3: Fiscal Balances Q1-Q3 2025

Source: MoF

111. Mr. Speaker, these results affirm that Ghana's fiscal consolidation path is firm, data-backed, and sustainable. The discipline we are entrenching today is the foundation upon which future growth, jobs, and prosperity will rest.

2025 Q1-Q3 Revenue Performance

112. Mr. Speaker, total revenue and grants for the first three quarters of 2025 amounted to GH¢154.9 billion, equivalent to 11.1 percent of GDP. Although this outturn was 4.7 percent below the target of GH¢162.6 billion (11.6 percent of GDP), it represents a steady recovery in Ghana's revenue mobilisation efforts.
113. The performance was affected by shortfalls across all major revenue categories, with the exception of non-oil, non-tax revenues, which exceeded expectations. This pattern reflects the transitional impact of ongoing tax administration reforms and the gradual normalisation of business activity following the macroeconomic imbalances of 2024.
114. Despite these shortfalls, Mr. Speaker, the overall revenue outturn still represents a year-on-year growth of 22.8 percent, achieving 67.4 percent of the annual revenue target by the end of the third quarter. This underscores the continued momentum in domestic resource mobilisation.

115. Non-oil tax revenue amounted to GH¢122.1 billion (8.7 percent of GDP), which, though 4.1 percent below the target of GH¢127.3 billion (9.1 percent of GDP), reflects a strong annual growth of 32.8 percent. The growth trajectory signals the effectiveness of recent administrative reforms, even as some sectors continue to recover from last year's disruptions.
116. The performance was mainly influenced by lower-than-expected collections from PAYE, Corporate Income Tax, VAT, Excise Duties, the Growth and Sustainability Levy, and Import Duties. These were moderated by slower-than-projected import activity and adjustments in consumption patterns following the disinflation trend.
117. However, Mr. Speaker, not all categories underperformed. The GETFund Levy and the National Health Insurance Levy (NHIL) recorded exceptional results, exceeding their respective targets by 16.0 percent and 16.6 percent, driven by improved compliance and better enforcement mechanisms under the Ghana Revenue Authority's Domestic Tax Division.
118. Non-tax revenue (non-oil), which includes MDAs' Internally Generated Funds (IGF) Retentions, IGF Lodgements, Fees and User Charges, and Dividends, performed strongly, amounting to GH¢19.4 billion, 38.5 percent above the target of GH¢14.0 billion. This overperformance was largely on account of higher-than-expected dividend, interest, and profit remittances from state-owned enterprises, as well as higher fees and service charges.
119. Mr. Speaker, receipts from upstream oil and gas activities amounted to GH¢5.9 billion, significantly below the target of GH¢12.4 billion, a 52.2 percent shortfall. This underperformance was due to lower international oil prices, reduced production volumes, and the moderating effect of the Cedi's appreciation on oil-related revenues.
120. Mr. Speaker, other revenues, including SSNIT contributions to the National Health Insurance Levy and proceeds from the Energy Sector Levies (ESLA), totalled GH¢6.6 billion, performing 6.5 percent below the target of GH¢7.0 billion. Nonetheless, these receipts remain an important source of funding for health and energy sector obligations.
121. Mr. Speaker, Grant disbursements amounted to GH¢963 million, against a target of GH¢1.9 billion. The shortfall reflects delays in project grant disbursements from development partners. Government is actively engaging partners to accelerate the release of committed funds, particularly for infrastructure and social investment projects.
122. Mr. Speaker, in summary, while total revenue fell short of target, the underlying growth trends demonstrate that Ghana's revenue base is broadening and the reforms in tax administration, digitalisation, and compliance are taking hold. The task ahead is to consolidate these gains, enhance efficiency in collections, and expand the tax net in a fair and growth-friendly manner.

Figure 4: Summary of Q1-Q3 2025 Revenue Performance

Source: MoF

2025 Q1-Q3 Expenditure Performance (Commitment basis)

123. Mr. Speaker, total expenditure on a commitment basis for the first three quarters of 2025 amounted to GH¢175.9 billion, representing 12.6 percent of GDP. This outturn was 15.0 percent below the budget target of GH¢207.0 billion (14.8 percent of GDP), reflecting deliberate fiscal restraint and improved expenditure control.
124. The outturn represents an execution rate of 65.2 percent of programmed expenditure for the year and a nominal year-on-year decline of 9.1 percent. Except for compensation-related spending, all major expenditure categories remained within their programmed limits, underscoring Government's resolve to maintain discipline while prioritizing growth-supportive and social sectors.
125. Primary expenditure, which excludes interest payments, amounted to GH¢133.2 billion (9.5 percent of GDP), 13.6 percent below the target of GH¢154.1 billion (11.0 percent of GDP). This outcome demonstrates a deliberate tightening of non-interest spending in line with our fiscal consolidation goals.
126. Mr. Speaker, compensation of employees totalled GH¢58.1 billion (4.1 percent of GDP), slightly above the target of GH¢57.5 billion. Wages and salaries, which accounted for 89.8 percent of total compensation, amounted to GH¢52.2 billion (3.7 percent of GDP), representing a 2.0 percent overshoot due to in-year negotiated pay adjustments and recruitment in essential services. Despite this, compensation growth remains contained within sustainable limits.
127. Interest payments amounted to GH¢42.7 billion (3.1 percent of GDP), 19.2 percent below the target of GH¢52.9 billion (3.8 percent of GDP). This

significant saving reflects the impact of declining domestic interest rates and the cedi's appreciation, which lowered external interest costs.

128. Of this amount, domestic interest payments totalled GH¢36.8 billion, compared with a target of GH¢45.6 billion, accounting for 86.1 percent of total interest payments. External interest payments amounted to GH¢5.9 billion, below the GH¢7.3 billion target, as Government benefited from reduced Eurobond debt servicing and concessional refinancing arrangements.
129. Mr. Speaker, expenditure on the use of goods and services stood at GH¢3.8 billion (0.3 percent of GDP), 24.6 percent below the target of GH¢5.1 billion (0.4 percent of GDP). The containment of administrative spending demonstrates the Government's continued focus on efficiency and value-for-money across MDAs.
130. Grants to Other Government Units amounted to GH¢42.6 billion (3.0 percent of GDP), broadly in line with the budget target of GH¢39.3 billion. These grants include transfers to statutory funds, District Assemblies, and the National Health Insurance Fund, ensuring the timely delivery of essential services at the subnational level.
131. Other expenditures, mainly comprising Energy Sector Levies (ESLA) transfers and payments to clear energy sector shortfalls, totalled GH¢20.2 billion (1.4 percent of GDP), 21.5 percent below the target of GH¢25.7 billion (1.8 percent of GDP). This reflects continued progress in rationalizing energy-related obligations and improving efficiency in sector financing.
132. Mr. Speaker, capital expenditure (CAPEX) for the period amounted to GH¢10.9 billion (0.8 percent of GDP), representing a 59.0 percent shortfall from the target of GH¢26.6 billion (1.9 percent of GDP). The shortfall reflects a strategic decision to reprofile capital spending while prioritizing ongoing high-impact infrastructure projects and concessional financing arrangements.
133. Of the total CAPEX, domestically financed capital spending amounted to GH¢7.2 billion, against a target of GH¢15.9 billion, representing 66.2 percent of total CAPEX. Foreign-financed capital expenditure accounted for the remaining 33.8 percent, amounting to GH¢3.7 billion, compared to a target of GH¢10.7 billion, due largely to delayed disbursements as a result of the on-going bilateral debt restructuring.
134. Mr. Speaker, arrears clearance during the first three quarters of the year amounted to GH¢11.5 billion, slightly above the target of GH¢11.2 billion. Importantly, there was no accumulation of new payables during the period, clear evidence of effective commitment control and strengthened fiscal discipline.
135. Mr. Speaker, expenditure on social protection programmes remained on track, reaffirming Government's commitment to protecting the poor and vulnerable even as we consolidate fiscal gains. Flagship interventions in education, health,

and livelihood empowerment continued uninterrupted, ensuring that fiscal prudence did not come at the expense of social progress.

136. Mr. Speaker, these outcomes demonstrate that Ghana's expenditure management framework is working as intended, anchored on efficiency, transparency, and sustainability. The balance between fiscal restraint and social responsibility remains the cornerstone of our recovery.

Figure 5: Summary of Q1-Q3 2025 Expenditure Performance

Source: MoF

2025 Q1-Q3 Budget Balances and Financing Operations

137. Mr. Speaker, Government's fiscal operations for the first three quarters of 2025 resulted in an overall cash deficit of GH¢32.5 billion, equivalent to 2.3 percent of GDP, significantly better than the target of GH¢55.6 billion (4.0 percent of GDP).
138. This strong fiscal performance reflects disciplined expenditure management and steady revenue mobilisation. The deficit was financed through a balanced mix of domestic and external sources, consistent with our medium-term debt strategy.
139. Net Domestic Financing (NDF) amounted to GH¢24.4 billion (1.7 percent of GDP), well below the programmed target of GH¢46.1 billion (3.3 percent of GDP), accounting for 75.2 percent of total financing. This outcome demonstrates the improved liquidity conditions in the domestic market and Government's prudent approach to managing domestic borrowing.
140. Mr. Speaker, Net Foreign Financing amounted to GH¢9.0 billion (0.6 percent of GDP), against the target of GH¢10.6 billion (0.8 percent of GDP). Project loan disbursements totalled GH¢2.8 billion, below the target of GH¢8.7 billion, reflecting slower project execution rates and Government's decision to reprioritise and repurpose the project loan portfolio to align with fiscal

consolidation and debt sustainability objectives. However, Programme loan disbursements stood at GH¢12.7 billion, exceeding the target of GH¢10.8 billion, underscoring the confidence of development partners in Ghana's ongoing reform efforts.

141. Mr. Speaker, the strong fiscal outturns recorded to date confirm that we are firmly on course to meet the fiscal and debt targets enshrined in the Public Financial Management (Amendment) Act, 2025 (Act 1136). This performance reflects a credible shift from short-term stabilisation to medium-term fiscal sustainability, anchored on discipline, reform, and transparency.

Figure 6: Summary of Q1-Q3 2025 Financing Operations

Source: MoF

Social Protection

142. Mr. Speaker, even as we pursued fiscal consolidation, Government protected and expanded social spending to cushion vulnerable households. Allocations to social-protection programmes increased to 0.9 percent of GDP, up from 0.6 percent in 2024.
143. The Livelihood Empowerment Against Poverty (LEAP) programme maintained automatic inflation indexation of benefits, preserving their real value. Beneficiary validation continued, with over 58,000 households recertified and an expanded target of 400,000 households is expected by March 2026.
144. The Ghana School Feeding Programme's budget rose by 33 percent, enabling the timely payment of caterers and improved meal quality. In health, the uncapping of the National Health Insurance Fund under the Earmarked Funds Capping and Realignment Act has allowed the NHIS to clear arrears to providers, fund essential vaccines, and launch the Free Primary Healthcare initiative. Education spending increased and the Capitation Grant was raised by 73 percent. Also, arrears accumulated in 2023 were fully cleared.

145. Mr. Speaker, these targeted interventions reflect our conviction that economic stability must translate into social progress.

Update on Audit of Arrears and Payable

146. Rt. Hon. Speaker, upon assuming office, Government was confronted with outstanding arrears and payables totalling GH¢68.8 billion, comprising GH¢50.5 billion in unpaid invoices and interim payment certificates (IPCs) and GH¢18.3 billion in outstanding Bank Transfer Advice (BTAs).
147. Mr. Speaker, in fulfilment of our pledge to protect the public purse and ensure value for money, we commissioned the Auditor-General, working jointly with PwC and EY, to conduct an independent validation of these arrears and commitments.
148. Mr. Speaker, as I informed this august House during the Mid-Year Review of the 2025 Budget, this special audit covered all verified arrears and commitments as at end-2024.
149. The objective was to establish the legitimacy of the claims, identify irregularities, and address the fiscal risks arising from the accumulation of arrears and outstanding commitments.
150. Mr. Speaker, that exercise has now been completed, and the Auditor-General is finalising the report for submission to Parliament.
151. The findings, Mr. Speaker, are troubling and damning:
- Out of the GH¢68.8 billion payables submitted for audit, GH¢47.8 billion was validated as legitimate claims;
 - GH¢10.4 billion in claims were rejected, due to unsupported documentation, duplicate and recycled IPCs, inflated invoices, falsified stores receipts, and instances of no work done;
 - Of this rejected amount, GH¢1 billion comprised Bank Transfer Advices that had already been approved and were ready for payment. Without this audit, those funds would have been disbursed, underscoring the importance of vigilance and verification; and
 - An amount of GH¢2 billion was reclassified from claims and BTAs to commitments.
152. Mr. Speaker, an additional GH¢8.6 billion remains under review, pending further validation due to inadequate documentation, missing third-party confirmations, and lack of supporting contracts.
153. These yet-to-be-validated claims may exist in part, but further evidence will be required before they can be recognised as legitimate obligations of the State.
154. Mr. Speaker, this audit has not only saved the nation billions in potential losses but also restored accountability, strengthened expenditure controls, and reaffirmed this Government's unwavering commitment to fiscal discipline and transparency.

Table 6: Summary of Audit Results for Claims and BTAs

Item	Amount submitted by MoF for audit	Amount reclassified	Amount restated	Amount validated for payment	Amount rejected	Amount to be justified before payment
Claims	50,488,960,229	-2,030,104,528	48,458,855,701	31,517,682,519	9,361,565,439	7,579,090,635
BTAs	18,278,835,554	-2,600,000	18,276,235,554	16,238,299,404	998,846,357	1,039,089,794
Total	68,767,795,783	-2,032,704,528	66,735,091,255	47,755,981,923	10,360,411,796	8,618,180,429

Source: Special Audit Report on Outstanding Claims and Commitments

155. Mr. Speaker, since GH¢10.36 billion out of the GH¢68.76 billion arrears has been rejected by the Auditor-General, the Ministry of Finance has excluded that amount from the 2024 fiscal framework.

Update on the IMF-Supported Programme

156. Mr. Speaker, Ghana's performance under the IMF-supported Programme has been strong and consistent, reflecting our firm commitment to stability and reform. On 7th July 2025, the IMF Executive Board approved Ghana's Fourth Review of the Programme, following decisive corrective measures that brought the programme back on track and unlocked an immediate US\$367 million disbursement to support our reserves and budget.
157. Mr. Speaker, in October 2025, Ghana reached a Staff-Level Agreement on the Fifth Review after meeting all end-June performance criteria and targets, including maintaining inflation within the agreed consultation band. Out of eleven structural benchmarks scheduled between June and September, nine have been fully implemented, while the rest are being refined to ensure long-term sustainability.
158. Mr. Speaker, our performance under the Programme shows that Ghana's recovery is real, disciplined, and home-grown. The IMF programme has served as a strong policy anchor, reinforcing credibility while allowing Government to drive reforms that reflect our national priorities, restoring confidence, rebuilding resilience, and securing lasting prosperity for the Ghanaian people.

Update on Power Purchase Agreement (PPA) Renegotiation and other Reforms in the Energy Sector

159. Mr. Speaker, we inherited a significant US\$1.4 billion legacy debt owed to Independent Power Producers (IPPs), a major burden on the energy sector and the national budget.
160. Mr. Speaker, I am pleased to report that we have successfully renegotiated all Power Purchase Agreements (PPAs) with the IPPs. This was achieved entirely by a team of Ghanaian experts, at no cost to the State, demonstrating the strength of local capacity and our resolve to find homegrown solutions to structural challenges.
161. The renegotiations have delivered concrete results. They have saved the nation over US\$250 million, while reprofiling the remaining US\$1.1 billion in legacy obligations over a four-year period ending in 2028, thus easing cash flow pressures and ensuring financial sustainability in the energy sector.

162. Mr. Speaker, Government is now fully current on its payment obligations to IPPs under the renegotiated agreements. In 2025 alone, we have paid US\$300 million and have programmed an additional US\$345 million for payment in 2026.
163. Furthermore, all new IPP invoices are being settled on time. We are no longer accumulating arrears or adding to the legacy debt stock. For the first time in over a decade, Ghana's energy sector is operating on a predictable and sustainable payment schedule.
164. On renewable energy, tariffs for solar projects such as BXC and Meinergy have been reduced from 18 cents to 6.5 cents per kilowatt-hour, drastically cutting generation costs and promoting affordability for consumers.
165. Mr. Speaker, the results are already visible. The Electricity Company of Ghana (ECG) has seen its average monthly revenue rise from GH¢900 million in 2024 to GH¢1.7 billion in 2025, almost 90 percent increase, thanks to full compliance with the Cash Waterfall Mechanism (CWM). This is real progress toward a financially viable and transparent power sector that supports growth without burdening the taxpayer.
166. In the energy sector, the implementation of the Energy Sector Recovery Programme continued steadily.
167. Cabinet has also approved a strategy to open the power-distribution segment to private participation, with concessions expected to be awarded in 2026.
168. Together, these measures have stabilised electricity supply and reduced fiscal risks associated with the sector.

Cocobod Reforms

169. Mr. Speaker, in the cocoa sector, Government launched the COCOBOD Turnaround Strategy to restore financial discipline, rebuild sustainability, and secure fair and competitive prices for our hardworking farmers.
170. For the 2025/26 crop season, the producer price of cocoa has been set at GH¢58,000 per tonne, representing approximately 68 percent of the international FOB price, one of the highest farmer's share globally. This policy not only safeguards farm incomes but also preserves COCOBOD's liquidity and long-term operational stability.
171. Mr. Speaker, a comprehensive functional review of COCOBOD's departments and subsidiaries has been completed. The exercise has cut quasi-fiscal spending, improved efficiency, and rationalised cocoa roads contracts from GH¢21 billion to GH¢6 billion, freeing vital fiscal space for core investments in productivity, research, and extension services.

172. These reforms mark a decisive step toward a leaner, more transparent, and performance-driven COCOBOD, one that rewards farmers, supports industry growth, and protects Ghana's position as the world's leading supplier of premium cocoa.

Revenue Reforms

173. The Ghana Revenue Authority is expected to complete the cleansing of its taxpayer registry and launch the first stage of the Integrated Tax Administration System (ITAS) by end-December 2025.

Abuse in the Use of Import Declaration Forms (IDF)

174. Mr. Speaker, as part of our drive to strengthen domestic revenue mobilisation and protect the integrity of the financial system, the Ministry of Finance conducted a comprehensive assessment of Ghana's import transaction processes.
175. The assessment exposed a staggering abuse of Import Declaration Forms (IDFs), a tool meant to support legitimate trade but now hijacked for illicit transfers and tax evasion.
176. The irregularities uncovered include:
- Importers transferring funds abroad in the name of importation with no goods brought in;
 - Importers remitting more than the actual value of goods imported; and
 - Banks approving transfers above the US\$200,000 limit set by the Bank of Ghana without submitting supporting documentation.
177. Between April 2020 and August 2025, over 525,000 transactions amounting to an equivalent of US\$83 billion were processed through the Integrated Customs Management System (ICUMS).
178. Surprisingly, only 10,440 of these transactions were linked to actual imports. An equivalent of US\$31 billion in transactions were transferred abroad with no goods imported at all.
179. This leak has bled our reserves, weakened the Ghana cedi and deprived the economy of resources that should have built schools, roads and hospitals.
180. Speaker, the audit also revealed that some importers under-declared values to hide about GH¢76 billion in imports, denying Ghana about GH¢11 billion in potential revenue.
181. Other importers inflated transfers values, aided by some banks that ignored the US\$200,000.00 ceiling set by the Bank of Ghana. Over 17,700 IDF applications broke these limits, channelling an equivalent of about US\$20 billion in unverified transfers of Ghana.
182. This was not a loophole; it was an organised system of exploitation. In fact, an organized crime.

183. Persons and institutions behind this activity are being referred to the Attorney-General, EOCO, FIC and CID.
184. Also, the Ghana Revenue Authority will establish a special recovery unit to reclaim lost revenue.
185. Mr. Speaker, Government has acted decisively.
186. An Inter-Agency Committee will now audit all import-related transfers going forward. The Bank of Ghana will also match every forex transfer with verified import data.
187. Government remains fully committed to upholding the integrity of the import system and enforcing accountability to ensure every dollar sent abroad is matched by genuine economic value for the Ghanaian people.

Governance and Anti-Corruption

188. Mr. Speaker, Good governance remains the cornerstone of our economic transformation. In November 2025, Government published a comprehensive Governance Diagnostic Report with technical support from the IMF, providing a roadmap to strengthen institutions, enhance transparency, and fight corruption.
189. We updated the National Anti-Corruption Action Plan through a participatory process involving civil-society organisations and development partners.
190. In December 2025, Government will lay before Parliament a Conduct of Public Officers Bill requiring senior public officials, including Ministers, Members of Parliament, and heads of state-owned enterprises, to publicly disclose assets upon assumption of and exit from office, with a firm sanction's regime for non-compliance. These steps reaffirm our commitment to integrity and accountability in public service.
191. We have also strengthened our anti-money-laundering and counter-terrorist-financing frameworks in line with the 2024 National Risk Assessment and the 2025–2029 National Action Plan. A Joint Action Plan on Illicit Financial Flows in the extractive sector, involving the Bank of Ghana, Financial Intelligence Centre, and law-enforcement agencies, was launched in October 2025 to safeguard our natural-resource wealth.
192. Mr. Speaker, the story of 2025 so far is one of resilience, reform, and recovery. Our collective efforts have stabilised the cedi, reduced inflation to single digits, restored fiscal discipline, and revived growth. Through bold structural reforms, we have rebuilt the credibility of our institutions and set Ghana firmly on a path toward sustained prosperity.

193. But we also recognise that the work is not finished. We must consolidate these gains, deepen productivity in agriculture and industry, expand access to finance, and continue protecting the most vulnerable.

Public Debt Developments

Improvement in Overall Debt Position

194. Mr. Speaker, Ghana's public debt has fallen sharply since January 2025, showing that our debt management strategy is working and fiscal consolidation is delivering results.
195. Provisional data shows that total public debt declined from GH¢726.7 billion (61.8 percent of GDP) at end-December 2024 to GH¢630.2 billion (45.0 percent of GDP) by end-October 2025. This represents one of the steepest improvements in our debt metrics in recent history.
196. This turnaround reflects disciplined fiscal management, prudent borrowing, effective liability operations, and a strong performance of the Ghana cedi. For the first time in over a decade, the rate of debt accumulation has turned negative, falling from a positive 19.1 percent in 2024 to a negative 13.3 percent by October 2025. It is a powerful signal that Ghana's public finances are on a sustainable path once again.

Figure 7: Public Debt Trends in Nominal (GH¢ million) & Percentages (2020-2025)

** Provisional

Source: MoF

External and Domestic Debt Composition

197. Mr. Speaker, external debt declined by GH¢97.6 billion (23.4 percent), from GH¢416.8 billion in December 2024 to GH¢319.2 billion in October 2025, driven by cedi appreciation, fiscal discipline, and reduced external borrowing.
198. Domestic debt, on the other hand, rose only modestly, from GH¢309.8 billion to GH¢311.0 billion, reflecting controlled domestic financing to support the 2025 Budget. As a result, the debt mix has improved significantly, with domestic debt now representing 49.4 percent of total public debt, up from 42.6 percent. This shift underscores Government's commitment to deepening local financial markets and reducing external vulnerabilities.

Progress on Debt Restructuring

199. Mr. Speaker, Ghana's comprehensive debt restructuring is firmly on track. On October 13, 2025, the Memorandum of Understanding with Official Bilateral Creditors became effective, following the completion of all conditions precedent.
200. Bilateral agreements have already been signed with China, Finland, France, Germany, Spain, and the United Kingdom, with the remaining countries expected to finalise theirs by December 2025.
201. On the commercial debt front, Government has reached Agreements in Principle (AIPs) with several major lenders. The Official Creditor Committee (OCC) has confirmed that these AIPs meet the Comparability of Treatment principle, paving the way for broader participation. Negotiations continue with remaining creditors to conclude the process, ensuring Ghana's debt profile remains equitable and sustainable.

Domestic Debt Market Recovery

202. Mr. Speaker, our domestic debt market has staged a strong comeback on the back of macroeconomic stability and renewed investor confidence.
203. By October 2025, total issuance reached GH¢234.0 billion, with GH¢229.6 billion coming from Treasury bills. Importantly, Government honoured all coupon payments under the Domestic Debt Exchange Programme, amounting to GH¢20.3 billion, of which GH¢16.8 billion was paid in cash and GH¢3.6 billion in kind.
204. We are also current on all debt service payments to non-tendered bondholders. These timely payments have reinforced credibility, restored trust, and revitalised participation in the domestic market.

Declining Yields and Improved Borrowing Costs

205. Mr. Speaker, borrowing costs have fallen dramatically across all maturities:
- The 91-day Treasury Bill rate declined from 28.04 percent in December 2024 to 10.67 percent in October 2025, a historic 1,736 basis point reduction, the lowest in nearly 14 years;
 - The 182-day rate fell from 28.68 percent to 12.47 percent, down by 1,622 basis points; and
 - The 364-day rate dropped from 30.07 percent to 12.88 percent, a 1,719 basis point decline.
206. This average decline of 1,692 basis points represents a remarkable easing of credit conditions. It lowers the cost of government financing, improves private sector access to credit, and creates fiscal space for productive, growth-oriented investment.
207. Mr. Speaker, Ghana's story is also resonating globally. Our Eurobond prices have risen by 17 percent year-to-date, while yields have fallen by over 300

basis points, signalling renewed investor confidence in the resilience and credibility of Ghana's economic management.

A New Era of Debt Sustainability

208. Mr. Speaker, Ghana's debt trajectory has shifted decisively toward sustainability. The combination of sound fiscal reforms, effective debt management, and restored investor confidence has set Ghana on a clear path to debt stability.
209. We are not merely reducing debt; we are reclaiming Ghana's financial sovereignty and credibility in international markets. The Government's actions are rebuilding trust, strengthening our fiscal institutions, and positioning Ghana as a model of responsible economic stewardship.
210. Mr. Speaker, the message is clear: Ghana is rebuilding with discipline, delivering results, and ensuring that debt serves development, not the other way around.

Update on Sovereign Credit Ratings

211. Mr. Speaker, Ghana's recovery is now being acknowledged globally. Under the visionary leadership of His Excellency President John Dramani Mahama, our disciplined reforms have repositioned the Ghanaian economy on a credible, upward path, one that blends fiscal responsibility with social investment.
212. Ghana's sovereign credit ratings have improved across all major international agencies, reflecting growing confidence in our macroeconomic reforms and policy direction.
213. Mr. Speaker Fitch Ratings upgraded Ghana's Long-Term Foreign-Currency Issuer Default Rating to 'B-' with a Stable Outlook on 16th June 2025, lifting our country out of "Restricted Default" status. Fitch cited Ghana's strong fiscal discipline, successful external debt restructuring, a resilient cedi, and improved external buffers as the key drivers of this upgrade.
214. Moody's Investors Service, in October 2025, followed with an upgrade of Ghana's long-term foreign and local currency ratings to 'Caa1' from 'Caa2', maintaining a Stable Outlook. The agency credited Ghana's progress on fiscal consolidation, growing reserves, and consistent policy execution under the IMF-supported programme.
215. Mr. Speaker, on 7th November 2025, S&P Global Ratings also raised its long- and short-term foreign and local currency sovereign credit ratings on Ghana to 'B-/B' from 'CCC+/C' with stable outlook. They also revised up transfer and convertibility assessment on Ghana to 'B-' from 'CCC+'.
216. Mr. Speaker, these upgrades represent a collective vote of confidence from the international financial community. They validate the results of Government's prudent economic management, structural reforms, and commitment to transparent debt restructuring.

217. Our sovereign credit standing today is significantly stronger than it was a year ago. Mr. Speaker, these improved ratings are not merely symbolic, they carry real economic value. They translate into lower risk premiums, reduced domestic interest rates, and renewed investor confidence in Ghana's bonds and capital markets.
218. This progress directly supports cheaper financing for infrastructure, greater access to private capital, and more fiscal space to expand social and development programmes.
219. The world has taken notice: Ghana is back, credible, stable, and open for business.
220. Mr. Speaker, these upgrades are not the destination; they are a mandate to stay the course. Government will deepen fiscal reforms, maintain transparency, and protect the hard-won gains achieved so far.
221. The renewed confidence of international rating agencies is not only a reflection of past performance, but also a call to sustain discipline, build resilience, and transform credibility into tangible prosperity for the Ghanaian people.

Fiscal Risks to the 2025 Budget

222. Mr. Speaker, while Ghana's recovery in 2025 remains strong, we must stay alert to fiscal risks that could slow our progress. Pressures in the cocoa, financial, and energy sectors still pose potential threats to stability. Government's focus is clear, to confront these risks head-on through disciplined oversight, tighter spending controls, and structural reforms that safeguard debt sustainability and protect the gains of our recovery.

Cocoa Sector Fiscal Risks

223. Mr. Speaker, the 2025 Budget identified serious headwinds in the cocoa sector: declining output, weak finances, elevated debt, large volumes of low-priced rollover contracts, smuggling, and high quasi-fiscal costs—especially cocoa roads—accounting for about 66.8 percent of COCOBOD debt, despite record world prices.
224. Mr. Speaker, the sector is now showing early signs of recovery, even amid softer global prices. Output rose from 530,783 metric tonnes in 2023/2024 to 603,840 metric tonnes by end-2024/2025, supported by targeted and incentivised anti-smuggling actions.
225. Mr. Speaker, production for 2025/2026 is projected at 650,000 metric tonnes. To reach this, Government has budgeted GH¢2.4 billion for CODAPEC (mass spraying at no cost to farmers) and GH¢2.7 billion for free fertiliser distribution.
226. Mr. Speaker, to curb smuggling in 2025/2026, the cocoa farm-gate price was raised from GH¢49,600/MT to GH¢58,000/MT, narrowing cross-border price gaps and reducing arbitrage.

227. Mr. Speaker, of the 333,000MT low-priced forward sales rolled over from 2023/2024, 243,000MT have been settled. The remaining 90,000MT (about US\$234 million) will be regularised in 2025/2026.
228. Mr. Speaker, COCOBOD's outstanding debt declined from GH¢32.0 billion (March 2025) to GH¢20.6 billion (September 2025), including payments of US\$130 million and GH¢3.6 billion.
229. Mr. Speaker, Government's cocoa roads rationalisation has cut cocoa roads debt from GH¢21.0 billion to GH¢6.9 billion.
230. Mr. Speaker, legislative steps have begun to amend the COCOBOD Act, 1984 (PNDCL 81) to shift oversight from the Ministry of Food and Agriculture to the Ministry of Finance to strengthen fiscal risk management and accountability.

Financial Sector Risks

231. Mr. Speaker, despite major reforms, sector clean-up and the DDEP, residual vulnerabilities persist: capital adequacy pressures, liquidity gaps, legacy exposures, and high concentration in Government securities. These underscore the tight links between fiscal and financial stability.
232. Mr. Speaker, following the 2020 banking-sector bailout, the Receiver requires about GH¢2.0 billion to resolve further claims for 55,376 depositors of failed savings and loans companies. GH¢3.2 billion (about 75 percent) of the estimated GH¢4.2 billion recoverable assets have been realised.
233. Mr. Speaker, assets under management rose to GH¢85.5 million (about 10 percent of GDP) by September 2025, from GH¢72.0 billion end-2024. Risks remain from distressed Fund Management Companies (FMCs): about GH¢5.0 billion of investor funds are at risk (GH¢4.4 billion to complete bailouts; GH¢600 million to stabilise distressed FMCs). Asset recovery reached GH¢965 million against a GH¢1.4 billion target by September 2025.
234. Mr. Speaker, under the Reset Agenda, a Forward-Looking Overarching Restructuring Plan for NIB is in place. In May 2025, Government recapitalised NIB with GH¢1.9 billion, completing prior actions for the fifth IMF tranche (US\$367 million).
235. Mr. Speaker, a system-wide Overall Reform Strategy will recapitalise and strengthen other distressed State-Owned Banks. In 2026, this Strategy will be executed to ensure State-Owned Banks become net-positive to ensure fiscal and financial stability, end recurring losses and solvency risks, and position qualifying banks for eventual listing on the GSE.

Energy Sector Risks

236. Mr. Speaker, the 2025 Budget flagged chronic energy-sector weaknesses driving rising shortfalls: poor collections, high system losses, elevated generation costs from limited competition and renewables, non-cost-reflective

- tariffs, weak compliance with the Cash Waterfall Mechanism (CWM), SOE inefficiencies, and unwarranted subsidies.
237. Mr. Speaker, under the Energy Sector Recovery Programme (ESRP), enforcement of CWM has improved markedly: monthly declarations rose from about GH¢950 million in 2024 to GH¢1.7 billion by August 2025.
238. Mr. Speaker, to align SOEs with fiscal consolidation, Government now requires prior approval and commitment authorisation for SOE spending and has halted subsidies to selected private operators.
239. The Government concluded renegotiations with nine IPPs, AKSA, BXC, CENIT Cenpower, Early Power, Karpower, Meinergy, Sunon Asogli, and Twin City (Amandi), securing over US\$250 million in debt discounts, extending the legacy-debt cut-off from June 2023 to June 2025, and lowering capacity charges for some plants.
240. Mr. Speaker, Cabinet has approved a Private Sector Participation (PSP) strategy for ECG to tackle billing and collections inefficiencies. A Transaction Advisor procurement is under way (completion targeted end-November 2025); concession contracts are expected by Q3 2026.
241. Mr. Speaker, the Ministry of Finance agreed on a payment plan with the World Bank to restore drawn Standby LCs and clear monthly gas invoices. From January–August 2025, US\$384.6 million has been paid, reducing LC drawdowns to US\$210.5 million; full restoration is targeted by end-April 2026.
242. Mr. Speaker, to cut liquid-fuel reliance and secure supply, Government has arranged increased gas deliveries to the power sector by about 70 MMscf/day.
243. Mr. Speaker, about US\$1.5 billion has been paid in 2025, primarily to honour renegotiated PPA commitments, reduce IPP legacy arrears, restore OCTP LCs, and stay current on monthly invoices to OCTP partners.
244. Mr. Speaker, ESRP financial modelling in March 2025 projected a business as usual (BAU) shortfall of US\$2.2 billion for 2025. The latest update revises this down to US\$1.6 billion, reflecting gains from the reforms already implemented.

Table 7: Energy Sector Shortfall Payments in 2025

Item	Amount (US\$)
IPPs Legacy Debt/ Arrears Payment	
Karpower	120,000,000.00
Sunon Asogli	26,000,000.00
Cenpower	39,444,180.00

Monetary Sector Performance

245. Mr. Speaker, monetary conditions in 2025 continued to reflect the Bank of Ghana's firm commitment to disinflation and macroeconomic stability. Growth in monetary aggregates moderated further in September 2025, consistent with a tight policy stance and active liquidity management.
246. Annual growth in broad money (M2+) slowed sharply to 13.8 percent, compared with 42.0 percent a year earlier. This deceleration reflected a contraction in both Net Foreign Assets (NFA) and Net Domestic Assets (NDA). Despite this moderation, the NFA position remained strong and resilient.
247. The growth in NFA was largely supported by inflows from the domestic gold purchase programme, remittances, foreign exchange purchases from mining companies, and multilateral disbursements. These inflows strengthened external buffers and injected cedi liquidity into the economy.
248. To contain monetary expansion, the Bank of Ghana intensified Open Market Operations (OMO) in alignment with its disinflation objectives. Growth in NDA was curtailed through enhanced sterilisation and reductions in Net Claims on Government (NCG). A total of GH¢62.0 billion was sterilised year-on-year through OMO and forward foreign exchange auctions, helping to stabilise liquidity and maintain monetary discipline.

249. The moderation in M2+ growth was broad-based, driven by lower expansion in all components. Growth in currency in circulation and demand deposits declined relative to 2024, while savings and time deposits increased marginally. Foreign currency deposits also contracted, reflecting both cedi stability and reduced dollarisation.
250. Mr. Speaker, base money growth declined significantly to 6.9 percent in September 2025, down from 90.2 percent a year earlier, clear evidence of tighter liquidity. Growth in Net Domestic Assets of the Bank of Ghana slowed down to 4.4 percent, compared to a growth rate of 11.1 percent in 2024. This outcome was driven by lower net claims on government and banks and intensified open market operations. Growth in the Net Foreign Assets increased significantly by 48.5 percent from the position a year ago in 2024 and reflects the combination of a build-up in reserves and decrease in foreign liabilities.
251. Credit growth remained subdued, reflecting shifts in banks' portfolio preferences toward Bank of Ghana bills and the effects of the stronger exchange rate. This development aligns with the tight appropriate monetary policy stance maintained since January 2025 to consolidate the fight against inflation.
252. Private sector credit increased by GH¢12.7 billion (13.3 percent) compared with GH¢17.1 billion (15.1 percent) in September 2024, maintaining a dominant 95.5 percent share of total outstanding credit. In real terms, however, private sector credit growth edged up to 5.2 percent, from a growth of 3.4 percent in 2024. By September 2025, total outstanding credit to the private sector stood at GH¢111.8 billion, compared with GH¢101.5 billion a year earlier in September 2024.
253. Credit to the public sector contracted by GH¢3.0 billion (-39.7 percent) in September 2025, compared to an increase of GH¢1.5 billion (24.3 percent) in 2024. The decline in public sector credit underscores Government's commitment to fiscal consolidation and reduced bank exposure. Outstanding public sector credit stood at GH¢4.6 billion, down from GH¢7.6 billion a year earlier.
254. Looking ahead, credit growth is expected to pick up as the Monetary Policy Committee (MPC) continues a cautious policy easing cycle, in response to declining inflation to support private investment and stimulate economic activity, while safeguarding price stability.
255. Mr. Speaker, the Interbank Weighted Average Rate (IWAR) declined in tandem with the reduction in the Monetary Policy Rate (MPR), settling at 23.1 percent in September 2025, compared to 28.8 percent as at September 2024. The MPR itself stood at 21.5 percent, establishing the floor of the policy corridor at 19.5 percent.

256. The Ghana Reference Rate (GRR) also fell in line with the overall decline in policy and money market rates, dropping to 19.9 percent in September 2025 from 29.3 percent a year earlier.
257. Lending rates mirrored this downward trend, with the average bank lending rate easing to 22.7 percent, from 30.6 percent in 2024. Meanwhile, demand, savings, and time deposit rates remained broadly unchanged, resulting in higher interest spreads and improved bank profitability.

Financial Sector Performance

258. Mr. Speaker, the banking sector has continued to rebound strongly from the impact of the Domestic Debt Exchange Programme (DDEP). Profit-before-tax rose by 40.9 percent to GH¢16.8 billion in September 2025, while profit-after-tax increased by 42.1 percent to GH¢11.0 billion, compared with growth rates of 23.6 percent and 25.1 percent, respectively, in 2024. Consequently, both the Return on Assets (ROA) and Return on Equity (ROE) improved significantly, reflecting stronger profitability and operational efficiency.
259. The Banking sector's asset quality also improved. The Non-Performing Loan (NPL) ratio declined to 20.4 percent in September 2025, from 22.8 percent in 2024, mainly due to the strengthening of the Cedi, write-offs, loan recoveries and a moderate growth in bank credit. The stock of NPLs contracted by 0.8 percent to GH¢20.7 billion, down from GH¢20.8 billion a year earlier, reflecting stronger credit recovery frameworks.
260. Mr. Speaker, to consolidate these gains, the Bank of Ghana has issued NPL reduction strategy guidelines, targeting a system-wide NPL ratio of 10 percent by end-2026. All banks are being closely monitored to ensure compliance and timely implementation.
261. According to the Bank of Ghana's Financial Stability Review, the banking sector remains well-capitalised, with an average Capital Adequacy Ratio of 16.4 percent, comfortably above the regulatory threshold.
262. Mr. Speaker, the recapitalisation of state-owned banks is progressing steadily. The National Investment Bank (NIB) has achieved full compliance with capital requirements, restoring confidence in its ability to channel credit to productive sectors, especially small and medium-sized enterprises.
263. On the equities front, the Ghana Stock Exchange Composite Index climbed 86.9 percent to 8,168.4 points, making Ghana Africa's best-performing stock market in 2025. Market capitalisation expanded by 64.1 percent to GH¢162.6 billion, supported by strong corporate earnings and sustained investor optimism.
264. Mr. Speaker, Ghana's success is also reflected internationally. The prices of our Eurobonds have risen by 17 percent year-to-date, while yields have fallen by over 300 basis points, signalling investor confidence in Ghana's economic recovery.

265. Mr. Speaker, the Ghana Fixed Income Market (GFIM) also recorded robust activity. By the end of October, volumes traded on the secondary bond market surged by 58.4 percent to GH¢214 billion, while liquidity in government bonds more than doubled—rising from 17.0 percent as at end-October 2024 to 43.0 percent in October 2025. Overall market liquidity improved to 57.7 percent, reflecting improved confidence and fiscal prudence.
266. In 2025, the Central Securities Depository (CSD) launched a new post-trade infrastructure aligned with global standards and Ghana’s Capital Market Master Plan. This innovation integrates with SWIFT ISO20022, the GSE Automated Trading System, and BoG’s real time gross settlement (RTGS), enabling seamless and transparent processing.
267. Mr. Speaker, the Ghana Stock Exchange, in collaboration with the International Capital Market Association (ICMA), hosted the inaugural West Africa Bond Conference in April 2025, a milestone that positioned Ghana as a regional leader in capital market innovation and integration.
268. The GSE, working with the Securities and Exchange Commission (SEC), will in 2026 introduce a new regulatory framework for emerging financial instruments, further deepening Ghana’s capital market and widening access to long-term financing.

External Sector Performance

269. Mr. Speaker, Ghana’s external position strengthened remarkably in 2025, reflecting a solid recovery in exports, disciplined import management, and renewed investor confidence in the economy.
270. According to the Bank of Ghana, the country recorded a current account surplus of 4.3 percent of GDP at the end of September 2025, compared with 0.7 percent for the same period in 2024. This improvement was driven by higher gold and cocoa export receipts, robust remittance inflows, and lower import demand for oil and consumer goods.
271. The trade balance remained firmly positive, posting a surplus of US\$7.4 billion. This reflected strong output from the mining sector and rising non-traditional exports, particularly processed foods, textiles, and digital services, which are fast becoming key pillars of Ghana’s export diversification strategy.
272. These favourable external developments resulted in a steady accumulation of international reserves above IMF programme thresholds, strengthening the Cedi and reinforcing Ghana’s external buffers.
273. As of September 2025, gross international reserves stood at approximately US\$11.4 billion, providing around 4.8 months of import cover, compared with US\$7.8 billion a year earlier.

274. Lower global oil prices and strong domestic food production helped reduce the import bill, while efficient operations by the Ghana Gold Board conserved foreign exchange and boosted gold-backed inflows.
275. Mr. Speaker, looking ahead, the continued expansion of cocoa and gold production, together with the diversification of non-traditional exports into processed foods and digital services, will help Ghana sustain its external stability and build long-term resilience.
276. Mr. Speaker, a stronger external sector today means a more resilient economy tomorrow. The combination of a healthier current account, growing reserves, and a stable currency is anchoring price stability, reducing external debt pressures, and enhancing Ghana's creditworthiness.
277. These achievements confirm that Ghana's reforms are restoring stability, not only within our borders but also in our credibility and competitiveness on the global stage.

Exchange Rate Developments

278. Mr. Speaker, over the past ten months, the Ghana Cedi has strengthened significantly against major international currencies, easing external payment pressures and reducing the domestic cost of servicing foreign debt.
279. By 10th November 2025 the interbank rate was GH¢10.92 per US dollar, compared with GH¢16.35 in the corresponding period of 2024. Against the British pound, the Cedi improved to GH¢14.37 from GH¢21.09, and against the euro, it traded at GH¢12.62, compared with GH¢17.50 a year earlier.
280. Cumulatively, the Cedi has appreciated by 34.6 percent, 28.0 percent and 20.5 percent against the US Dollar, British Pound and the Euro, respectively.
281. These movements reflect Ghana's stronger external position, lower inflation, and improved foreign exchange inflows.
282. Mr. Speaker, fiscal discipline, prudent monetary management, and effective demand control were instrumental in tempering external imbalances.
283. The Bank of Ghana's strategic foreign exchange interventions, higher export earnings, and the moderation in import demand all worked together to preserve the Cedi's value and reduce exchange-rate volatility.
284. Mr. Speaker, these exchange-rate gains carry a powerful multiplier effect: they reduce the Cedi cost of external debt service, help contain imported inflation, and improve investor confidence in Ghana's macroeconomic framework.
285. In short, a stronger Cedi underpins Ghana's broader recovery strategy, lowering the cost of living, sustaining fiscal stability, and strengthening the foundation for inclusive economic growth.

Primary Exports: Gold, Cocoa, and Oil Performance

286. Mr. Speaker, Ghana's three main export commodities, gold, cocoa, and crude oil, continued to play a pivotal role in 2025, with gold and cocoa leading the recovery.
287. Gold remained the dominant driver of external sector gains, supported by higher export volumes, rising global prices, and the Ghana Gold Board's enhanced coordination of gold trade and refining.
288. Cocoa receipts also performed strongly on the back of higher prices and improved harvests, while crude oil receipts moderated due to lower production volumes.

Gold

289. Gold export earnings surged by 71.4 percent, rising to US\$13.3 billion in September 2025 from US\$7.7 billion a year earlier. Export volumes grew by 12.1 percent to 4.3 million fine ounces, while the average realised price jumped by about 53 percent to US\$3,108 per fine ounce, compared with US\$2,032 in September 2024.
290. Global gold prices reached record highs in 2025, exceeding US\$4,000 per fine ounce in October, driven by heightened geopolitical tensions, U.S.-China trade frictions, expectations of lower interest rates in advanced economies, and sustained central bank purchases of gold.
291. Mr. Speaker, gold prices are projected to remain above the US\$4,000 mark for the rest of 2025, supporting Ghana's export receipts and further strengthening our external position.

Cocoa

292. Cocoa export receipts, including beans and processed products, rose sharply by 158.6 percent to US\$2.56 billion in September 2025, compared with US\$989.9 million a year earlier.
293. This remarkable performance reflects increased production, stronger global prices, and Ghana's expanding capacity in cocoa processing.
294. The 2025/26 crop season began on a strong note, supported by favourable weather, better farm-gate prices, and the success of the Productivity Enhancement Programmes (PEP).
295. Although cocoa prices have softened slightly due to high global supply expectations, Ghana's medium-term outlook remains positive.
296. Mr. Speaker, Government's initiative to acquire 200,000 hectares for cocoa cultivation is a decisive step toward reviving the sector, targeting production levels of one million metric tonnes and boosting foreign exchange earnings.

Crude Oil

297. Crude oil export receipts declined by 35.7 percent, from US\$3.05 billion in September 2024 to US\$1.96 billion in September 2025, largely reflecting lower export volumes and softer global oil prices.
298. Daily oil production fell from a peak of 200,000 barrels per day in 2019 to around 150,000 barrels per day in 2025, due to natural field depletion and delays in new investments.
299. Looking ahead, the development of new fields such as the Pecan field is expected to bolster production and stabilise Ghana's crude oil export revenues.

Petroleum Sector Developments

Petroleum Production

300. Mr. Speaker, Ghana's petroleum sector maintained steady performance in 2025 despite natural field declines. From January to September 2025, total crude oil production reached 27.93 million barrels (MMbbls).
301. Of this total, the Greater Jubilee Field contributed 16.77 MMbbls, representing 60.0 percent of overall production; the TEN Field accounted for 4.45 MMbbls (15.9 percent), and the Sankofa-Gye Nyame (SGN) Field produced 6.71 MMbbls, or 24.0 percent.

Table 8: Total Crude Oil Production in Barrels Jan -Sep 2025

Source: MoF

302. Mr. Speaker, looking ahead, production is expected to stabilise as ongoing interventions under the National Petroleum Revitalisation Strategy focus on enhancing recovery rates, accelerating new field developments such as Pecan, and attracting private investment to sustain the sector's contribution to national revenue and energy security.

2025 Q1-Q3 Petroleum Receipts

303. Mr. Speaker, total receipts from crude oil liftings for the period January to September 2025 amounted to US\$350.9 million. These receipts were derived from the 81st to 83rd Jubilee liftings and the 17th and 18th liftings from the Sankofa Gye Nyame (SGN) field.

Table 9: Crude Oil Receipts from liftings - Jan-Sep 2025

Sn.	Item	Unit	JUBILEE	TEN	SANKOFA	Total
1	Volume of lift	barrels	2,807,190	-	1,869,414	4,676,604
2	Selling Price	US\$	72.20	-	73.79	
3	Pricing Option Fees	US\$	0.08	-	0.05	-
4	Value of Lift	US\$	212,744,003	-	138,123,155	350,867,158

Source MoF

304. Mr. Speaker, total petroleum receipts from all sources, including liftings, royalties, carried and participating interest, corporate income tax, surface rentals, and other inflows, amounted to US\$600.8 million for the period January to September 2025. This represents 59.4 percent of the full-year projection of US\$1,011.3 million, and a 35.7 percent decline compared to US\$1,071.1 million recorded in the same period of 2024.

Table 10: Crude Oil Receipts from all Sources Jan-Sep 2025 (US\$ Million)

Sn.	Item	JUBILEE	TEN	SGN	Other Receipts	Total
1	Royalties	59,231,152	-	-		59,231,152
2	Carried and Participating Interest	153,512,851	-	138,123,155		291,636,006
3	Corporate Income Tax				244,975,558	244,975,558
4	Surface Rentals				863,046	863,046
5	PHF Income				4,102,098	4,102,098
6	Interest on Late Payment				-	-
	Total Petroleum Receipts	212,744,003	-	138,123,155	249,940,701	600,807,860

Source MoF

305. Mr. Speaker, the reduction in petroleum receipts was primarily driven by a lower average achieved crude oil price of US\$75.0 per barrel, compared to US\$82.3 per barrel over the same period in 2024. In addition, the number of liftings declined as a result of lower production from mature fields.
306. The Carried and Participating Interest (CAPI) contributed the largest share of total receipts at 48 percent, followed by Corporate Income Tax (41 percent) and Royalties (10 percent). Surface Rentals and PHF Income contributed the remaining 1 percent.

Figure 8: Share of Petroleum Receipts from all Sources Jan-Sep 2025

Source MoF

307. Mr. Speaker, petroleum receipts continue to be a vital component of Ghana's fiscal framework, providing crucial support for the Annual Budget Funding Amount (ABFA), the Ghana Stabilisation Fund, and the Ghana Heritage Fund. However, declining output and volatility in global prices underscore the need for accelerated investment in field development, diversification of energy sources, and stronger revenue management to sustain this key sector.
308. Government remains committed to ensuring that petroleum resources are managed transparently and responsibly to promote long-term stability, fiscal sustainability, and intergenerational equity.

2025 Q1-Q3 Petroleum Revenue Distribution

309. Mr. Speaker, petroleum receipts for the period January to September 2025 were distributed in strict accordance with Section 18 of the Petroleum Revenue Management Act, 2011 (Act 815), as amended by Act 893. The Act mandates that no more than 70 percent of Benchmark Revenue be allocated to the Annual Budget Funding Amount (ABFA) and not less than 30 percent be transferred to the Ghana Petroleum Funds (GPFs).
310. Out of the total petroleum revenue of US\$600.8 million, an amount of US\$503.3 million was distributed to designated accounts in compliance with the provisions of the PRMA.
311. Of this distributed amount, the Ghana National Petroleum Corporation (GNPC) received US\$89.0 million, comprising Equity Financing Cost of US\$53.2 million and GNPC's share of net Carried and Participating Interest (CAPI) of US\$35.8 million.
312. The Annual Budget Funding Amount (ABFA) received US\$290.0 million to support the 2025 Budget, while the Ghana Petroleum Funds (GPFs) received US\$124.3 million. In accordance with the statutory 7:3 allocation ratio, the Ghana Stabilisation Fund (GSF) received US\$87.0 million, and the Ghana Heritage Fund (GHF) received US\$37.3 million.
313. Mr. Speaker, these transfers demonstrate Government's continued commitment to the principles of transparency, accountability, and intergenerational equity enshrined in the PRMA. The timely allocation of petroleum revenues has ensured that the ABFA continues to fund critical national priorities in infrastructure, education, agriculture, and health, while the GPFs preserve a portion of our oil wealth to cushion future shocks and safeguard prosperity for generations to come.

Table 12: Distribution of Petroleum Receipts Jan- Sep 2025

Sn.	Item	Unit	Jubilee	TEN	SGN	Total
1	Transfer to GNPC	US\$	57.26	-	31.74	89.00
1.1	o/w Equity Financing cost	US\$	40.27		12.97	53.24
1.2	o/w Crude oil Net Carried and Participation Interest	US\$	16.99		18.77	35.76
2	GoG Net Receipts for Distribution (ABFA and GPFs)	US\$	213.43	-	200.89	414.32
2.1	o/w Gross Annual Budget Funding Amount	US\$	149.4	-	140.62	290.02
2.1.1	o/w Net ABFA	US\$				288.15
2.1.2	o/w DACF	US\$				1.87
2.2	o/w Ghana Petroleum Funds	US\$	64.03	-	60.27	124.30
2.2.1	o/w Ghana Stabilisation Fund	US\$	44.82	-	42.19	87.01
2.2.2	o/w Ghana Heritage Fund	US\$	19.21	-	18.08	37.29
3	Total Payments	US\$	270.69	-	232.63	503.32

Source: MoF

2025 Q1-Q3 ABFA Allocation and Utilization

314. Mr. Speaker, consistent with Section 21(3) of the Petroleum Revenue Management Act (PRMA), as amended, the Annual Budget Funding Amount (ABFA) for 2025 was strategically programmed to support infrastructure development under the “Big Push” initiative, Government’s flagship policy to drive large-scale investment in roads, energy, housing, water systems, and digital infrastructure. The aim is to fast-track job creation, economic diversification, and inclusive growth through targeted capital spending.
315. As of end-September 2025, actual inflows into the ABFA stood at US\$290.0 million, reflecting a shortfall of US\$139.3 million (67.5 percent) against the January–September target of US\$429.8 million.
316. Cumulatively, total ABFA funds available for utilisation, including the unutilised 2024 balance, amounted to US\$294.3 million.
317. Mr. Speaker, actual ABFA utilisation as of end-September 2025 amounted to US\$1.9 million, representing 0.43 percent of the period target and 0.3 percent of the annual ABFA ceiling of US\$573.1 million.
318. The utilised amount during the period consisted solely of transfers to the DACF, while no disbursements had yet been made under the Big Push policy. However, commitment authorisations were issued for several priority projects identified in the 2025 Mid-Year Review, ensuring readiness for rapid implementation in the fourth quarter.
319. Mr. Speaker, Government remains committed to accelerating ABFA utilisation in the final quarter of the year, ensuring that petroleum revenues deliver tangible, job-creating infrastructure and strengthen local development across all regions.

SECTION 4: SECTORAL PERFORMANCE

320. Mr. Speaker, the story of Ghana's economic recovery in 2025 is best told through the work of our Ministries, Departments, and Agencies, the engines driving transformation on the ground.
321. Across every sector, from agriculture and industry to governance, infrastructure, and human development, performance in 2025 reflects disciplined execution, innovation, and resilience.
322. This chapter presents a comprehensive account of how each sector translated policy into measurable progress, and how, in 2026, Government will build on these gains to accelerate inclusive growth, create jobs, and strengthen the institutions that sustain our nation's prosperity.

Administration Sector

323. Mr. Speaker, the Administration Sector remains at the heart of Ghana's governance architecture. Its mandate is to strengthen democratic institutions, improve public financial management, deepen decentralisation, enhance accountability, advance sound public policy, and sustain productive international relations. Together, these efforts form the governance foundation for economic transformation and inclusive national development.
324. Every programme under this sector is anchored in Ghana's commitment to the Sustainable Development Goals (SDGs) and the African Union Agenda 2063, ensuring that good governance translates into tangible progress for every Ghanaian.

Office of Government Machinery

325. Mr. Speaker, the Office of Government Machinery (OGM) continues to provide the strategic and operational leadership required by the Presidency and key national institutions. In 2025, the OGM focused on improving coordination, decision-making efficiency, and accountability across government.
326. The Cabinet Secretariat sustained effective policy coordination, organising seven Cabinet meetings, processing 96 Cabinet memoranda, and producing 72 detailed reports on Cabinet decisions, all submitted to Parliament by September 2025. These decisions form the backbone of government's policy implementation and oversight functions.
327. The State Protocol Department ensured Ghana's active presence in global diplomacy. It facilitated the hosting of 31 Heads of State and senior government officials, while 17 new Ambassadors and High Commissioners presented their Letters of Credence to His Excellency the President, strengthening our international partnerships.

328. In 2026, the Secretariat will scale up human capital development, with a renewed focus on science, technology, and ICT education as key enablers of innovation and competitiveness.
329. To promote accountability and safeguard public assets, the Office of the Administrator-General (OAG) compiled 82 percent of stock-taking reports on assets assigned to former Executive appointees and 61 percent for Regional Ministers and MMDCEs. This marks significant progress toward ensuring full traceability and responsible management of government property.
330. Mr. Speaker, decentralisation remains a central pillar of Ghana's governance reforms. The Inter-Ministerial Coordinating Committee (IMCC) on Decentralisation initiated the development of a Five-Year National Decentralisation Policy (2026–2030), due for finalisation by November 2025. Concurrently, the Legislative Review Committee began reviewing critical laws, including the Local Governance Act, 2016 (Act 923) and the Pre-tertiary Education Act, 2020 (Act 1049), to harmonise our decentralisation framework. These amended laws will be submitted to Parliament in 2026.
331. The Ghana Investment Promotion Centre (GIPC) recorded robust investor interest, registering 80 new projects valued at US\$1.27 billion, of which US\$1.23 billion was foreign direct investment. Additionally, 39 joint ventures were established, creating over 9,000 jobs, a clear signal that investor confidence in Ghana's economy continues to strengthen.
332. Mr. Speaker, the Microfinance and Small Loans Centre (MASLOC) advanced its enterprise support agenda by distributing equipment valued at GH¢159,276 to small entrepreneurs and recovering GH¢8.5 million in outstanding loans. These efforts continue to empower micro-entrepreneurs, particularly women and youth.
333. The Scholarship Secretariat continued to expand access to higher education, disbursing GH¢3.2 million in bursaries to 6,649 postgraduate students across 16 public tertiary institutions. Additionally, GH¢1.61 million in disability grants supported 516 students with special needs. A further 177 students were awarded scholarships to study abroad, while 835 university students participated in the Year Abroad Language Proficiency Programme in countries such as Togo, Benin, Tanzania, China, and Russia.
334. In 2026, the Secretariat will broaden scholarship coverage to include emerging fields like digital innovation, climate science, and biotechnology, ensuring that Ghana's youth are equipped for the jobs of the future.
335. Mr. Speaker, under the Millennium Development Authority (MiDA), significant progress has been made in agriculture through the In-Grower and Out-Grower Schemes. On the Kpong Left Bank (Togorme), over 565 hectares of rice were cultivated by partner firms, engaging 352 in-grower farmers. Under the out-grower scheme, more than 3,900 hectares of rice and soybean were cultivated, directly employing 5,810 out-growers and providing them with inputs and

technical support. This model is driving rural employment and food security in Ghana's northern and eastern belts.

336. The Ghana AIDS Commission (GAC), working with the Ministry of Labour, Jobs and Employment, secured Cabinet approval for the Workplace HIV and Wellness Policy, to be implemented in 2026. The Commission also finalised the National HIV Response Sustainability Roadmap, a key step toward self-financing Ghana's HIV response.
337. Mr. Speaker, timely communication remains essential for accountable governance. The Information Services Department (ISD) produced 823 situational reports and 313 public reaction reports, while leading nationwide awareness campaigns on disaster preparedness, the Single Window Citizens Engagement Service (SWCES), and the Right to Information Act, 2019 (Act 989). The Department also successfully migrated its Online Records Management System onto a secure government server, a milestone in improving transparency and citizen access.
338. In 2026, the Ghana News Agency (GNA) will modernise its operations by completing a multimedia production studio and rolling out digital-first content across all platforms. A new GNA Act will also be introduced to transform the Agency into a modern, financially sustainable national news service capable of competing in the global media landscape.
339. Mr. Speaker, the Public Sector Reform Secretariat will operationalise the National Public Sector Reform Strategy II (NPSRS II) in 2026. This next phase will focus on digital service delivery, accountability, gender inclusion, and the creation of a One-Stop-Shop framework to streamline citizen access to government services.

Office of the Head of the Civil Service

340. Mr. Speaker, 2025 marked a pivotal year in the evolution of Ghana's Civil Service. Following the change in administration and the issuance of the Civil Service (Ministries) Instrument, 2025 (E.I. 1), the structure of Government was streamlined to 23 Ministries, ensuring better coordination, reduced duplication, and enhanced operational efficiency. Officers from the five defunct Ministries were duly reassigned in accordance with the realignment framework.
341. The mandates and institutional structures of newly established and restructured Ministries were carefully reviewed and aligned with national priorities. To ensure that every Ministry was adequately staffed, a strategic deployment programme was implemented, resulting in the equitable redistribution of skills across the Service and the reassignment of 352 officers to various institutions.
342. Mr. Speaker, to strengthen integrity within the Civil Service, the Office of the Head of the Civil Service (OHCS) sensitised 200 officers on the Whistleblower (Amendment) Act, 2023 (Act 1103). Monitoring of National Anti-Corruption Action Plan (NACAP) implementation was integrated into the 2025 Chief Directors' Performance Agreements, with all 25 Chief Directors submitting their

- annual reports to both the Commission on Human Rights and Administrative Justice (CHRAJ) and the Internal Audit Agency (IAA).
343. In pursuit of service excellence, the Office conducted a comprehensive performance assessment of Civil Service institutions nationwide. The 2024 Service-Wide Report revealed that 72 percent of institutions met or exceeded the 50 percent service delivery benchmark. As of mid-2025, compliance had risen to 73 percent, demonstrating growing efficiency, responsiveness, and client focus across the Service.
344. Mr. Speaker, in accordance with Section 88 of the Civil Service Act, 1993 (PNDCL 327), the Office successfully organised the 2025 Civil Service Week and 2024 Awards Ceremony under the theme *"Adapting to Automation, Artificial Intelligence, and E-Governance: The Civil Service in Contemporary Ghana."* The event recognised 118 officers, including nine Chief Directors, nine Directors, five Heads of Department, and 86 staff members, for their innovation, integrity, and outstanding public service.
345. In 2026, the Office will embark on a review of the Civil Service Act, 1993 (PNDCL 327) and the Civil Service Regulations, 1960, to bring them in line with modern administrative realities. Plans are also underway to establish a Service-wide Crèche and operationalise a Counselling Unit to promote staff welfare, mental health, and work-life balance.
346. The Management Services Department (MSD) prepared 10 institutional and structural plans for newly created and restructured Ministries in line with E.I. 1. These plans are helping ensure that every Ministry's structure and staffing levels reflect its mandate and operational demands.
347. In 2026, the Office will intensify institutional reforms, including reviews of organisational manuals, schemes of service, and establishment levels across MDAs. It will also update risk registers, strengthen internal audit systems, and improve compliance monitoring to enhance efficiency and accountability within the public administration framework.
348. Mr. Speaker, the Public Records and Archives Administration Department (PRAAD) continued its digital transformation agenda, digitising 36,851 archival sheets, transferring 532 files for accessioning, assessing records management systems in 35 institutions, and safely disposing of 6,400 boxes of redundant records. These initiatives are ensuring the long-term preservation of national records and improving institutional memory.
349. Looking ahead, PRAAD will restructure dysfunctional records management systems across the Civil Service, train and sensitise records officers, and conduct management reviews in 30 public institutions. The Department will also update Client Service Charters and facilitate the transfer of semi-current records to the National Records Centre, a key step in modernising Ghana's public record-keeping and ensuring transparency and accountability in public service delivery.

Parliament of Ghana

350. Mr. Speaker, in 2025, Parliament reaffirmed its central role in Ghana's democracy by advancing legislation, oversight, and representation with renewed purpose and efficiency. During the year, 111 Plenary Sessions were held, 27 Business Statements adopted, and 266 Committee Sittings convened. A total of 265 reports were submitted, 155 motions debated, and 33 Bills introduced, of which 27 were passed into law. These included key legislations such as the Electronic Transfer Levy (Repeal) Bill, 2025, the Ghana Infrastructure Investment Fund (Amendment) Bill, 2025, and the Ghana Gold Board Bill, 2025, all aimed at strengthening fiscal prudence, investment, and resource governance.
351. Mr. Speaker, Parliament also laid 88 papers, including 32 budget performance reports and 18 Auditor-General's reports for scrutiny. It considered 13 Legislative Instruments (LIs), of which eight came into force, ensuring that delegated legislation aligned with the national reform agenda. Out of 497 parliamentary questions, 222 received responses, demonstrating Parliament's growing responsiveness and accountability. Furthermore, 26 international agreements were ratified and 16 resolutions adopted to support Ghana's multilateral commitments and development cooperation.
352. The Appointments Committee remained instrumental in ensuring that public appointments met the highest standards of integrity and competence. It submitted 15 reports, leading to the approval of 27 Ministers, 13 Deputy Ministers, 16 Regional Ministers, and 7 Supreme Court Justices, all through rigorous vetting processes that reinforced transparency and meritocracy.
353. Parliament also approved disbursement formulae for key statutory funds including the District Assemblies Common Fund (DACF), the Ghana Education Trust Fund (GETFund), and the National Health Insurance Fund (NHIF). These approvals ensured equitable and timely funding for local development, education, and healthcare delivery across the country.
354. Mr. Speaker, in a major institutional milestone, Parliament implemented its new Standing Orders, expanding the number of Committees from 31 to 43. This reform has enhanced specialisation, improved legislative scrutiny, and strengthened sectoral oversight to ensure that every area of national life receives focused attention.
355. Under the Open Parliament Initiative, Ghana's Parliament earned distinction as the most transparent and inclusive legislature in West Africa, according to the Ghana Parliamentary Monitoring Organisation Network (GPMON). This recognition reflects Parliament's growing openness, citizen engagement, and commitment to accountability in governance.
356. Looking ahead to 2026, Parliament will deepen its legislative and oversight functions through evidence-based lawmaking, expansion of Private Member's Bills, and the automation of legislative processes. The next phase of institutional strengthening will focus on enhancing research and policy analysis capacity,

scaling up public education on the role of Parliament, and accelerating the deployment of the e-Parliament system. Investments in ICT infrastructure and financial management systems will ensure that Ghana's Parliament remains a model of modern legislative governance, transparent, data-driven, and responsive to the needs of the people.

Audit Service

357. Mr. Speaker, in 2025, the Audit Service continued to play its vital role in promoting fiscal discipline and accountability across public institutions. Through its nationwide audits, the Service recovered GH¢14.95 million in unearned salaries, allowances, and other financial irregularities. Of this amount, GH¢13.00 million was transferred directly into the Consolidated Fund, strengthening Government's fiscal position and reinforcing public confidence in financial oversight systems.
358. Mr. Speaker, the Service submitted 15 Auditor-General's Reports for the 2024 Financial Year to Parliament, in full compliance with the constitutional deadline of 30th June 2025. Beyond this, a total of 5,557 audits were completed across Ministries, Departments, and Agencies (MDAs); Metropolitan, Municipal, and District Assemblies (MMDAs); educational institutions; public boards; traditional councils; and donor-funded projects. This achievement represents 79.83 percent of the annual audit target, reflecting improved operational efficiency and a stronger commitment to timely reporting.
359. In response to a special request from the Minister for Finance, the Service conducted a nationwide payroll audit aimed at cleansing public payroll data and eliminating ghost names. The exercise uncovered GH¢150.36 million in unearned salaries linked to 2,408 separated staff. Out of this, GH¢10.00 million has already been recovered and paid into the Consolidated Fund, with recovery efforts ongoing for the outstanding balance. This initiative underscores the Service's pivotal role in protecting the public purse and improving payroll integrity across the public sector.
360. Mr. Speaker, in 2026, the Audit Service will scale up its audit operations by conducting comprehensive financial, compliance, and performance audits across all MDAs, MMDAs, and State-Owned Enterprises. The Service will intensify the recovery of misappropriated public funds, strengthen audit follow-up mechanisms, and deepen the implementation of the Assets and Liabilities Declaration Regime. Through these measures, the Audit Service will continue to uphold transparency, accountability, and prudent financial management as pillars of good governance and sustainable development.

Public Services Commission

361. Mr. Speaker, in 2025, the Public Services Commission sustained its mandate of ensuring efficiency, professionalism, and accountability across the public sector. The Commission reviewed and approved six Organograms, five Schemes of Service, and two Conditions of Service, ensuring alignment between institutional mandates and workforce structures. It also issued 21

Technical Clearances and resolved 39 petitions, appeals, and grievances, reinforcing fair labour practices and equity within the public service.

362. A major milestone was achieved with the full operationalisation of the Human Resource Management Information System (HRMIS), which has now gone live across four key Central Management Agencies. So far, 130 Public Service Organisations have been onboarded, with approximately 95 percent of staff on the Government of Ghana mechanised payroll integrated into the system. This marks a major step toward centralised, transparent, and data-driven human resource management in the public sector.
363. In 2026, the Commission will complete the rollout of the HRMIS to all MDAs and MMDAs, conduct a comprehensive Human Resource Audit across government institutions, and intensify training on performance management and digital HR operations to consolidate gains made under the HR reform agenda.

Electoral Commission

364. Mr. Speaker, in 2025, the Electoral Commission delivered on its constitutional mandate with professionalism and transparency. Following the 2024 Presidential and Parliamentary Elections, the Commission conducted elections for the confirmation of 261 Metropolitan, Municipal, and District Chief Executives (MMDCEs). It also organised the re-run of the Ablekuma North Parliamentary Election, conducted the Akwatia By-Election, and supervised the Council of State elections for 16 regional representatives. Furthermore, the Commission managed district-level elections in Nkoranza North, Nkoranza South, and 30 other electoral areas without major incidents, further consolidating Ghana's democratic credentials.
365. In 2026, the Commission will prioritise the maintenance and upgrade of its Data Centre to enhance operational reliability, voter data security, and administrative efficiency in preparation for future electoral events.

Ministry of Foreign Affairs

366. Mr. Speaker, the Ministry of Foreign Affairs continued to deliver on Ghana's foreign policy objectives within the framework of the Government's Reset Agenda, achieving measurable progress in diplomacy, consular services, and international cooperation. Significant reforms were introduced at the Passport Office, where 13 Passport Application Centres across nine regions, including premium centres in Accra, Kumasi, and Tamale now offer improved service delivery and faster processing times.
367. A major breakthrough came with the rollout of chip-embedded biometric passports on 28th April 2025, elevating Ghana into the league of African nations issuing ICAO-compliant travel documents. These new passports feature 175 advanced security elements, up from 32, greatly strengthening the integrity and global credibility of Ghanaian travel documents.

368. To advance Ghana's global mobility and labour market integration, the Ministry signed labour mobility agreements with Jordan, Barbados, Qatar, and the United Arab Emirates, and is currently in negotiations with Grenada, Antigua and Barbuda, Saudi Arabia, and others. Visa waiver agreements were also concluded with Morocco, Mozambique, Dominica, and São Tomé and Príncipe, promoting greater people-to-people exchange.
369. Mr. Speaker, through sustained diplomacy, Ghana successfully negotiated the restoration of five-year multiple-entry U.S. visas for Ghanaian citizens, a major relief for frequent travellers and the diaspora community.
370. On the investment and trade front, His Excellency President John Dramani Mahama undertook a landmark State Visit to Singapore, securing investment deals worth US\$1 billion in agriculture, tourism, and infrastructure. These include OLAM's US\$200 million agro-processing facility, Shangri-La's US\$300 million hotel and convention centre, and major infrastructure partnerships in port expansion, aviation, and TVET cooperation.
371. Further engagements with China yielded new agreements on Artificial Intelligence cooperation, Belt and Road Initiative projects, and a US\$30 million grant for digital infrastructure. Regionally, Ghana strengthened ties with Sahelian neighbours through presidential visits to Mali, Burkina Faso, and Niger to enhance dialogue between the Alliance of Sahel States and ECOWAS.
372. Looking ahead, 2026 will mark the rollout of the Ministry's Strategic Transition from Renting to Infrastructure Development (STRIDE) initiative, which seeks to progressively acquire and construct state-owned diplomatic properties abroad. The Ministry will also launch a nationwide E-Visa system, establish data centres in Accra and Kumasi to digitally connect all missions, and build 16 permanent regional Passport Application Centres. These reforms will modernise foreign service delivery, enhance efficiency, and project Ghana as a globally connected and competitive nation.

Ministry of Finance

373. Mr. Speaker, the Ministry of Finance continued to anchor Ghana's economic recovery and fiscal consolidation agenda in 2025 through bold reforms in expenditure control, revenue mobilisation, debt management, and financial sector stability. The enactment of the *Public Procurement (Amendment) Act, 2025 (Act 1139)* introduced mandatory commitment authorisation, verification of public payments, and strict penalties for unauthorised commitments, marking a decisive step toward restoring fiscal discipline and preventing arrears accumulation.
374. Under the IMF-supported programme, Ghana successfully completed both the Fourth and Fifth Reviews. The Fourth Review secured a Staff-Level Agreement (SLA) and subsequent IMF Board approval, unlocking a disbursement of US\$367 million. The Fifth Review also achieved SLA and, upon Board approval later this year, will trigger an additional US\$385 million. These reviews not only

- provided critical budgetary support but also signalled international confidence in Ghana's reform trajectory and macroeconomic management.
375. The Ministry strengthened fiscal transparency by conducting impact assessments on key legislation, including amendments to the Petroleum Revenue Management Act, Minerals Income Investment Fund Act, and Energy Sector Levies Act. A comprehensive Fiscal Risk Report covering 45 State-Owned Enterprises (SOEs) and 10 Joint Venture Companies was also published to Parliament, spotlighting both fiscal vulnerabilities and high-performing entities.
 376. To enhance public asset governance, the Ministry will roll out the Fixed Asset Register Framework nationwide in 2026, paving the way for a National Assets Register. A new Integrated Bank of Projects (IBP) will also be launched to centralise the database of all public investment projects. Together, these systems will improve accountability, reduce duplication, and ensure value for money in infrastructure spending.
 377. A performance-linked Remuneration Framework for Public Boards has been developed to align compensation with productivity. This will be implemented in 2026 alongside a second portfolio review and the hosting of the 2026 Policy and Governance Forum, deepening reforms in public financial management.
 378. On debt sustainability, the Ministry published the *2024 Annual Public Debt Report* and launched the *2025–2028 Medium-Term Debt Management Strategy (MTDS)*, which sets out a prudent approach to managing borrowing costs and risks while accelerating debt restructuring and returning to a sustainable path.
 379. In the financial sector, the Ministry advanced key reforms to safeguard stability. A National Microfinance Policy is being finalised to strengthen regulation and expand financial inclusion, while the Ghana Deposit Protection (Amendment) Bill, 2025, laid before Parliament, will modernise depositor protection and align the scheme with global standards. A new Securities Industry Bill will also be introduced to replace the 2016 Act and address regulatory gaps exposed by past crises.
 380. In 2026, the Ministry, in collaboration with industry stakeholders, will develop a 10-Year Insurance Master Plan (IMP) to transform the insurance industry into a growth catalyst and enhance resilience against systemic shocks.
 381. The Financial Intelligence Centre (FIC) intensified Ghana's anti-money-laundering (AML) framework by training over 1,000 officers across banks, fintechs, and non-profits, while strengthening collaboration with the Ghana Revenue Authority on tax-related financial crimes. In 2026, Ghana will undergo its third FATF/GIABA Mutual Evaluation, with the FIC leading implementation of the *National AML/CFT Policy* to improve compliance, supervision, and enforcement.
 382. Mr. Speaker, Ghana continued to advance its leadership in climate finance. The Ministry launched Phase II of the Ghana Green Finance Taxonomy (GGFT),

- expanding coverage to sustainable construction, water, and waste management. This system ensures that investments are channelled into projects with genuine environmental benefits and shields the market from greenwashing. In 2026, Phase III will broaden coverage to manufacturing, mining, and adaptation-related sectors.
383. To protect livelihoods against climate shocks, the Ministry procured a sovereign drought insurance policy under the African Risk Capacity for the 2025/2026 farming season. This will provide rapid financial relief for smallholder farmers in northern Ghana during severe droughts. In 2026, Ghana will also adopt a Parametric Flood Insurance Scheme for the Greater Accra Metropolitan Area, protecting 1.2 million vulnerable residents from flood-related disasters.
384. Ghana's climate leadership was further strengthened by submitting a proposal to host the Green Climate Fund (GCF) Regional Office for Africa in Accra. The hosting will attract green investments, strengthen partnerships, and position Ghana as a hub for sustainable finance in Africa. In addition, Ghana secured US\$63.21 million in GCF grants for climate-resilient landscapes in Northern Ghana and US\$798,452 for the development of a Multi-Hazard Early Warning System. In 2026, the Ghana Climate Prosperity Plan will be updated to align with national priorities such as the 24-Hour Economy and Accelerated Export Development Programme.
385. The Ministry also deepened its reforms in procurement and expenditure efficiency. The Ghana Electronic Procurement System (GHANEPS) became mandatory for all public entities, with 891 procuring entities enrolled and 405 actively using the platform. By September 2025, over 11,000 contracts had been awarded and published, enhancing transparency and value-for-money compliance. Value-for-money audits by the Public Procurement Authority saved over GH¢901 million, while 455 officers received training in procurement and contract administration.
386. In 2026, the PPA will open new zonal offices in Tamale and Ho, conduct the 2025 Annual Procurement Assessment, and promote Sustainable Public Procurement (SPP) through legislative updates and awareness campaigns.
387. Mr. Speaker, domestic revenue mobilisation remained central to Ghana's fiscal turnaround. The Ministry enacted key amendments to the Income Tax, VAT, and Energy Sector Levies Acts, and launched the Revenue Assurance, Compliance and Enforcement (RACE) Initiative, which uncovered discrepancies in shipping documentation worth over GH¢400 million. In 2026, Ghana's tax code, including Income Tax, Excise, and Customs Duty Acts, will be reviewed to improve fairness and efficiency.
388. The Independent Tax Appeals Board (ITAB) completed its operational framework, pending full activation after passage of the *Revenue Administration Regulations, 2025*. This will provide an impartial platform for tax dispute resolution.

389. Mr. Speaker, the integration of GIFMIS and GHANEPS continues to enhance real-time expenditure tracking. By September 2025, 549 education and health institutions had migrated onto GIFMIS. The Controller and Accountant-General's Department (CAGD) will complete the linkage between the National Identification Authority database and the National Payroll System to eliminate ghost names and reduce payroll fraud.
390. The Ghana Statistical Service (GSS) continued to produce critical economic data, including CPI, PPI, IPI, and GDP estimates for 2025. It also advanced key national surveys such as the *Ghana Living Standards Survey (GLSS8)*, *Informal Cross-Border Trade Survey (ICBTS)*, and *Integrated Business Establishment Survey (IBES II)*, which are essential inputs for rebasing national accounts and refining development planning.
391. Under the Social Investment Fund (SIF), 867 jobs were created in 2025 through infrastructure projects under the *Integrated Rural Development Project (IRDP) Phase II*. In 2026, the remaining 175 subprojects across 23 districts will be completed, accelerating local development and job creation.
392. Mr. Speaker, the Ministry of Finance remains committed to building a stronger, more resilient economy, anchored on fiscal discipline, inclusive growth, digital transformation, and sustainability. The reforms undertaken in 2025 set the foundation for 2026 as a year of consolidation, credibility, and renewed confidence in Ghana's financial management and economic governance systems.

Ghana Gold Board (GoldBod)

393. Mr. Speaker, since its establishment, the Ghana Gold Board, popularly known as GoldBod, has redefined Ghana's gold value chain through bold structural and regulatory reforms that are reshaping the small-scale and large-scale mining sectors. The Board has implemented sweeping licensing reforms to promote responsible sourcing, strengthened regulatory oversight across the gold supply chain, and introduced a transparent, competitive pricing framework for licensed miners and gold buyers. It has also deployed an efficient gold aggregation system to mobilise gold from all mining regions and intensified the fight against illegal trading and smuggling through a dedicated Task Force, supported by a whistleblower reward scheme.
394. These reforms, combined with the removal of the 1.5 percent withholding tax on unprocessed small-scale gold in the 2025 Budget, have produced unprecedented results. Between January and October 2025, small-scale gold exports surged to a record 81.7 tonnes, valued at approximately US\$8.1 billion, the highest in Ghana's history. For the same period, large-scale gold exports amounted to 74.1 tonnes, with an estimated value of US\$6.6 billion. For the first time, small-scale gold exports have exceeded large-scale production in both volume and value, underscoring the effectiveness of the policy and regulatory reforms.

395. To deepen the local gold economy, the Gold Board has partnered the Bank of Ghana to support reserve accumulation. So far, 137.7 kilograms of gold from large-scale producers have been purchased and added to Ghana's official reserves. These inflows have bolstered foreign exchange reserves, improved the balance of payments, and provided critical stability for the Ghana cedi, directly supporting the broader economic reset agenda.
396. Mr. Speaker, these achievements affirm the GoldBod's strategic importance to Ghana's economic transformation. The Board remains committed to responsible sourcing, environmental sustainability, and full supply-chain traceability. Beginning in 2026, it will roll out a comprehensive Gold Traceability System, ensuring every gram of gold purchased can be traced to its verified, licensed, and environmentally compliant origin.
397. In line with Government's industrialisation and value-addition drive, the GoldBod has been tasked to spearhead Ghana's transition from the export of raw gold to refined gold. Working closely with the Bank of Ghana, it is developing partnerships with local refineries to expand domestic refining capacity and anchor the local gold value chain.
398. Additionally, plans are underway to establish a "Gold Village", a continental hub for gold jewellery design, manufacturing, and export, to position Ghana as Africa's centre for high-value gold craftsmanship.
399. Mr. Speaker, Government remains resolute in supporting the Ghana Gold Board's efforts through targeted incentives, investor partnerships, and a favourable business environment to maximise domestic value addition in the 2026 fiscal year and beyond.

Ministry of Local Government, Chieftaincy and Religious Affairs

400. Mr. Speaker, the Ministry of Local Government, Chieftaincy and Religious Affairs continued to drive decentralisation, local economic development, and social inclusion through data-driven planning, performance-based accountability, and community empowerment.
401. To strengthen local governance, the Ministry disbursed GH¢25 million in monthly allowances to all Assembly Members across the 261 Metropolitan, Municipal, and District Assemblies (MMDAs). This initiative reaffirmed Government's recognition of Assembly Members as frontline agents of participatory governance. In 2026, the Ministry will sustain this support to ensure continuity in grassroots development and civic engagement.
402. To deepen results-based local administration, the Ministry, through the District Development Data Platform (DDDP), completed the 9th Cycle of the District Performance Assessment Tool (DPAT) for all 261 MMDAs. This exercise measured institutional efficiency, financial management, and service delivery outcomes. In 2026, the 10th Cycle of DPAT will introduce a new performance tracker to align MMDCEs' performance indicators with the Project Delivery Unit

- under the Office of the President—creating a single framework for local accountability.
403. The Ministry also collaborated with the Inter-Ministerial Coordinating Committee on Decentralisation (IMCCoD) to host zonal consultative and national stakeholder sessions on the new National Decentralisation Policy and Strategy (2026–2029), which will guide the next phase of Ghana’s local governance reforms.
404. To improve leadership capacity at the subnational level, the Institute of Local Government Studies (ILGS) trained and oriented 257 newly appointed MMDCEs on public administration, local finance, and citizen engagement. This training has strengthened leadership coherence and performance within the decentralised system.
405. Mr. Speaker, as part of efforts to enhance environmental cleanliness and civic responsibility, His Excellency the President relaunched the National Sanitation Day in September 2025, followed by a nationwide clean-up exercise in October. This initiative has revitalised community participation in sanitation management, with MMDAs enforcing local by-laws to sustain clean, healthy environments across the country.
406. In 2025, the Ministry also advanced health education and sanitation training by completing major infrastructure projects, including a 500-seater dining hall at the Ho School of Hygiene, the rehabilitation of dormitory facilities at the Tamale School of Hygiene, and the first phase of a three-storey academic block at the Accra School of Hygiene.
407. Under the Ghana Productive Safety Net Project 2 (GPSNP 2), the Ministry disbursed GH¢24.23 million in start-up grants to 13,194 beneficiaries under the Productive Inclusion component and GH¢37.91 million in wages to 65,020 participants in Labour-Intensive Public Works. In 2026, the Ministry will expand support to 47,303 beneficiaries, with enterprise skills training for an additional 7,208 participants, ensuring sustainability and income diversification for low-income households.
408. Through the Ghana Secondary Cities Support Programme (GSCSP), the Ministry completed the redevelopment of 24 markets, 7 transport terminals, 2 light industrial parks, 3 town parks, 1 business advisory centre, and 105 kilometres of road infrastructure. These interventions are improving urban mobility, local trade, and municipal competitiveness.
409. Mr. Speaker, under the Gulf of Guinea Northern Regions Social Cohesion (SOCO) Project, 365 community-level infrastructure projects were completed, including schools, health centres, water systems, and rural roads. The initiative created direct jobs for 28,107 people, primarily women, youth, and persons with disabilities. In 2026, the Project will expand with 384 new subprojects, completion of 138 ongoing works, and disbursement of grants to 690 Common

Interest Groups and 310 producer associations to boost livelihoods in northern Ghana.

410. The Department of Community Development trained 94 frontline officers in the use of the *Child Protection Community Facilitation Toolkit (CPCFT)* to enhance social welfare engagement. In 2026, training will be scaled up to 650 stakeholders and 2,200 women and youth to promote community-driven Local Economic Development (LED).
411. To enhance Ghana's urban landscape, the Department of Parks and Gardens maintained over 1.6 million square metres of landscaped areas across national landmarks, including Kotoka International Airport, Peduase, and Manhyia Palace. In 2026, it will expand maintenance coverage to 2.5 million square metres, integrating climate-smart urban greening initiatives.
412. Mr. Speaker, the Births and Deaths Registry registered 432,925 births (62.4 percent of expected births) and 37,123 deaths (47 percent of expected deaths) in 2025. In 2026, the Registry will intensify registration drives with a target of 817,740 births and 146,453 deaths, supported by mobile registration campaigns and digital systems.
413. The Land Use and Spatial Planning Authority (LUSPA) conducted 18 public sensitisation programmes with chiefs, landowners, and planners to promote responsible land use. In 2026, the Authority will pursue the amendment of the *Land Use and Spatial Planning Act, 2016 (Act 925)* and scale up public education on spatial planning, permitting, and sustainable urban development.
414. Mr. Speaker, the Ministry of Local Government, Chieftaincy and Religious Affairs remains committed to building a resilient, responsive, and people-centred local governance system, anchored on decentralisation, inclusion, and sustainable development.

National Media Commission

415. Mr. Speaker, the National Media Commission (NMC) strengthened its oversight role in 2025 by mediating disputes between radio stations and traditional authorities across several regions, ensuring cultural sensitivity, media professionalism, and social harmony. The Commission's facilitation of dialogue between community leaders and media operators helped to promote responsible broadcasting and mutual respect between traditional institutions and the media.
416. To safeguard the integrity of Ghana's media environment, the NMC signed a Memorandum of Understanding (MoU) with the Bank of Ghana, the National Communications Authority, and other regulatory partners to clamp down on charlatanic and deceptive advertisements. This inter-agency collaboration has already started sanitising the airwaves, curbing misinformation, and protecting citizens from exploitative commercial content.

417. In 2026, the Commission will operationalise Regional Complaints Settlement Offices to decentralise complaint handling and enhance citizens' access to redress mechanisms. It will also introduce a Ghana-specific Media Freedom Index that blends quantitative data and qualitative assessments, enabling more accurate benchmarking of media independence. A new Legislative Instrument will be drafted to introduce expedited, Alternative Dispute Resolution (ADR)-compliant complaint procedures, especially vital during election periods. The Commission will further undertake a comprehensive review of existing media guidelines, in collaboration with stakeholders, to modernise regulatory standards and strengthen accountability in the media space.

National Development Planning Commission

418. Mr. Speaker, the National Development Planning Commission (NDPC) advanced Ghana's long-term planning framework in 2025, steering the preparation of the President's Coordinated Programme for Economic and Social Development Policies (CPESDP) in fulfilment of Article 36(5) of the 1992 Constitution. The CPESDP, which outlines the national vision for inclusive and sustainable growth, will be finalised by the end of 2025.
419. The Commission also published the 2024 National Annual Progress Report (APR) in June 2025, providing a detailed analysis of the implementation of the Medium-Term National Development Policy Framework (MTNDPF). Sector and District APRs are currently being reviewed to track progress, identify performance gaps, and generate feedback for policy adjustments.
420. In 2026, the NDPC will begin nationwide consultations to develop a Long-Term National Development Plan, which will provide a unified, non-partisan blueprint for Ghana's socio-economic transformation beyond political cycles. The Plan will align national, sectoral, and regional development strategies under a single results-based framework.
421. Mr. Speaker, the Commission will also finalise and disseminate the National Development Coordination Strategy, designed to promote coherence, efficiency, and accountability in implementing Government priorities across all sectors. The Strategy will strengthen inter-agency collaboration, reduce duplication, and ensure that national goals are pursued with measurable impact.
422. To enhance results-driven governance, the NDPC will adopt risk-based monitoring of key Government projects and implement a national results framework that ties development outcomes to performance indicators. This approach will enable stronger evidence-based policymaking, fiscal accountability, and transparency in the delivery of national programmes.

Right to Information Commission

423. Mr. Speaker, in 2025, the Right to Information Commission (RTIC) expanded public awareness on the Right to Information Act, 2019 (Act 989) through media campaigns and nationwide sensitisation. These initiatives increased

citizens' understanding of their constitutional right to information and encouraged greater civic participation in governance.

424. The Commission conducted sensitisation in 44 public institutions, trained information officers, and monitored compliance with disclosure obligations. Out of 56 institutions assessed in Greater Accra, 32 met compliance standards, while 24 were flagged for corrective action. Enforcement measures are ongoing to ensure full adherence to the Act's provisions.
425. In 2026, the Commission will scale up its outreach, conducting sensitisation in 50 additional public institutions and partnering with civil society organisations (CSOs) to enhance transparency and citizen engagement. It will also lay the draft Regulations of Act 989 before Parliament for passage, providing a clearer legal framework for operationalisation.
426. To improve accessibility, the RTIC will open five new regional offices in Cape Coast, Ho, Takoradi, Koforidua, and Tamale. The Commission will expand compliance monitoring to 150 public institutions across Accra, Kumasi, Bolgatanga, and Sunyani, ensuring that the right to information is not only guaranteed in law but enforced in practice across all levels of government.
427. Mr. Speaker, through these reforms, the National Media Commission, National Development Planning Commission, and Right to Information Commission continue to reinforce Ghana's democratic governance architecture, anchoring it on transparency, participation, and accountability.

Economic Sectors

428. Mr. Speaker, the Economic Sector is focused on one thing: growth that lasts. We will build a resilient economy powered by reliable energy, industrial transformation, science, technology and innovation, a vibrant private sector, modernised agriculture and rural economies, competitive fisheries and aquaculture, and a dynamic tourism and creative arts industry.
429. Mr. Speaker, every intervention in this chapter advances the SDGs and the AU Agenda 2063. The aim is productive jobs, higher value addition, and inclusive growth across all regions.

Ministry of Food and Agriculture

430. Mr. Speaker, Government is making agriculture the anchor of the economy under the Agriculture for Economic Transformation Agenda. Our goals are clear: secure food, tame food inflation, cut the import bill, and grow exports through productivity and value addition.
431. Mr. Speaker, aligned to the 24-Hour Economy, we launched the Feed Ghana Programme in April 2025 to scale crop, tree crop, livestock and poultry, and agri-infrastructure. So far, 2,000 mt of hybrid maize seed, 1,000 mt of rice seed, and 50,000 mt of fertiliser have been distributed nationwide. In 2026 we will supply 4,388 mt of maize seed, 31,000 mt of rice seed, 240 mt of sorghum seed, 2,791 mt of soybean seed, and 272,000 mt of fertilisers to consolidate yields.
432. Mr. Speaker, through the YEREDUA Vegetable Development Project with NDPC and the Government of Korea, a US\$9.5 million value-chain push in Winneba and Adaklu is boosting local tomatoes, onions, and peppers. With over 133 mt of tomato seed distributed and additional SADEP seed support, domestic supply improved, easing seasonal price spikes that fed food inflation.
433. Mr. Speaker, in 2026 we will scale inputs further: 58,500 sachets of tomato seed, 35,100 of pepper, and 351,000 of onion; 164,932.56 mt of fertiliser; and 39,384 litres of agrochemicals including 9,375 mt Potassium Nitrate, 6,250 mt Calcium Nitrate, 6,000 mt compost, 200 mt Aminomix/Tecamin Max, and 200 mt Neem Oil.
434. Mr. Speaker, to make vegetable farming all-year, we will install 200 solar-powered boreholes in Ahafo, Eastern, Upper West, and Bono East, including 44 Senior High Schools. The medium-term payoff is lower imports, stronger external balances, and reduced FX pressure from food purchases.
435. Mr. Speaker, diversification is underway. The Tree Crops Programme backed 175,000 farmers with 800,000 mango, 1,000,000 oil palm and 750,000 grafted shea seedlings, and established 10 cashew scion gardens in Upper West, Savannah, and North East, broadening non-traditional export potential.

436. Mr. Speaker, we scaled biological pest control. Of a 500,000 target of *Telenomus remus*, 325,000 were mass-reared and released. We piloted *Nesidiocoris tenuis* for tomato leaf miner, 2,420 actives against a 2,000 target. These lower control costs and protect yields against climate-driven pests.
437. Mr. Speaker, we began two poultry and meat processing facilities and are rehabilitating livestock stations at Amrahia, Nkwanta, Ejura, Doba, Pong Tamale, Babile, and Busa to cut losses and raise value.
438. Mr. Speaker, on animal health, 587,014 vaccine doses were procured toward a 1.7 million target, and 2.7 million doses were produced locally with 2.15 million distributed, advancing vaccine self-sufficiency. In 2026 we will close the gap to the full target.
439. Mr. Speaker, to protect farm incomes, we targeted 40 million vaccinations, 70,000 livestock and 39.93 million poultry. By August 2025, 17.7 million were administered (44 percent): 61,733 livestock and 17.64 million poultry.
440. Mr. Speaker, we strengthened feed safety and access to inputs. By August, 24 feed samples were tested across nine mills toward a 50-sample target, and 266 livestock input permits covering 136,721 mt were approved, exceeding the 200-permit target.
441. Mr. Speaker, Feed Ghana delivers inputs through cooperatives. After nationwide mobilisation, 63,039 cooperatives and FBOs, representing 661,687 farmers, registered on the Ministry's portal for transparent, timely access.
442. Mr. Speaker, we finalised agreements to equip Farm Service Centres with tractors and implements, combine harvesters, planters, and boom sprayers. These one-stop hubs will cut costs, raise productivity, and improve returns.
443. Mr. Speaker, to deepen mechanisation, 120 individuals and AMSECs received equipment: 100 Cabrio compact tractors, 12 power tillers, 20 threshers/shellers, 8 combine harvesters, 3 boom sprayers, 2 seed cleaners, 8 rice mills, 150 motorised sprayers, 2 orchard sprayers, 3 seed drills, 3 pneumatic planters, 4 silo dryers, and 4 cassava processors.
444. Mr. Speaker, storage is being fixed. We will complete 11 warehouses of 1,000 mt each, connect power to facilities, and provide 750,000 pallets and 50 steel sheds across 50 warehouses, reducing post-harvest losses and smoothing prices.
445. Mr. Speaker, irrigation is our resilience hedge. Through the Irrigation for Wealth Creation Initiative, 3,520 hectares are being developed or rehabilitated in Weta, Ashaiman, Okyereko, New Longoro, Aveyime, Kpolu, Bontanga, Anum Valley, and Dawhenya. Aveyime is mobilised; Dawhenya's 100 ha is 54 percent; Ashaiman is 35 percent.

446. Mr. Speaker, under rain-fed agriculture, 14,505 hectares were developed for cereals and vegetables with achievement rates of Volta 80 percent, Eastern 54 percent, Ashanti 14 percent, Savannah 80 percent, Central 80 percent, and Upper West 100 percent.
447. Mr. Speaker, large-scale irrigation under the Afram Plains Economic Enclave is progressing across 3,220 hectares using sprinklers, pivots, and canals: Atonsu 59 percent of 600 ha; Ekye-Amanfrom 59 percent of 350 ha; Konadu 75 percent of 1,470 ha; Ahinasi-Pitiku 20 percent of 200 ha; Ataneata-Nkwantanang 20 percent of 200 ha; and NSS-Kumawu 20 percent of 200 ha.
448. Mr. Speaker, Tamne Phase 3 is stabilising spillways, repairing flood damage, and developing 700 ha, land works are 70 percent complete. At Ve, rehabilitation of 850 ha has begun, prioritising 322.76 ha on the right bank; canals, RCC pipes, and silt removal are underway with overall works at 40 percent.
449. Mr. Speaker, the Centre Pivot Irrigation Project targets 4,450 ha across eight regions. Community entry and surveys are complete; Lonto, Sheri, Kafaba, and Awate are set for Phase I. In parallel, 19 small earth dams and seven irrigable sites are under construction in Upper West, Upper East, and Northern.
450. Mr. Speaker, completing these irrigation investments in 2026 will secure year-round production, dampen food price volatility, cut imports, improve the balance of payments, support exchange-rate stability, and put a durable lid on food inflation.

Ministry of Fisheries and Aquaculture

451. Mr. Speaker, the Ministry's vision is to transform fisheries and aquaculture into a modern, sustainable, and job-creating sector that guarantees food security, boosts exports, and uplifts livelihoods across coastal and inland communities.
452. Parliament's passage of the Fisheries and Aquaculture Act, 2025 (Act 1146) marked a turning point for the sector. The Act provides a unified legal framework for modern fisheries management, focusing on sustainability, biodiversity protection, and active community participation. In 2026, Government will introduce new Regulations to guide vessel licensing, aquaculture operations, surveillance, and post-harvest practices to ensure full compliance and responsible resource use.
453. Mr. Speaker, national fish health systems have been upgraded. The Fisheries Commission, in partnership with the Veterinary Services Directorate, equipped three regional laboratories in Kumasi, Ho, and Koforidua and established a new Aquatic Animal Histopathology Laboratory. The University of Ghana's WACCBIP has also been enhanced to support molecular diagnostics for early disease detection, strengthening our biosecurity framework.
454. Cabinet has approved Ghana's first Marine Protected Area (MPA) at Greater Cape Three Points in the Western Region. This milestone ensures the long-term

protection of marine ecosystems and fish habitats while supporting the livelihoods that depend on them.

455. To unlock the full potential of the ocean economy, Government has developed a National Blue Economy Strategy and Implementation Plan through an inter-ministerial process. The strategy will guide sustainable exploitation of marine and aquatic resources, advance climate resilience, and position Ghana as a regional leader in ocean governance, consistent with SDG 14: Life Below Water.
456. Mr. Speaker, post-harvest losses remain a major challenge, and Government is addressing this through the construction of modern fish markets at Dambai (Oti Region) and Shama (Western Region). Each facility will include cold storage, processing and packaging units, ice-making machines, waste management, sanitation, health and child-care posts, and security stations. Feasibility work for a Fishing Village Infrastructure Modernisation Project and a new Fishing Harbour at Shama will be completed in 2026 to expand landing and processing capacity.
457. Mr. Speaker, the fisheries workforce is being strengthened through education and innovation. The Ghana National Fisheries College at Anomabo will be fully operationalised to commence academic activities in the 2026–2027 academic year. The College will serve as a national hub for training, research, and technology transfer to enhance sustainable fisheries management and aquaculture production.
458. Aquaculture remains a strategic pillar for jobs and food security. Under the Grow24 Programme, in collaboration with the 24-Hour+ Economy Secretariat, aquaculture expansion will focus on youth and women cooperatives. Support will include fingerlings, cages, tarpaulins, affordable feed, and fish health measures. Outboard motors and inputs will also be distributed to sustain artisanal and inland fishing operations.
459. Mr. Speaker, the Ministry will deploy fisheries officers across districts to provide extension services, site inspections, and farmer training. A total of 300 fish farmers will be trained in feed formulation using local ingredients, 100 hatchery operators in broodstock management, and 200 extension officers in service delivery. Two new culturable species will be introduced to diversify production beyond tilapia and catfish.
460. To reduce feed costs, Government will facilitate the establishment of medium and small-scale feed mills in aquaculture zones and develop an Aquaculture Investment Plan to guide sector growth. Additionally, 200 fish farmers and 50 Fisheries Commission staff will receive advanced training in aquaculture regulations, biosecurity, and aquatic animal health.
461. Mr. Speaker, aquaculture is also being introduced in 20 secondary schools and 10 prisons, combining practical education, nutrition improvement, and rehabilitation. This initiative demonstrates Government's commitment to linking production with human development.

462. Finally, under the GreenShield Initiative, Government will implement a nature-based coastal and ecological restoration programme along Ghana's 550-kilometre coastline to tackle erosion, tidal surges, sea-level rise, and marine plastic pollution. This effort will be executed in partnership with local communities, civil society, and the private sector, protecting both nature and livelihoods.

Ministry of Lands and Natural Resources

463. Mr. Speaker, the Ministry continues to drive efficiency, transparency, and technology in land management to unlock capital and reduce disputes.
464. Through the Lands Commission, the Enterprise Land Information System (ELIS) now operates in seven regions, automating land registration and improving service transparency. A new electronic platform allows online application for regional numbers and barcoded site plans, cutting congestion and delays at service points.
465. Mr. Speaker, the Commission is upgrading 12 regional offices. Construction has begun in Savannah, Upper East, Western, and Central Regions, while Greater Accra's new office nears completion. In 2026, we will revise the National Land Policy and Lands Commission Act, and finalise the Legislative Instrument for the Land Act to enable a National Digital Land Registry linking land, planning, and property data. This will enhance transparency, lower litigation, and make land a reliable asset for business and lending.
466. Mr. Speaker, under the Tree for Life Reforestation Initiative, 17 million tree seedlings were planted by August 2025 out of a 30 million target. In 2026, implementation will continue to restore degraded landscapes and promote climate resilience.
467. By September 2025, timber exports reached 154,249 cubic metres valued at GH¢1.01 billion, achieving 51 percent of the annual export target. Natural forest timber harvest stood at 1.15 million cubic metres.
468. Mr. Speaker, Ghana made history in August 2025 by issuing its first FLEGT licences, becoming the first in Africa and second globally, boosting our credibility in sustainable timber exports.
469. To protect forest reserves, joint operations with security agencies reclaimed nine reserves, including Jimira, Asenanyo River, Afao Hills, and Offin Shelter. Ecotourism is expanding, with 374,311 visitors recorded by August toward a 500,000 target, supported by infrastructure at Shai Hills and Mole National Park.
470. Mr. Speaker, in 2026, the Forestry Commission will review its governing Act and attract private investment into ecotourism to sustain nature-based revenue streams.
471. Mr. Speaker, illegal mining remains an existential threat. Government has declared critical water bodies and forest reserves as high-security zones. All

- importers of excavators now require prior approval from the Ministry of Transport, verified by shipping lines and Customs. The Minerals Commission has begun installing GPS tracking on heavy equipment for real-time monitoring.
472. The National Anti-Illegal Mining Operations Secretariat (NAIMOS) now coordinates enforcement across agencies. A dedicated force of 1,000 officers, equipped with surveillance and logistics, is deployed nationwide. Their operations have dismantled illegal camps, seized 51 excavators, four heavy-duty trucks, and 350 pumps, and handed 33 foreign nationals to immigration authorities for prosecution.
473. Mr. Speaker, to formalise small-scale mining, Government launched the Responsible Cooperative Mining and Skills Development Programme (rCOMSDEP) in August 2025. Three cooperative schemes, namely, Obuasi, Bibiani, and Anwia-Teleku Bokazo, have been launched to promote responsible mining and rehabilitation.
474. The Blue Water Guard Initiative recruited 983 guards nationwide to protect rivers and wetlands. A review of mining licences led to 300 revocations for non-compliance.
475. Mr. Speaker, to align laws with global standards, the Minerals and Mining Policy (2014) and Act 703 (2006) are under review. The update will streamline mandates, strengthen the Minerals Development Fund, and introduce an artisanal and medium-scale mining category to bridge regulatory gaps.
476. Mr. Speaker, GIISDEC is developing a national scrap metal policy for traceability and responsible trade. GIADEC secured six bauxite mining leases, consolidating State ownership and setting the stage for an Integrated Aluminium Industry. The leases will be presented to Parliament for ratification to commence operations in the Nyinahin Range.
477. Mr. Speaker, the Ghana Boundary Commission advanced joint mapping and reaffirmation of land boundaries with Côte d'Ivoire. Phase 2 will verify and remark boundaries in 2026, alongside outreach to border communities and similar efforts with Burkina Faso and Togo.

Ministry of Trade, Agribusiness and Industry

478. Mr. Speaker, the Ministry has made strong progress in driving Ghana's new industrial agenda through the Ghana Framework for Industrialization, Revitalization, Support and Transformation, known as Ghana FIRST. This strategy is building an export-led, job-creating economy anchored on value addition, competitiveness, and regional trade.
479. The Accelerated Export Development Programme, chaired by His Excellency the President, was inaugurated in May 2025 to position Ghana as an export-driven economy under the 24-Hour+ Economy Policy. The focus is on agro-processing, light manufacturing, and private sector partnerships that expand markets and diversify products.

480. To sustain momentum, the Ministry is implementing the African Continental Free Trade Area (AfCFTA) Agreement through regional dialogues and capacity-building programmes for micro, small and medium enterprises. Two major regional sessions were held in Central and Volta Regions to help women and youth-led enterprises export competitively. The AfCFTA National Coordination Office is working with the Ghana Revenue Authority to improve exporters' compliance with Rules of Origin.
481. Mr. Speaker, in 2026, Government will complete the review of the AfCFTA National Policy Framework and support at least 200 MSMEs to access new markets under the agreement. To ease exporter financing, the Ministry, in collaboration with the Bank of Ghana, extended the Letter of Commitment tenure for repatriation of export proceeds from 60 to 120 days, giving exporters more flexibility and improving trade competitiveness.
482. The Ministry is also working with the private sector and key institutions such as the Ministries of Health, Defence, Interior, Education, and Lands and Natural Resources to source uniforms and apparel locally, strengthening Ghana's textile and garment industry.
483. To promote investment, the Ghana Investment Promotion Centre launched the Investment Opportunity Mapping Project to identify and profile district-level investment opportunities. Regional Investment Roadshows are ongoing to attract investors and distribute industrial growth beyond Accra and Tema. A 24-hour premium service has also been introduced to fast-track investor registration and immigration support, with regional offices being rolled out to expand access.
484. Mr. Speaker, the Ghana Export Promotion Authority continues to diversify Ghana's export base. It distributed over 211,000 coconut seedlings to farmers across five regions, supported 337 exporters with certification, and secured trade orders worth more than US\$325 million and EUR2.7 million through international exhibitions.
485. To boost industrial capacity, Government launched the Feed the Industry Programme to raise factory utilization rates from 30-40 percent to 70-80 percent by building raw material supply chains that link agriculture to industry. This includes support for local steel and non-ferrous industries to ensure steady access to scrap and feedstock. GRATIS Foundation has been retooled with 31 Technology Solution Centres to produce machinery and parts locally for agro-processing firms.
486. Mr. Speaker, as part of the Rapid Industrialization for Jobs Initiative, work is ongoing to assess the Komenda Sugar Factory and identify viable operational models. In addition, Government signed an MoU with Shenzhen New Gecko to establish an Electric Vehicle assembly plant, and is in talks with Chery International for another assembly and component manufacturing facility. These projects will make Ghana a hub for electric mobility in West Africa, creating jobs and promoting technology transfer.

487. To strengthen industrial zones, the Ghana Free Zones Authority has signed a lease agreement for the Afiemya Export Processing Zone and registered 30 new companies under its programme, bringing total enterprises to 295 and creating 1,600 jobs. Free Zone exports reached nearly US\$1 billion in 2025, while new capital investments totalled US\$165 million. The Authority will issue about 80 new licenses in 2026 and intensify international investment promotion.
488. Mr. Speaker, the Ghana Standards Authority continues to safeguard public health and trade quality. It inspected 66,000 high-risk imports, certified 592 local products, and verified over 115,000 weighing devices. A new Digital Conformity Project now allows consumers to authenticate electrical cables instantly. In 2026, the Authority will introduce Technical Regulations for petroleum quality, electrical products, and imported vehicles to enhance consumer protection and market trust.
489. The Ministry is also advancing women's economic empowerment through the Women in Trade, Agribusiness and Industry Programme. This initiative supports women in cross-border trade and formal markets to expand participation in national and regional value chains.

Ministry of Tourism, Culture and Creative Arts

490. Mr. Speaker, the tourism and creative arts sector continue to drive national identity, youth creativity, and foreign exchange earnings. The Ministry's focus is to modernize infrastructure, promote cultural heritage, and expand the creative economy.
491. The 2025 National Heritage Photo Competition engaged young Ghanaians under 25 years to showcase the nation's heritage through photography and design, fostering youth appreciation of culture. Restoration work on six forts and castles began in line with UNESCO standards and will expand to remaining heritage sites in 2026 to strengthen Ghana's global tourism appeal.
492. The Ghana Tourism Authority, in partnership with COCOBOD and the Cocoa Processing Company, organized the 20th National Chocolate Week to promote domestic cocoa consumption and link tourism to Ghana's cocoa heritage. The Ghana Tourism Development Company also launched new initiatives including the Fleet Pool Car Rental, Tourism Marketplace, and Eco-Chest Science Tour to improve transport services, promote investment, and expand educational tourism.
493. Mr. Speaker, the National Film Authority hosted the first National Film Dialogue with over 550 participants, which strengthened collaboration and investment in the film industry. In 2026, the Ministry will deepen support for creative entrepreneurs and expand incentives that help position Ghana's film and arts sectors as global contenders.

Ministry of Environment, Science and Technology

494. Mr. Speaker, Ghana's transition to a greener, innovation-driven economy gained momentum. The Ministry launched the "One Child, One Tree" initiative to instill environmental responsibility in young people and hosted the African Research Initiative for Scientific Excellence Conference, which reaffirmed Ghana's leadership in science collaboration.
495. Cabinet has approved the Ghana Space Agency Bill to establish a National Space Agency, and in 2026 the Ministry will roll out the Intellectual Property Framework to commercialize local innovations.
496. Through the Council for Scientific and Industrial Research, over 800 plant species were conserved, two new post-harvest technologies were developed, and agro-processing tools were distributed in collaboration with the Association of Ghana Industries.
497. The Environmental Protection Agency issued over 13,000 environmental permits, monitored more than 12,000 projects, and restored nearly 4,000 hectares of degraded land. The new Environmental Protection Act, 2025, gives the EPA stronger enforcement powers and establishes the Ghana Carbon Office to implement carbon market projects.
498. Mr. Speaker, Ghana allocated 24 million tonnes of its 64 million tonnes greenhouse gas mitigation quota under Article 6 of the Paris Agreement. By October 2025, 68 climate projects had been onboarded, with four already approved for sustainable rice, clean cooking, waste-to-compost, and electric mobility.
499. The Ministry's Circular Economy Framework for Plastics supported 11 SMEs with US\$331,000 in grants to produce biodegradable and recycled materials, creating 7,000 jobs. It also collected over 927 tonnes of e-waste for recycling and trained 194 local government staff in safe waste management.
500. The Foundry and Machine Tooling Centre is nearing completion, with the foundry at 95 percent and machine tooling works at 76 percent. When operational, it will supply local industries with tools and agro-machinery, supporting import substitution and job creation under the "Jobs for All" initiative.

Ministry of Energy and Green Transition

501. Mr. Speaker, Ghana's energy sector remains central to economic stability and industrial growth. From January to August 2025, oil production reached 24.8 million barrels, while total gas output stood at 179 billion standard cubic feet.
502. To reverse the decline in petroleum output, Government extended existing Petroleum Agreements, encouraged infrastructure-led exploration, and amended development plans to enable new drilling. Agreements with OCTP and Jubilee field partners will bring in a combined US\$3.5 billion investment.

503. Mr. Speaker, Phase I of the National LPG Promotion Programme targets the distribution of 450,000 household cookstoves and 7,000 commercial ones to promote clean cooking. In 2026, large-scale distribution will begin nationwide.
504. A high-voltage transmission project between Côte d'Ivoire and Ghana is also underway to strengthen regional power exchange. Meanwhile, construction of two major gas-fired plants in Kumasi, AKSA Energy (350 MW) and CENIT Energy (300 MW), is progressing, with initial units expected online in 2026.
505. The Ministry is implementing a national street lighting programme to enhance safety and visibility. Over 1,900 solar streetlights have been installed in the Ashanti Region, with an additional 10,000 smart units to be procured in 2026.
506. Mr. Speaker, the renegotiation of Power Purchase Agreements with nine Independent Power Producers has saved US\$261.9 million. Tariffs for two renewable plants were also reduced from 18 to 6.5 cents per kilowatt-hour, improving affordability for industry and consumers.
507. Under the National Electrification Scheme, 117 communities have been connected to the grid, raising national electricity access to 89 percent. Government will expand this coverage through a Turnkey Implementation Model, targeting full national electrification within five years.
508. The Ministry is also promoting solar-powered water pump systems to improve irrigation and safe water access, with work already underway at the Dawhenya Irrigation Scheme.
509. Mr. Speaker, the Ghana Nuclear Power Programme has completed site selection studies and installed a NuScale Power Simulator to train engineers. This will prepare the ground for Ghana's first nuclear power plant.
510. In line with the Energy Compact, Ghana aims to achieve 99.8 percent electricity access and 50 percent clean cooking access by 2030, while raising renewable energy's share to 10 percent.
511. Finally, to promote e-mobility, the Energy Commission has completed draft regulations for Electric Vehicle charging and commissioned a solar-powered EV station in Accra.

Infrastructure Sector

512. Mr. Speaker, Ghana's infrastructure investments remain the backbone of our economic transformation. The goal is to connect communities, power industries, and enable inclusive growth through modern transport, housing, water, sanitation, and digital systems.

Ministry of Roads and Highways

513. Mr. Speaker, road infrastructure continues to play a decisive role in supporting trade, food transport, and social mobility. As at the end of September 2025, 268 projects were under construction nationwide, covering 8,300 kilometres of roads and bridges.
514. Significant progress has been made on strategic corridors. The Accra-Kumasi dualisation is 64 percent complete, while the Takoradi-Agona Nkwanta-Elubo Highway is at 72 percent. The Eastern Corridor has reached 80 percent completion in several sections between Dodo-Pepesu and Nkwanta-Damanko, improving access across the Oti and Northern Regions.
515. Mr. Speaker, the Tema-Akosombo Highway, part of the Trans-West African Corridor, is 58 percent complete and will ease freight movement between Tema Port and northern trade routes. Rehabilitation of the Bolgatanga-Bawku-Pulmakom Road is 95 percent complete and will open new trade frontiers with Burkina Faso.
516. To improve connectivity in underserved areas, Government is constructing 50 bridges nationwide, including the Dikpe Bridge over the Tano River and the Volivo Bridge across the Volta Lake, which have reached 45 and 60 percent completion respectively.
517. Routine and periodic maintenance works covered over 21,000 kilometres of trunk, urban, and feeder roads, ensuring that Ghana's existing road assets remain serviceable. The 2026 programme targets maintenance of an additional 25,000 kilometres, alongside completion of all major ongoing highway projects.
518. Mr. Speaker, to reduce congestion in Accra, preparatory works for the Pokuase-Amasaman-Nsawam urban highway expansion and the Accra-Tema Motorway transformation project are underway, with construction expected to commence in 2026 under a public-private partnership model.

Ministry of Railway Development

519. Mr. Speaker, Government remains committed to reviving Ghana's rail network to cut transport costs, support mining, and connect inland production zones to ports.
520. Civil works on the 97-kilometre Tema-Mpakadan Railway Line are complete, with final testing ongoing ahead of full commissioning in 2026. The Western Line rehabilitation from Takoradi to Huni Valley is 70 percent complete, with new stations under construction at Tarkwa, Bogoso, and Huni Valley.

521. Government also secured financing for the 300-kilometre Eastern Line from Accra to Kumasi, which will begin construction in 2026. Feasibility studies for the Trans-ECOWAS Railway linking Ghana, Togo, and Côte d'Ivoire are ongoing, positioning Ghana as a logistics hub for West Africa.
522. Mr. Speaker, the Ghana Railway Company Limited has restructured operations, restoring freight movement between Takoradi and Nsuta to transport over 1.2 million tonnes of manganese ore annually, reducing heavy truck pressure on roads and cutting emissions.

Ministry of Works and Housing

523. Mr. Speaker, access to affordable housing remains a national priority. In 2025, the Ministry continued work on 10,000 affordable housing units across Greater Accra, Ashanti, and Northern Regions under the Revised National Affordable Housing Programme.
524. The Saglemi Affordable Housing Project is being redesigned for completion through a public-private partnership model. A total of 8,000 units are expected to be made habitable under the first phase in 2026.
525. To promote inclusive access, the Rent-to-Own Scheme was expanded, benefiting over 3,500 low- and middle-income earners. In 2026, the scheme will be scaled to cover 10,000 additional beneficiaries with new digital application systems to ensure transparency.
526. Mr. Speaker, the Coastal Protection Works programme continued in all ten coastal districts, reducing erosion and flood risks. The Aboadze-Shama, Dansoman, and Anlo Beach projects are at varying stages of completion, with overall progress at 67 percent.
527. Drainage interventions were implemented in flood-prone areas, including Kaneshie, Sakaman, and Adabraka. Over 40 kilometres of primary and secondary drains were desilted, benefitting 2.5 million residents.

Ministry of Sanitation and Water Resources

528. Mr. Speaker, access to safe water and sanitation remains essential to public health and economic productivity.
529. By September 2025, national rural water coverage had reached 78 percent, and urban water supply stood at 93 percent. Through the Community Water and Sanitation Agency, 410 new boreholes were drilled, and 37 small-town water systems completed.
530. In 2026, work will continue on the Sekondi-Takoradi and Sunyani Water Supply Projects, targeting an additional 1.2 million beneficiaries.
531. Mr. Speaker, the Ghana Water Company Limited produced 351 million gallons per day nationwide, supported by rehabilitation of the Kpong and Weiija

Treatment Plants. The Damango, Bawku, and Yendi water systems were 85 percent complete and will be commissioned in 2026.

532. Under the National Sanitation Campaign, 24,000 household toilets were constructed, reducing open defecation in beneficiary districts by 12 percent. In 2026, 30,000 more toilets and 500 mechanised public facilities will be completed.
533. The Greater Accra Resilient and Integrated Development (GARID) Project continued drain works in Odaw Basin communities, with the Akweteyman and Alajo drains now at 62 percent completion.

Ministry of Communications and Digitalisation

534. Mr. Speaker, Ghana's digital infrastructure is now a major driver of inclusion and efficiency across sectors.
535. The Rural Telephony and Digital Inclusion Project has connected 1,200 previously unserved communities to voice and data services. By the end of 2026, 2,016 new cell sites will provide coverage for an additional 4.5 million people.
536. The National Data Centre has been upgraded to Tier III standards, hosting key government systems under the Ghana.GOV platform. This has improved online service delivery and secured public databases.
537. Mr. Speaker, under the Girls-in-ICT Programme, 10,000 young girls were trained in coding, robotics, and entrepreneurship in 2025. The 2026 target is to reach 20,000 girls across all 16 regions.
538. The Cyber Security Authority monitored over 1,200 critical systems, blocking 43,000 attempted attacks on government networks. A national cybersecurity awareness campaign reached over 1 million citizens through schools and social media.

Ministry of Transport

539. Mr. Speaker, transport infrastructure remains central to national competitiveness.
540. Kotoka International Airport handled 2.6 million passengers as of September 2025, up from 2.2 million the previous year. Phase II of the Tamale Airport expansion was completed, including new cargo and Hajj facilities.
541. The Ghana Airports Company has commenced design studies for a new domestic terminal in Kumasi and a maintenance, repair, and overhaul (MRO) hub at Kotoka to attract regional carriers.
542. Mr. Speaker, the Ghana Ports and Harbours Authority increased container throughput at Tema Port by 7 percent and completed the first phase of the Takoradi Dry Bulk Terminal.

- 543. Feasibility work has started on the Boankra Inland Port, with full construction expected in 2026 to ease congestion and support northern trade corridors.
- 544. The Ghana Maritime Authority intensified inspections, certifying 2,490 vessels and rescuing 64 distressed boats in coastal waters. The Eastern and Western Corridor ferry services were restored, improving lake transport safety and access.
- 545. Mr. Speaker, Metro Mass Transit Limited added 150 new buses, while the Ayalolo fleet resumed full operation in Greater Accra, carrying over 10 million passengers between January and September 2025.
- 546. In 2026, the Ministry will expand the Bus Rapid Transit network, integrate e-ticketing, and modernise key terminals in Kumasi, Takoradi, and Tamale to improve urban mobility.

Social Sector

547. Mr. Speaker, the Social Sector remains at the heart of our national development agenda. Its focus is to improve education and training, expand access to health and nutrition, reduce poverty and inequality, promote gender equality and inclusion, protect children and the aged, and create jobs and decent work for every Ghanaian.
548. Policy actions under this sector are guided by the Sustainable Development Goals and the African Union's Agenda 2063, both of which call for inclusive growth, equal opportunity, and human dignity for all.

Ministry of Education

549. Mr. Speaker, to strengthen literacy and numeracy among young learners, the Ghana Library Authority undertook 486 mobile library van outreach visits across the country. In 2026, Government will expand this initiative to more hard-to-reach communities.
550. As part of reforms to improve teacher professionalism, the National Teaching Council licensed 16,468 newly recruited teachers, inducted 19,852 new entrants, and renewed 137,695 in-service licences.
551. Government fully paid capitation and feeding grants for all public basic and special schools during the 2024/2025 academic year. In addition, registration fees for 471,586 candidates from public junior high schools writing the 2025 BECE were fully absorbed to ease the financial burden on parents.
552. In 2026, Government will overhaul the basic school curriculum from kindergarten to primary six to equip learners with practical skills in moral integrity, electronics, robotics, coding, and artificial intelligence, preparing them for the modern economy.
553. To promote gender equality in education and reduce absenteeism, 6.6 million packs of sanitary pads were distributed to girls in public basic schools. In 2026, this programme will be extended to Senior High Schools nationwide.
554. Mr. Speaker, Government has restored Parent-Teacher Associations in all pre-tertiary schools to strengthen collaboration and community support for quality education delivery.
555. Under the Ghana TVET Voucher Project, 10,739 master craft persons, apprentices, and workers received training vouchers. In 2026, an additional 10,000 beneficiaries will be supported. Construction of six regional TVET Centres of Excellence will continue to provide youth with relevant, hands-on skills for the evolving job market.
556. Government will also resource and expand infrastructure in SHS and TVET institutions to increase the number of Category A and B schools, with priority given to underserved regions.

557. Mr. Speaker, the establishment of the University of Engineering and Agricultural Sciences at Bunso, with satellite campuses at Donkorkrom, Kenyase, and Acherensua, will expand opportunities for tertiary education in engineering and agriculture from the 2026 academic year. Two new Technical Universities will be established in Jasikan and Techiman, while the Catholic University of Science and Technology in Damongo will be set up in partnership with the Catholic Church.
558. To further expand access to higher education, Government will establish two public universities in Kintampo and Dambai.
559. In fulfilment of the commitment to sustainable funding for Free Senior High School, the Ghana Education Trust Fund has been uncapped to provide full financing.
560. Mr. Speaker, Government has expanded the Free SHS Programme to include 70 private schools through the Computerised School Placement System to eliminate the double-track system. Ongoing projects in public SHSs will be completed to facilitate a full transition to single-track by 2026.
561. Complementary Education continued to bridge access gaps. Under Cycle 9 of the Complementary Basic Education Programme, 9,246 learners completed the programme with a 92 percent success rate, and transition into formal schools is ongoing in 12 districts.
562. Government's "No Academic Fee Policy" benefited 120,222 first-year tertiary students, with 23,704 applications pending validation. The number of beneficiaries is projected to rise to over 220,000 in the 2026/2027 academic year.
563. Mr. Speaker, the National Research Fund has been operationalised with a Governing Council inaugurated to promote indigenous innovation and applied research.
564. In partnership with the Ministry of Local Government and GESOPS, Government is developing an affordable housing scheme to support teachers during and after their service.
565. To close the gender gap in ICT education, ten Girls' Schools across the regions will receive new ICT laboratories in 2026.
566. Sports and education are central to holistic development. In recognition of this, Government will establish a National School Sports Authority in 2026 with a dedicated budget to coordinate sports and physical education across all schools.

Ministry of Labour, Jobs and Employment

567. Mr. Speaker, the Ministry maintained industrial peace through proactive engagement with social partners, averting potential strikes and ensuring stability. These engagements will continue in 2026 to sustain a harmonious labour environment.
568. The Ministry, in collaboration with the EU and ILO, advanced the National Green Jobs Strategy under the EU–Ghana Pact for Skills. Reviews of the National Employment Policy and the Labour Migration Policy are underway to align with emerging trends.
569. The draft National Occupational Safety and Health Bill is being finalised for Cabinet consideration, alongside the review of the Labour Act, 2003 (Act 651).
570. Mr. Speaker, under the Work Abroad Programme, 13,449 applications were received for placements in the UAE. Training, screening, and visa processing have begun, with 20 workers already securing confirmed jobs. The programme will be scaled up in 2026 to expand skills-based overseas employment.
571. The Department of Co-operatives registered 1,190 new co-operatives, trained 13,144 farmers, and provided entrepreneurship training for 738 members. In 2026, it will modernise its regulatory systems for better efficiency.
572. The MDPI trained 262 managers, 104 SMEs, and 416 beneficiaries under the SCORE Programme to enhance workplace productivity.
573. Mr. Speaker, the Labour Department conducted 1,085 workplace inspections, registered 528 compensation cases, and placed 9,553 job seekers in employment. Awareness campaigns on child labour prevention reached 805 communities and 69 schools.
574. The Department of Factories Inspectorate conducted 2,455 inspections, registered 193 new factories, and held 684 safety talks.
575. Mr. Speaker, the Fair Wages and Salaries Commission concluded negotiations with 60 unions, completed job evaluations for eight public institutions, and began the 2026 Base Pay and Pay Point Relativity exercises. Preparations are underway to operationalise the Independent Emoluments Commission in 2026 to ensure equity and transparency in compensation management.

Ministry of Sports and Recreation

576. Mr. Speaker, Cabinet has approved the establishment of the Ghana Sports Fund to provide sustainable financing for sports. The enabling Bill and Regulations will be laid before Parliament in 2026.
577. Government's sustained investment in sports yielded impressive results. The Black Stars qualified for the 2026 FIFA World Cup, while the Black Queens won bronze at the Women's AFCON. Ghana's U-15 Girls won the CAF African Schools Championship, and the U-15 Boys placed third.

578. The Golden Palms defended their African Youth Baseball Championship, and GRA Ladies Hockey Team retained their continental title. Athletes Anita Afrifa and Rose Yeboah set new national records, while para-athletes Zinabu Issah and Gilbert Ampiah won medals in Morocco. Abdul-Rasheed Saminu ranked among the world's fastest 100m runners.
579. Mr. Speaker, Team Ghana won 55 medals at the African Arm-wrestling Championships and excelled across athletics, badminton, boxing, tennis, and wrestling. Ghana also hosted the 2025 CAA Region II Senior Championships, securing 23 medals.
580. In 2026, Government will invest in athlete welfare, sports infrastructure, and talent development in preparation for the FIFA World Cup, Commonwealth Games, and other tournaments. The Anti-Doping Regulations will be finalised to enforce clean sports.
581. Construction of modern stadia will begin in three of the eight regions without such facilities. The Ministry will also develop Bills for the National Sports College and Sports University, and organise inter-school, district, and regional sports competitions nationwide.

Ministry of Youth Development and Empowerment

582. Mr. Speaker, the newly established Ministry of Youth Development and Empowerment has built an institutional framework, an M&E tracker, and a digital one-stop youth information system to coordinate youth programmes.
583. The Ministry launched the "RED MEANS STOP" campaign to curb substance abuse, and will sustain public education on drug prevention in 2026.
584. During the 2025 National Youth Month, activities reached 5,200 young people nationwide. In August 2026, the Ministry will host the International Youth Month and launch the State of the Youth Agenda to assess youth sector performance.
585. Mr. Speaker, 5,910 young people benefited from the District Skills and Entrepreneurship Roadshow, particularly women in agriculture value chains. The NYA also educated four million youth on Adolescent Sexual and Reproductive Health.
586. The National Service Authority conducted an audit of allowances, improved deployment systems, and deployed two cohorts for Colleges of Education and Nursing. In 2026, it will develop a strategic plan and expand its farming programmes under the "Nkoko Nketenkete" initiative.

National Commission for Civic Education

587. Mr. Speaker, the NCCE focused on post-election peaceful coexistence under the theme "Ghana's Future: Our Collective Responsibility." It conducted over 51,000 civic education activities reaching 5.3 million people nationwide.

588. The Commission sensitised nearly 20,000 citizens on peacebuilding and organised dialogues in areas affected by post-election disputes. It also delivered 8,577 tax education sessions, 16,454 child protection campaigns, and 6,552 sensitisation exercises on illegal mining, bushfires, and flooding.
589. In 2026, the Commission will sustain public education on tax compliance, child protection, and environmental stewardship.

Ministry of Health

590. Mr. Speaker, the Ministry continued to expand access to quality healthcare in line with the Universal Health Coverage roadmap. The NHIF was uncapped to provide stable financing for vaccines, essential commodities, HIV services, and the Free Primary Health Care initiative under MahamaCares.
591. A comprehensive climate vulnerability assessment guided actions against climate-sensitive diseases such as malaria and cholera. Infection Prevention and Control was elevated to a national strategy, and the HPV vaccination for girls was rolled out nationwide.
592. Mr. Speaker, a National Health Sector Gender Policy was launched, promoting gender equity in workforce participation and access to care. The Ministry also strengthened global partnerships with GAVI, Pfizer, and the UK Trade Envoy to expand health financing and innovation.
593. The National Cleft Centre was established at KATH, and forensic laboratories are being developed for DNA and toxicology analysis. The National Ambulance Service trained 500 EMTs, while 6,000 youth were trained as first-aid responders.
594. The Centre for Plant Medicine Research validated the long-term efficacy of four herbal medicines, reinforcing Ghana's leadership in traditional medicine research.
595. Public health surveillance remained active, with successful containment of Mpox, meningitis, and cholera outbreaks.
596. Mr. Speaker, reconstruction of La General Hospital is 33 percent complete, and works have begun on Juaboso, Sandema, and five CHPS compounds. Kpone Municipal Hospital and the KOFIH Centre were commissioned in 2025.
597. In 2026, Government will continue rebuilding La General Hospital, establish six regional hospitals, expand CHPS compounds, and modernise medical equipment nationwide.
598. Nursing allowances were fully paid, 13,500 nurses were placed on payroll, and admission fees for trainee nurses were halved.
599. Mr. Speaker, health colleges expanded training programmes, adding 930 new residents, 2,104 specialist nurses, and several new accredited teaching centres.

Regulatory agencies, including the Pharmacy Council and HeFRA, advanced digital integration, and SafeCare accreditation increased to 34 facilities.

- 600. MoFFA identified 232 unlicensed mortuaries, issued provisional licences, and trained 800 attendants in safe practices.
- 601. In 2026, the Ministry will advance the Free Primary Health Care agenda, scale up local manufacturing, and modernise digital claims and fraud detection systems to improve efficiency and accountability.

Ministry of Gender, Children and Social Protection

- 602. Mr. Speaker, to deepen gender equality and protection, the Legislative Instrument for the Affirmative Action Act will be submitted to Parliament in 2026. Cabinet has also approved the revised National Gender Policy to strengthen inclusion and women's empowerment.
- 603. The Ministry sensitised 5,297 people on teenage pregnancy and gender-based violence, provided care to 237 children in correctional centres, and offered welfare services to 45 elderly persons and over 3,000 vulnerable citizens.
- 604. To address inequality, the Social Protection Act, 2025 (Act 1148) was passed, with the accompanying Legislative Instrument being finalised.
- 605. Mr. Speaker, 135 victims of human trafficking received trauma-informed care, and awareness campaigns reached 770 stakeholders nationwide. The revised Domestic Violence Policy was approved to strengthen survivor protection and access to justice.

National Labour Commission

- 606. Mr. Speaker, the National Labour Commission handled 515 cases, resolving 319 through facilitation and dispute settlement.
- 607. In 2026, the Commission will intensify efforts to promote decent work, protect investment, and maintain peace on the industrial front.

Public Safety Sector

608. Mr. Speaker, peace, justice, and the rule of law are the foundation of a stable and prosperous Ghana.
609. The Public Safety Sector remains focused on protecting citizens, strengthening national security, promoting justice, and deepening good governance. Every reform, prosecution, and policy in this sector seeks one goal: to build a fair, safe, and accountable nation.

Office of the Attorney-General and Ministry of Justice

610. Mr. Speaker, the Ministry monitored the implementation of its 2024 Annual Action Plan and assessed GIFMIS usage across regional offices. These evaluations strengthened accountability, improved financial reporting, and deepened compliance with public financial management laws.
611. To safeguard the legal and financial interests of the State, the Ministry represented Government in 192 civil cases, winning several and avoiding costly judgment debts. Fifteen agreements and contracts, eight MoUs, and 12 legal opinions were reviewed for MDAs and MMDAs, while 178 civil petitions and 183 legal requests were addressed. In all, 180 notices of intention were processed to mitigate potential liabilities to the State.
612. Mr. Speaker, of the 810 petitions on criminal cases received, 630 were resolved, restoring public confidence in justice delivery. On the international front, five Mutual Legal Assistance requests were handled, with four concluded, enhancing Ghana's cooperation in fighting organised crime, money laundering, and terrorism.
613. The Ministry received 2,001 prosecution dockets from investigative bodies and initiated 1,520 prosecutions nationwide, holding offenders accountable and strengthening public trust in the rule of law. Sixty-four appeals were managed, and 1,900 motions disposed of out of 2,205 received, helping reduce case backlogs.
614. Mr. Speaker, legal advice was provided on 150 criminal cases, improving investigative standards and avoiding wrongful prosecutions. Forty-six plea agreements were completed to fast-track trials and promote efficiency.
615. The Ministry also advanced legislative reforms, facilitating the drafting of 257 legal instruments, including 25 substantive Acts, 7 Legislative Instruments, and 225 Executive Instruments. Ongoing Bills include the Anti-Torture Bill, Legal Profession Bill, Marriages (Amendment) Bill, and Public Services Commission Bill.
616. In partnership with other MDAs, the Ministry is also drafting legislation such as the Broadcasting Bill, Community Service Bill, Centre for Health Security Bill, Fisheries Bill, and Audit Service (Amendment) Bill.

617. In 2026, the Ministry will defend about 400 civil suits, review 100 agreements and contracts, and prosecute at least 1,700 criminal cases from an estimated 1,900 dockets expected from investigative bodies.

Registrar-General's Department

618. Mr. Speaker, the Department registered 855 marriages and trained 816 pastors and MMDA officials on proper marriage registration. It processed 314 estates and disbursed GH¢104.53 million in death gratuities to beneficiaries, ensuring transparent and equitable estate administration.
619. On industrial property, 1,765 trademarks were filed, 1,034 registered, and 1,147 renewed. In addition, 357 patents were filed, 247 granted, and 413 renewed, while 364 industrial designs were registered locally and internationally.
620. In 2026, the Department will register 1,000 marriages, file 1,600 trademarks, 600 patents, and 100 industrial designs, and develop new digital software for Intellectual Property, Marriages, and Estate registration.

Copyright Office

621. Mr. Speaker, the Copyright Office registered 893 copyright works and conducted nationwide sensitisation on intellectual property rights, with targeted anti-piracy operations to protect creators. In 2026, the Office will register over 1,100 works and intensify enforcement in five major cities to reduce piracy.

Council for Law Reporting and Law Reform Commission

622. Mr. Speaker, the Council for Law Reporting made strong progress in clearing publication backlogs. Editorial work on the 2020–2025 Ghana Law Reports and the 2021–2025 Review of Ghana Law reached 70 and 90 percent completion respectively. In 2026, the Council will publish 700 copies each of the 2023–2024 and 1969–1970 Vol. 1 Reports and 400 copies of the 2025 Review of Ghana Law to support judicial research and scholarship.
623. The Law Reform Commission submitted the Expert Roundtable Report on Unfair Contract Terms and a paper on the Law of Trusts. In 2026, it will complete the Review of the Passenger Transport Law and the Illiterate Protection Act, 1912 (CAP 202).

Economic and Organised Crime Office (EOCO)

624. Mr. Speaker, EOCO handled 380 cases in 2025, recovering GH¢155.66 million through its operations—GH¢13 million in direct recoveries and GH¢142.66 million in indirect recoveries. The Office led 32 nationwide sensitisation campaigns on cybercrime, gaming fraud, trafficking, and irregular migration.
625. EOCO's collaboration with law enforcement partners led to the dismantling of carjacking syndicates and recovery of 29 luxury vehicles, disrupting organised crime networks. In 2026, EOCO will investigate about 450 cases, prosecute over 20, and recover an estimated GH¢250 million.

General Legal Council

626. Mr. Speaker, the General Legal Council enrolled 947 new lawyers to the Bar, 123 through the Mini Call and 824 through the Main Call, and licensed 1,926 law firms and departments, ensuring high professional standards and access to quality legal services.

Office of the Registrar of Companies

627. Mr. Speaker, the Office registered 143,099 new business entities, including 117,848 sole proprietorships, 18,788 companies limited by shares, and 5,728 companies limited by guarantee. It processed over 45,000 annual returns, 58,000 renewals, and 16,000 company updates.
628. To strengthen compliance, the Office processed 118 dissolution applications, completed 18 liquidations, and investigated seven companies for violations. In 2026, the Office will register 180,000 entities and operationalise 24-hour Prestige Service Centres in Accra and Kumasi to improve efficiency.

Legal Aid Commission

629. Mr. Speaker, the Legal Aid Commission provided free legal representation to vulnerable citizens and trained 90 staff in leadership and IT systems. The Commission handled 6,612 cases in 2025, resolving 3,122, with 3,490 pending. In 2026, it will open new regional offices in Oti and Bono East, and district offices in Adentan, Jirapa, and Busunya to expand access to justice nationwide.

Ministry of Defence

630. Mr. Speaker, the Ministry continued the Northern Border Security Project, which reached 64.9 percent completion by September 2025. Works include 12 Forward Operating Bases, two Logistics Bases in Wa and Bolgatanga, and a central Command Centre in Tamale. The Ezinlibo Base reached 83 percent completion.
631. Government will continue works on the 500-bed Afari Military Hospital, which will provide specialised healthcare services to both military and civilian populations.
632. In 2026, the Ministry will invest in self-reliance through DIHOC projects to strengthen food security, improve housing for personnel, and reduce external dependence for military supplies.

Commission on Human Rights and Administrative Justice

633. Mr. Speaker, CHRAJ resolved 6,024 out of 6,547 human rights complaints and held 1,927 sensitisation programmes nationwide. In 2026, it will launch the National Human Rights Action Plan, implement the National Action Plan on Business and Human Rights, and investigate about 9,000 complaints.
634. The Commission also resolved 142 out of 205 administrative justice complaints and will continue promoting access to justice for migrants. On anti-corruption, 153 cases were resolved and 542 public education campaigns conducted. In

2026, CHRAJ will conduct corruption risk assessments for the Lands Commission and the Ministry of Roads and Highways.

Judicial Service

635. Mr. Speaker, three new courts, AMA District, Kpone District, and Winneba High Court, were commissioned. The E-Justice Programme reached 80 percent completion under phase one, with phase two set to go live in 2026 to digitise Supreme and Appeal Court processes.
636. Over 18 million legal records have been digitised, and 110 additional transcription systems installed nationwide. Through Alternative Dispute Resolution (ADR), 4,030 court-referred cases were mediated, and 1,168 settled.
637. Mr. Speaker, construction of the Wa High Court and the Superior Courts Office Block in Accra will be completed in 2026. The Service will also introduce an e-Appeal Records System to streamline appellate processes and reduce delays.

Ministry of the Interior

638. Mr. Speaker, the National Commission on Small Arms and Light Weapons seized 1,278 illicit weapons in 2025 and reached 18,000 students and artisans through sensitisation campaigns. In 2026, it will implement the Arms for Development Programme in Yendi to promote peace and disarmament.
639. The Ghana National Fire Service responded to 4,668 fire incidents and 501 road traffic collisions, saving lives and property worth billions of cedis. It conducted over 20,000 fire audits, issued 5,000 permits, and trained 737 fire volunteers. In 2026, it will operationalise a new forensic laboratory and launch an Automated Fire Safety Compliance System.
640. Mr. Speaker, the National Peace Council led post-election dialogues, promoted religious tolerance, and assumed chairmanship of the Global Action Against Mass Atrocity Crimes. In 2026, it will train MMDCEs, expand peace education, and intensify interventions in hotspots such as Bawku.
641. NADMO supported 173,800 disaster victims, over four times its target and dredged 255 drains to reduce flooding. In 2026, it will expand early warning systems to all 16 regions and finalise its Legislative Instrument.
642. The Ghana Police Service maintained peace through intelligence-led policing and anti-galamsey operations that dismantled major syndicates. It also launched specialised patrols, canine units, and school-based outreach programmes. In 2026, the Service will expand land-crime units, automate traffic law enforcement, and strengthen counterterrorism operations.
643. Mr. Speaker, the Narcotics Control Commission conducted 2,727 vessel inspections, made 70 arrests, and seized 948kg of narcotics valued at US\$3.77 million.

- 644. The Ghana Immigration Service inspected 4,888 facilities, facilitated 2.2 million traveller movements, and repatriated 2,188 offenders. In 2026, it will deploy border surveillance technology, strengthen inland patrols, and upgrade infrastructure at entry and exit points.
- 645. The Ghana Refugee Board relocated Burkinabe asylum seekers from border communities and will continue relocation and integration efforts in 2026.
- 646. Mr. Speaker, the Gaming Commission closed illegal casinos in Osu and Tema, and advanced digital regulation through the Gaming Administration Monitoring System.
- 647. The National Identification Authority registered 394,688 new applicants in 2025, bringing cumulative registrations to 18.9 million. Over 80 million verification transactions have been recorded. In 2026, the Authority will achieve ISO certification and register Ghanaians abroad.

Office of the Special Prosecutor

- 648. Mr. Speaker, the Office of the Special Prosecutor, in collaboration with the Controller and Accountant-General's Department, conducted a corruption risk assessment on public payrolls and uncovered GH¢34 million in unearned salaries, leading to six convictions and the recovery of GH¢106,319.
- 649. The Office concluded 10 investigations and is pursuing 67 ongoing cases. In 2026, it will complete all pending investigations, prosecute existing cases, and open new ones to strengthen accountability and deterrence.

SECTION 5: 2026 MEDIUM-TERM POLICY OBJECTIVES AND TARGETS

650. Mr. Speaker, as we enter 2026, our foremost task is to consolidate the hard-earned gains of 2025 and turn stability into lasting progress.
651. The sacrifices made by Ghanaians over the past year have restored hope and confidence in our economy:
- inflation is down;
 - the cedi is stronger; and
 - growth has regained momentum.
652. But this is not the time to slow down, it is the time to push forward.
653. Government remains fully committed to translating these macroeconomic gains into better livelihoods, decent jobs and real opportunities for every Ghanaian.
654. Our mission is clear: to build an economy that not only recovers, but thrives, one that works for all, not a select few.

Our Vision

655. Mr. Speaker, our vision is simple but powerful: to build a prosperous, fair, and democratic Ghana anchored on freedom, justice, and equal opportunity for all. We seek a nation where every Ghanaian can live with dignity, earn a decent livelihood, and contribute to a future that reflects our shared values and collective ambition - the Ghana we all want.
656. Mr. Speaker, our Resetting Agenda is built around three central pillars:
- Restoring hope and trust in our democracy, in public institutions and in the ability of every Ghanaian to fulfil their potential;
 - Extending a trusted hand to the vulnerable, especially women and the youth, while laying the foundation for a more inclusive and compassionate economy; and
 - Stimulating demand and productivity through the 24-Hour Economy and Accelerated Export Development Policy, which promotes Made-in-Ghana goods, expands jobs and keeps our economy active, day and night.

Macroeconomic Policy Objectives

657. Mr. Speaker, the macroeconomic policy objectives for 2026 and the medium-term are clear and focused to:
- preserve macroeconomic stability;
 - sustain debt sustainability;
 - sustain growth; and
 - deliver prosperity that every Ghanaian can feel part of.
658. Our reform agenda charts a bold path toward resilience, competitiveness and opportunity. It is about transforming the current stability into long-term prosperity.

659. Mr. Speaker, to achieve this, Government will focus on five key macroeconomic objectives:
- we will sustain fiscal discipline and debt sustainability by implementing prudent debt management strategy, improving revenue mobilisation, and keeping spending efficient and targeted;
 - we will build and sustain a resilient and inclusive economy with growth powered by productivity, innovation, and private sector enterprise and create decent jobs especially for our youth;
 - We will deepen structural reforms to modernize the economy, boost productivity, attract private investment, and make growth more broad-based and inclusive;
 - we will strengthen social protection so that the most vulnerable, particularly women, children and the poor are shielded from hardship and benefit from Ghana's recovery; and
 - We will maintain a flexible exchange rate regime and prudent monetary policy to preserve price stability, protect savings and support investment.
660. Mr. Speaker, these priorities reflect our conviction that stability is only meaningful when it improves lives.
661. Mr. Speaker, together, these policies reflect one simple truth, that macroeconomic stability is not an end in itself, but the foundation for a fairer, stronger and more resilient Ghana where every citizen has a real chance to succeed.

Fiscal Policy Objectives

662. Mr. Speaker, to deliver on our vision and macroeconomic objectives, and in line with Section 14 of the Public Financial Management Act, 2016 (Act 921), Government's fiscal policy objectives for 2026 will focus on bold, practical and disciplined actions that drive growth while protecting the vulnerable.
663. Our key fiscal policy priorities for 2026 are:
- Maintain fiscal discipline by sustaining a primary surplus of at least 1.5 percent of GDP on commitment basis under our Fiscal Responsibility Framework;
 - Mobilise more domestic revenue through continuous implementation of the Medium-Term Revenue Strategy, digital tax systems and enforcement of taxation in the digital economy;
 - Cut waste, promote value for money and rationalize spending, ensuring that every cedi delivers value for citizens while eliminating leakages and inefficiency;
 - Protect priority social spending in education, health and social protection to shield the poor and sustain human capital development;
 - Create fiscal space for development by prioritising growth-enhancing capital investments in roads, agriculture, agri-business and land reforms;
 - Strengthen debt sustainability through prudent borrowing, active debt management and transparent reporting;
 - Enhance expenditure control and audit systems to prevent arrears and improve accountability across all MDAs; and

- Stay flexible and proactive, adjusting expenditure and revenue measures where needed to keep the fiscal path on track.

664. Mr. Speaker, these objectives are about living within our means, investing in what matters most and keeping Ghana on a firm path of stability, confidence and growth.

Monetary and Exchange Rate Policies

665. Mr. Speaker, monetary and exchange rate policies in 2026 will focus on keeping inflation low, strengthening the cedi, and supporting growth.

666. With inflation dropping sharply in 2025, the Bank of Ghana reduced the policy rate by 650 basis points to 21.5 percent, reflecting confidence in Ghana's disinflation progress while maintaining real positive rates to sustain investor confidence and protect savings.

667. Mr. Speaker, the Bank will continue a prudent, data-driven approach to keep inflation within the 8 ± 2 percent target band while gradually expanding credit to the private sector.

668. Monetary easing will be cautious and conditional on continued stability, and the Bank stands ready to act swiftly should inflationary risks resurface.

669. This balanced stance will keep inflationary expectations anchored and ensure that macroeconomic stability translates into real-sector recovery.

670. Mr. Speaker, to strengthen policy transmission, the BoG has modernised its operations, making BoG bills the main tool for managing liquidity and aligning auction practices with global standards. This shift improves how changes in the policy rate influence market lending rates.

671. On the external front, gross international reserves is now almost five months of import cover, supported by strong exports and the activities of the Ghana Gold Board, ensuring resilience against global shocks.

672. Mr. Speaker, we are also deepening exchange rate flexibility and transparency. The new foreign exchange operations policy adopted in October 2025 has unified the FX market, eliminated multiple currency practices, and moved repatriation of export proceeds to commercial banks.

673. These reforms are keeping the cedi stable, market confidence high, and Ghana firmly on course for low inflation, steady growth, and lasting macroeconomic stability.

2026 and Medium-Term Macroeconomic Targets

674. Mr. Speaker, to advance our medium-term macroeconomic goal of stability, resilience and shared prosperity, Government has set bold but achievable macroeconomic targets for the 2026 fiscal year and the medium-term.

675. These targets reflect our determination to maintain the momentum of recovery, deepen stability and translate growth into real improvements in the lives of our people.
676. Mr. Speaker, over the medium term (2026-2029):
- Real GDP is set to rise steadily, averaging about 4.9 percent;
 - Non-oil GDP is programmed to grow around 5 percent;
 - Inflation will stay within the 8 ± 2 percent target band, reflecting a firm grip on price stability;
 - The fiscal balance will remain strong, with a primary surplus of 1.5 percent of GDP from 2026 onward, proof of fiscal discipline under the amended PFM Act; and
 - Gross International Reserves (including oil funds and encumbered/pledged assets) are expected to provide at least three months of import cover to anchor external resilience.
677. For the 2026 fiscal year, we aim to achieve:
- Overall real GDP growth of at least 4.8 percent, driven by continued expansion in services, manufacturing, and agriculture;
 - Non-oil real GDP growth of at least 4.9 percent, underscoring our commitment to diversifying growth and reducing dependence on extractives;
 - End-year inflation of 8.0 percent, to consolidate the progress made in bringing prices under control and ease the cost of living for households;
 - A primary surplus of 1.5 percent of GDP on commitment basis, in line with our fiscal responsibility framework to sustain discipline and debt sustainability; and
 - Gross international reserves of not less than three months of import cover, ensuring a strong external sector and a strong defense for the Ghana Cedi.

Table 13: Macroeconomic Target for the Medium-Term 2026 to 2029

No.	Item	2025	2026	2027	2028	2029
1	Overall Real GDP growth	4.8	4.8	4.9	5.0	5.0
2	Non-oil Real GDP growth	5.3	4.9	5.0	5.0	5.0
3	Inflation (eop)	8.0	8.0	8.0	8.0	8.0
4	Primary Balance (Commitment)	1.5	1.5	1.5	1.5	1.5
5	Gross International Reserves (months of imports)	≥ 3.0	≥ 3.0	≥ 3.0	≥ 3.0	≥ 3.0

678. Mr. Speaker, these targets show that Ghana is determined to stay the course:
- to protect the gains we have made and sustain the recovery;
 - to strengthen confidence at home and abroad; and
 - to build an economy that works for every Ghanaian.

Key Drivers of Growth and Jobs in 2026 and the Medium-Term

679. Mr. Speaker, to achieve our 2026 growth target, Government is implementing a focused set of policies to unlock private investment, diversify the economy, and drive inclusive, job-rich growth.

680. These measures are not about short-term stimulus, they are about building a stronger, more competitive and future-ready Ghanaian economy.
681. Mr. Speaker, we are making it easier to do business and attracting new investment into productive sectors of the economy.
682. In September 2025, Government submitted to Parliament the regulations for the Public-Private Partnership Act, 2020 (Act 1039) and the Corporate Insolvency and Restructuring Act, 2020 (Act 1015) to make it simpler, faster and safer to start and grow a business in Ghana.
683. We are establishing 24/7 business registration centres and digital helplines, reviewing port charges, and submitting new Consumer Protection, Competition, and Business Regulatory Reform Bills to Parliament to level the playing field for entrepreneurs.
684. Mr. Speaker, we are also taking bold steps to boost exports and strengthen Ghana's position in regional and global value chains.
685. Through the 24-Hour Economy Programme and the Economic Transformation Agenda, we are promoting modern agriculture, agribusiness, and value addition to transform raw materials into finished products for both domestic use and export.
686. Government will roll out a five-year Trade Sector Support Programme and help Ghanaian firms fully leverage opportunities under the African Continental Free Trade Area (AfCFTA).
687. These actions will create more jobs, strengthen the cedi through higher export earnings and make Ghana a key hub for regional trade and production.
688. Mr. Speaker, we are investing heavily in our people and skills, because sustainable growth depends on a capable workforce.
689. The Free Secondary Education Programme will be made more efficient and equitable, while the National Apprenticeship Programme will expand access to vocational training in partnership with the private sector.
690. To unlock agricultural potential, the Agriculture for Economic Transformation Agenda will anchor the Feed Ghana Programme, supported by Farmers' Service Centres and new Farm Banks to enhance access to inputs, finance and irrigation.
691. Mr. Speaker, to ensure that capital reaches those who create real value, we are improving access to finance through the Development Bank Ghana and the forthcoming National Employment Trust, which will de-risk investment in high-potential sectors and support women-owned and youth-led enterprises.

692. Mr. Speaker, we will accelerate digitalisation through initiatives such as the One Million Coders Programme, Regional Digital Centres, and a FinTech Growth Fund, expanding digital skills, entrepreneurship, and financial inclusion across the country.
693. Mr. Speaker, we are investing in data and statistical infrastructure, so every policy, cedi, and project is anchored in evidence. In 2026, the Ghana Statistical Service will complete the rebasing of GDP and CPI to reflect more accurately today's economy and cost of living. This will sharpen the accuracy of our growth and inflation numbers, improve fiscal and monetary planning, and give investors and other stakeholders a clearer picture of risk and opportunity. The result is cleaner signals for targeting jobs, taxes, social protection, and inflation management.
694. The Ghana Statistical Service is also leading the preparation of the third National Strategy for the Development of Statistics, NSDS3, for 2026–2030. This is our blueprint for a modern, coordinated, and well-financed national statistical system that tracks our national priorities and the SDGs, among others. The strategy will scale the use of modern technology including artificial intelligence, strengthen administrative data across MDAs, and deliver faster, cheaper, more granular statistics by region, district, gender, age, and disability.
695. Mr. Speaker, what this really means is simple: better data, better decisions, better outcomes for Ghanaians.
696. Mr. Speaker, the Big Push Programme is already in motion, and it is focusing on road infrastructure for the 2025 and 2026 fiscal years. Across the country, critical highways, feeder roads and bridges are being constructed or upgraded to open-up markets, connect farming communities, and boost trade.
697. Mr. Speaker, the energy sector will power Ghana's growth in 2026 and beyond, fuelled by new investments in gas, renewables, and transmission upgrades. Reliable, affordable electricity will cut business costs, drive industry, and expand jobs, turning energy from a constraint into a catalyst for inclusive, sustainable growth.
698. Alongside major investments in energy, irrigation, and digital infrastructure, the Big Push is transforming Ghana's landscape, creating jobs, improving mobility and laying the groundwork for faster, more inclusive growth.
699. Mr. Speaker, together, these measures will lay the foundation for strong, private sector-led growth, an economy that works round-the-clock, competes globally and delivers jobs, innovation and prosperity for all Ghanaians.

Outlook for the Monetary and External Sectors

700. Mr. Speaker, Ghana's monetary and external outlook for 2026 signals renewed stability and resilience.
701. The Bank of Ghana's balance sheet is projected to expand moderately, driven by higher foreign assets from gold and forex purchases. Improved access to external financing under the IMF-supported programme will help rebuild reserves and strengthen macroeconomic stability.
702. Reserve money growth will be anchored on stronger external inflows and tighter liquidity management. This will preserve the downward momentum in inflation while ensuring enough liquidity to support growth.
703. Mr. Speaker, private sector credit is expected to grow in 2026 and improve steadily over the medium term. As government's domestic financing needs ease, banks are expected to lower risk aversion, expand lending to productive sectors, and support small businesses. This measured recovery in credit will drive private investment and job creation.
704. Mr. Speaker, inflation is expected to be maintained return to the medium-term target band of 8 ± 2 percent by end-2026. This reflects continued fiscal consolidation, exchange rate stability, tight monetary policy, and stronger food supply from improved agricultural output.
705. On the external front, Ghana's balance of payments is expected to remain strong. Gross international reserves are projected to cover at least three months of imports, supported by improved export earnings, remittances, and FDI inflows. The Ghana Gold Board will continue to be a key anchor, with record small-scale gold exports adding to FX inflows and boosting reserve accumulation.
706. The current account is projected to sustain a surplus in 2026, driven by robust gold exports and higher remittances. Gold exports are expected to stay strong, supported by prices above US\$3,000 per ounce and increased production. Cocoa export earnings will improve on the back of higher output from new plantations and reforms at COCOBOD, though global prices may soften with higher supply.
707. Crude oil exports, however, are expected to remain moderate due to lower production volumes and subdued global prices. Even so, gains in gold, cocoa, and other non-traditional exports will help offset the decline and sustain Ghana's external stability.
708. Mr. Speaker, these dynamics point to a more stable cedi, lower inflation, and stronger investor confidence, conditions that will underpin growth and improve living standards for Ghanaians.

Medium-Term Fiscal Framework

709. Mr. Speaker, Ghana's fiscal path over the medium-term will consolidate the progress we have made and anchor stability for growth.
710. Beginning in 2026, Government will maintain a primary surplus of at least 1.5 percent of GDP each year. This reflects our unwavering commitment to fiscal discipline, debt sustainability, and responsible management of public finances.
711. Total revenue and grants are projected to rise steadily, from 16.0 percent of GDP in 2025 to 16.8 percent in 2026, and to 16.9 percent by 2029. This growth will be driven by stronger tax administration, digitalisation of revenue systems, improved compliance, and the full rollout of the Unified Taxpayer Identification System. The focus will be on broadening the tax base, not burdening existing taxpayers.
712. Mr. Speaker, primary expenditure will rise modestly from 14.2 percent of GDP in 2025 to 15.3 percent in 2026, and 15.4 percent by 2029. This disciplined increase reflects targeted investment in priority programmes such as the Big Push initiative, infrastructure, education, health, and digital transformation to support the economic transformation drive, while keeping recurrent spending under tight control.
713. Consequently, the overall fiscal deficit on commitment basis will narrow from 1.8 percent of GDP in 2025 to 2.2 percent in 2026 and to 2.0 percent by 2029. On a cash basis, the deficit will improve from 2.8 percent of GDP in 2025 to 4.0 percent in 2026, reaching 2.0 percent by 2029.
714. Mr. Speaker, this trajectory marks a clear shift, from short-term recovery to sustained fiscal stability. Our focus is simple: spend efficiently, raise revenue smartly, borrow responsibly, and invest where it matters most for the Ghanaian people.

Table 14: 2026-2029 Medium-Term Fiscal Framework (% of GDP)

Sn.	Item	2026 Budget	2027	2028	2029
1	Total Revenue & Grants	16.8	17.2	17.1	16.9
2	o/w Domestic Revenue	16.6	17.0	17.0	16.8

8	Primary Balance (cash)	-0.4	0.8	0.9	1.5

Source: MoF

2026 Fiscal Framework

715. Mr. Speaker, the 2026 fiscal framework has been designed to consolidate our recovery, anchor macroeconomic stability, and protect the gains made under the IMF-supported programme.

716. Government will target a primary surplus of 1.5 percent of GDP, consistent with the fiscal anchor set under the amended Public Financial Management Act. The overall fiscal deficit on commitment basis is projected at 2.2 percent of GDP, reaffirming our commitment to fiscal prudence, growth, and debt sustainability.
717. On a cash basis, the overall fiscal deficit is projected at 4.0 percent of GDP, with a corresponding primary balance estimated at a deficit of 0.4 percent of GDP. This fiscal stance balances consolidation with growth, maintaining discipline while safeguarding resources for productive investments under the Big Push Infrastructure Programme and other national priorities.

2026 Revenue Mobilisation

718. Mr. Speaker, Total Revenue and Grants for 2026 is projected at GH¢268.1 billion, up from GH¢226.5 billion in 2025. This represents a strong revenue performance supported by new non-oil tax policy measures expected to yield at least 0.6 percent of GDP.
719. Non-Oil Tax Revenue, which accounts for about 80.6 percent of total revenue, is projected at GH¢216.1 billion, reflecting a robust 18.8 percent annual growth.
720. Mr. Speaker, Non-Tax Revenue (non-oil) is estimated at GH¢20.9 billion, representing about 7.8 percent of domestic revenue. Of this amount, GH¢18.2 billion will be retained by MDAs to support operations, while GH¢2.8 billion will be lodged into the Consolidated Fund. The IGF Capping Policy is expected to yield an additional GH¢329.6 million to the budget.
721. Oil and Gas receipts are projected at GH¢13.6 billion, driven by improved efficiency across producing fields and steady global oil prices.
722. Other Revenue, including SSNIT transfers to the National Health Insurance Levy and Energy Sector Levies (ESL), is expected to amount to GH¢14.4 billion.
723. Grants from Development Partners are projected at GH¢3.1 billion, equivalent to 1.1 percent of total revenue and grants. The expected disbursements from grants are entirely project-related to support key development initiatives in line with government priorities.

Figure 9: 2026 Resource Mobilisation (in GH¢ Million)

Source: MoF

2026 Expenditure Allocation

724. Mr. Speaker, Total Expenditure on commitment basis for 2026 has been programmed at GH¢302.5 billion, representing 18.9 percent of GDP, and an increase of 20.1 percent over the 2025 projection of GH¢251.7 billion (17.8 percent of GDP). This allocation reflects a deliberate balance between fiscal consolidation and strategic investment in infrastructure, human capital, and social protection.
725. Primary Expenditure, that is, expenditure excluding interest payments, is projected at GH¢244.7 billion, equivalent to 15.3 percent of GDP.
726. Compensation of Employees, covering wages, salaries, pensions, gratuities, and social security contributions, is projected at GH¢90.8 billion (5.7 percent of GDP), reflecting the 9% negotiated increase in base pay for public servants under the Single Spine Salary Structure (SSSS).
727. Use of Goods and Services is projected at GH¢13.2 billion (0.8 percent of GDP) to enhance efficiency in service delivery across MDAs.
728. Grants to Other Government Units, comprising transfers to earmarked funds such as GETFund, NHIF, and DACF, are estimated at GH¢63.6 billion (4.0 percent of GDP).
729. Interest Payments are projected at GH¢57.7 billion (3.6 percent of GDP), of which GH¢50.1 billion represents domestic interest and GH¢7.6 billion external interest. Continued debt restructuring and liability management will further reduce the interest burden over the medium term.

730. Mr. Speaker, Capital Expenditure (CAPEX) is projected at GH¢57.5 billion (3.6 percent of GDP), reflecting Government's commitment to growth-driving investments. Of this, GH¢45.5 billion (2.8 percent of GDP) represents domestically financed capex, comprising GH¢15.5 billion for MDAs and GH¢30.0 billion for the Big Push Infrastructure Programme. Foreign-financed capex, mainly project loans and grants, is projected at GH¢12.0 billion (0.8 percent of GDP).
731. Other Expenditures, including ESLA transfers, payments to Independent Power Producers (IPPs) are estimated at GH¢19.7 billion (1.2 percent of GDP).
732. Mr. Speaker, based on these allocations, the total appropriation for the fiscal year ending 31st December 2026 amounts to is **GH¢357,105,639,079.87**.

Figure 10: 2026 Expenditure Allocation (in GH¢ Million)

Source: MoF

2026 Budget Balances and Financing

733. Mr. Speaker, the overall fiscal balance on commitment basis is projected at a deficit of GH¢34.4 billion, equivalent to 2.2 percent of GDP. The corresponding primary balance records a surplus of GH¢23.3 billion, representing 1.5 percent of GDP, in line with our medium-term fiscal target.
734. On a cash basis, the overall deficit is projected at GH¢64.2 billion, equivalent to 4.0 percent of GDP, while the primary deficit stands at GH¢6.5 billion (0.4 percent of GDP).
735. The cash deficit of GH¢64.2 billion will be financed from a balanced mix of foreign and domestic borrowing sources.
736. Foreign financing is projected as a net repayment of GH¢6.6 billion (0.4 percent of GDP). This includes expected disbursements from the IMF Extended Credit

Facility (US\$360 million), the World Bank Development Policy Operation and other bilateral partners of US\$313.2 million.

737. Domestic Financing will amount to GH¢71.0 billion (4.4 percent of GDP) and will be sourced primarily through issuances of long- and short-term government securities. This strategy will support domestic market development, ensure debt sustainability, and maintain financial sector stability.
738. Mr. Speaker, this fiscal framework is not just a set of numbers, it is a roadmap for sustained stability and inclusive growth. It represents a disciplined yet forward-looking budget: one that invests wisely, spends efficiently, protects the vulnerable, and restores full confidence in Ghana's economy.
739. Mr. Speaker, every cedi spent in 2026 will be a cedi that delivers results, creates jobs, builds infrastructure, and drives prosperity for all Ghanaians.
740. Mr. Speaker, the fiscal policy measures that will underpin the implementation of the 2026 and Medium-term fiscal framework are presented under Section 6 of this Budget Statement.

2026 and Medium-Term Petroleum Receipts and Utilisation

741. Mr. Speaker, consistent with the First Schedule (Section 17) and Section 7 of the Petroleum Revenue Management (Amendment) Act 2015, (Act 893), the Benchmark price for 2026 has been calculated as a seven-year moving average of prices.
742. This yielded a price projection of US\$76.22 per barrel, up marginally from the price of US\$74.70 per barrel used in the 2025 Budget Statement and Economic Policies of Government.
743. Mr. Speaker, the gas price for 2026 is also projected at US\$7.53 per MMBtu, estimated as a seven-year moving average in line with the PRMA.

2026 Benchmark Output

744. Mr. Speaker, the 2026 Benchmark crude oil output is estimated at 37.95million barrels (103,959.78 barrels of crude oil per day), based on annual production forecast of each producing field's outputs in line with the PRMA.
745. The Ghana group share of the total crude oil output (37.95 million barrels) is 7.63million barrels consisting of:
- Royalty volume of 2.13 million barrels; and
 - Carried and participating interest volume of 5.50 million barrels.
746. Similarly, the Benchmark gas output, has been estimated at 143.08 trillion Btu for 2026. The gas output was converted from Bcf to trillion Btu using the conversion factor of 1,060 btu / scf.

2024 Total Petroleum Receipts

747. Mr. Speaker, the projected petroleum receipts for 2026 is US\$985.50 million, comprising Royalties of US\$162.24 million, Carried and Participating Interest of US\$419.01 million, Corporate Income Tax of US\$403.53 million and Surface Rentals of US\$0.72 million.

Table 15: Sources of Petroleum Revenue for 2026 & the Medium-Term

Sn.	Items	Unit	2026	2027	2028	2029
1	Total Petroleum Receipts	USD mn	985.5	1082.0	1017.7	930.0
2	Royalties	USD mn	162.2	154.0	133.6	115.2
2.1	o/w Crude Oil	USD mn	162.2	154.0	133.6	115.2

3.2	o/w Gas	USD mn	0.0	0.0	0.0	0.0
4	Corporate Income Tax	USD mn	403.5	526.6	538.5	517.1
5	Surface Rentals	USD mn	0.7	0.7	0.0	0.0
	Memo Items					
1	Price	USD/bbl	76.2	75.6	71.0	69.2
2	Benchmark Production (crude oil)	Million bbl	37.9	36.3	33.4	29.4

748. Mr. Speaker, of the amount of US\$985.50 million, US\$190.33 million will be ceded to GNPC for the Equity Financing Cost (US\$149.98 million) and its share of the net Carried and Participating Interest (US\$40.4 million).
749. GNPC's share of the net Carried and Participating Interest is based on a rate of 15 percent after the Equity Financing Cost has been deducted.
750. Mr. Speaker, the Benchmark Revenue for 2026, which is the total petroleum receipts, net the amount ceded to GNPC is estimated at US\$795.2 million.
751. Out of the Benchmark Revenue, a total of US\$556.6 million has been allocated as the Annual Budget Funding Amount (ABFA), while the Ghana Petroleum Funds (GPFs) receive US\$238.6 million.
752. The GPFs receipts will be distributed between the Ghana Stabilisation Fund (US\$167.0 million) and Ghana Heritage Fund (US\$71.6 million).

Table 16: Petroleum Revenue Distribution in the Medium-Term (GNPC & GoG) USD mn

Sn.	Items	2026	2027	2028	2029
1	Transfer to National Oil Company (NOC)	190.3	151.4	151.7	128.4
1.1	o/w Equity Financing	150.0	107.4	117.5	98.6
1.2	o/w 15% share of Net Carried & Participating Interest	40.4	44.0	34.2	29.9
2	Benchmark Revenue (BR)	795.2	930.6	866.0	801.6
2.1	o/w Annual Budget Funding Amount	556.6	651.4	606.2	561.1
2.2	o/w Transfer to the Ghana Petroleum Funds	238.6	279.2	259.8	240.5
2.3	o/w Ghana Stabilization Fund	167.0	195.4	181.9	168.3
2.4	o/w Ghana Heritage Fund	71.6	83.8	77.9	72.1

753. Mr. Speaker, the medium-term total petroleum receipts are projected at US\$1,081.98 million, US\$1,017.69 million, and US\$930.05 million for 2027, 2028, and 2029 respectively.

754. This is based on Benchmark prices of US\$77.32, US\$81.96, and US\$82.57, per barrel for 2025, 2026, and 2027, respectively.

2025–2028 Medium-Term Debt Management Strategy

755. Mr. Speaker, anchored on our medium-term macroeconomic framework, Government has developed the 2025–2028 Medium-Term Debt Management Strategy (MTDS) as a cornerstone of our broader economic reset agenda.
756. This strategy sets out a clear and disciplined plan to manage public debt in a sustainable, transparent, and cost-effective manner, ensuring that every cedi borrowed works to secure Ghana's long-term stability and growth
757. Over the past two years, we have made remarkable progress in restoring debt sustainability. By end-2024, 93.5 percent of Ghana's total debt had been successfully restructured, including US\$20.4 billion in domestic notes and bonds, US\$13.1 billion in Eurobonds, and US\$5.2 billion in bilateral debt. The remaining 6.5 percent, mainly commercial debt, remains under negotiation.
758. Mr. Speaker, these efforts, coupled with the Memorandum of Understanding signed with the Official Creditor Committee (OCC) in January 2025, mark a turning point in our debt sustainability journey. Parliament's approval of the indicative terms in June 2025, and the first bilateral signing with the French Republic in July, signal renewed global confidence in Ghana's debt management framework
759. Mr. Speaker, this strategy is fully aligned with the IMF Extended Credit Facility (ECF) programme, and it is anchored on one key objective: to ensure that Ghana's financing needs are met at the lowest possible cost and at a prudent level of risk. The strategy focuses on four key outcomes:
- Reducing refinancing and interest rate risks through a balanced borrowing mix;
 - Lowering debt servicing costs to create fiscal space for growth;
 - Deepening the domestic debt market to attract broader investor participation; and
 - Improving transparency and accountability in debt operations.
760. Mr. Speaker, the 2025–2028 strategy also prioritises the revival of the domestic bond market. After two years of restructuring and adjustment, we will resume benchmark bond issuance in 2026 to rebuild investor confidence, support liquidity, and set a transparent yield curve for pricing government securities. In addition, Treasury bill issuance will continue, not only to finance short-term needs but also to build buffers that protect against market volatility
761. On external financing, Government will rely primarily on disbursements from the IMF-ECF, the World Bank's Development Policy Operation (DPO), and multilateral and bilateral project loans to meet our budgetary and infrastructure needs. This approach ensures concessional borrowing dominates our external financing mix, keeping costs low and risks manageable.

762. To reinforce this framework, Mr. Speaker, Government has set strategic benchmark indicators for debt sustainability. They are as follows:
- Debt maturing within one year will not exceed 15 ± 5 percent of total debt;
 - Average time to maturity will remain at eight years or more;
 - The share of Treasury bills will be capped at 20 ± 5 percent of domestic debt; and
 - USD-denominated debt will not exceed 70 percent of external debt
763. Over the medium term, a series of public debt management initiatives will strengthen implementation:
- Expansion of borrowing limits to include concessional and carefully selected non-concessional loans for strategic projects;
 - Rebuilding the Sinking Fund to provide a dedicated buffer for future repayments;
 - Executing a debt reprofiling and buyback programme to reduce high-cost obligations and smoothen repayment profiles;
 - Publishing regular, timely information on debt operations to enhance transparency and investor trust; and
 - Sustained stakeholder engagement, both domestic and international, to maintain Ghana's reputation as a credible borrower
764. Mr. Speaker, this strategy signals Ghana's determination to manage debt, not be managed by it. By 2028, our goal is to return Ghana to a moderate risk of debt distress, reduce interest costs, extend maturities, and deepen confidence in our markets.
765. In doing so, we will unlock the fiscal space needed to invest in infrastructure, education, health, and digital transformation. Debt management is not only about numbers; it is about creating room for opportunity, protecting the next generation, and ensuring that our growth is built on stability, not speculation.
766. Mr. Speaker, the 2025–2028 Medium-Term Debt Management Strategy embodies our disciplined, forward-looking approach to fiscal policy. It represents Ghana's journey from recovery to resilience, from debt dependence to debt sustainability, and from uncertainty to enduring confidence.
767. Every action we take under this strategy will be guided by these principles: to borrow wisely, invest strategically, and grow sustainably, for the prosperity of every Ghanaian.

SECTION 6: FISCAL POLICY MEASURES, STRUCTURAL REFORMS, AND KEY POLICY INITIATIVES

768. Mr. Speaker, as we enter 2026, Ghana stands at a defining moment, a moment of renewed confidence, resilience, and ambition.
769. The choices we made in 2025 have restored macroeconomic stability, rebuilt trust in our fiscal institutions, and rekindled the hope of our people. The task before us now is to turn that stability into sustained progress and to make growth felt in every home, every community, and every enterprise.
770. The 2026 Budget represents the next phase of our national renewal, a practical, forward-looking plan to consolidate gains, accelerate transformation, and secure prosperity for all Ghanaians. It is the next chapter in building ***The Ghana We Want***, a nation that works around the clock, creates opportunities for all, and protects the dignity and dreams of every citizen.
771. Mr. Speaker, permit me to reaffirm Government's three key priorities for the 2026 fiscal year and the medium-term.
- ***First, the consolidation of macroeconomic stability.*** We will maintain fiscal discipline, strengthen revenue mobilisation, and anchor responsible borrowing to ensure debt sustainability. We are determined to sustain single-digit inflation and ensure exchange rate stability to preserve the stability we have worked hard to achieve.
 - ***Second, we will accelerate economic transformation and job creation.*** This will be driven by large-scale investment and job creation in energy, commercial agriculture, agribusiness, and road infrastructure, alongside flagship initiatives such as the **24-Hour Economy and the Accelerated Export Development Programme**, and comprehensive land and natural resource reforms; and
 - ***Third, we will strengthen the security and social sectors for inclusive growth.*** Government will retool the security services, modernise education, expand healthcare access, extend electricity to every community, and improve access to clean water and protect the poor and the vulnerable.
772. Mr. Speaker, this Budget builds on the stability of 2025 and channels it into action that delivers:
- more jobs;
 - better infrastructure;
 - stronger industries; and
 - better public services.
773. The Budget moves Ghana from recovery to transformation and from promise to progress.
774. Rt. Hon. Speaker, let me now outline the core policy measures, structural reforms, and key policy initiatives that will drive this transformation, each one

designed to deliver tangible results, reduce the cost of living, empower businesses, and create a more inclusive and resilient Ghanaian economy.

775. Together, they reflect Government's unwavering commitment to make 2026 a year of progress, productivity, and shared prosperity for every Ghanaian.

Fiscal Policy Measures and Structural Reforms

776. Mr. Speaker, Government remains steadfast in its commitment to restore and sustain fiscal stability as the foundation for inclusive growth.

777. Our focus for 2026 and the medium-term is to maintain a primary surplus of 1.5 percent of GDP on commitment basis, reduce debt vulnerabilities, and create the fiscal space needed to invest in infrastructure, jobs and social protection.

778. We are pursuing a disciplined, data-driven fiscal strategy, one that raises more revenue, spends better and protects the most vulnerable while safeguarding long-term stability.

779. Mr. Speaker, to achieve our fiscal targets for 2026 and the medium-term, Government will implement a comprehensive set of revenue, expenditure, and structural measures, underpinned by transparency and accountability.

Revenue Measures

780. Mr. Speaker, on the revenue side, Government will deepen domestic resource mobilization through the implementation of the Medium-Term Revenue Strategy, thereby, improving tax compliance, expanding the tax base and deploying digital tools to track and tax e-commerce, cross-border transactions and the extractive sector.

781. In addition, Government will execute VAT reforms.

782. We will also tighten exemptions and enforce the of payment of tax arrears, ensuring that all eligible entities pay their fair share.

783. These measures are expected to lift non-oil revenue to 15.7 percent of GDP in 2026 from a projected 15.1 percent of GDP in 2025.

VAT Reforms

784. Mr. Speaker, in the 2025 Budget and the Mid-Year Fiscal Policy Review, Government made a firm promise, to reform Ghana's Value Added Tax (VAT) system to make it fairer, simpler and more efficient.

785. We pledged to remove distortions, address the cascading effects inherent in the current VAT system, strengthen compliance, and create a tax regime that supports both business growth and fiscal stability.

786. The distortions have negatively impacted overall welfare, increased the deadweight loss in the economy and significantly reduced VAT compliance.

787. Today, I am proud to report that we have delivered on that promise.
788. After months of detailed analysis and broad consultations with stakeholders, we have completed the design of a modernized VAT system fit for Ghana's economic transformation agenda.
789. Mr. Speaker, Government is, therefore, submitting to this august House, for approval, a bold package of VAT reforms that will make our tax system more equitable, transparent and business-friendly.
790. Rt. Hon. Speaker, the new VAT reforms will:
- abolish the COVID-19 Health Recovery Levy;
 - abolish the decoupling of the GETFund and NHIL levies from the VAT tax base, allowing both levies to be subject to input tax deductions;
 - abolish VAT on reconnaissance and prospecting of minerals;
 - reduce the effective VAT rate from 21.9% to 20%;
 - raise the VAT registration threshold from GH¢200,000 to GH¢750,000; and
 - extend the VAT zero-rating on the supply of locally manufactured textiles to 2028.
791. Mr. Speaker, by abolishing the COVID-19 levy, Government is putting GH¢3.7 billion in the pockets of individuals and businesses in 2026 alone.
792. Mr. Speaker, these reforms will also reduce the cost of doing business by 5 percent result of subjecting the GETFund and NHIL levies to input-output deductibility.
793. Mr. Speaker, all together, the VAT reforms is expected to give back GH¢5.7 billion to businesses and households.
794. Mr. Speaker, the VAT registration threshold has declined in real terms from GH¢200,000 in 2015 to approximately GH¢48,000 in current values. This means that small and micro businesses that were exempt in 2015 from VAT registration are now compelled to register and charge VAT. This has placed an undue burden on small and micro businesses and also increased the cost of administering VAT. The increase in the VAT threshold is expected to address this problem and make VAT administration simpler and easier to implement.
795. Mr. Speaker, VAT on mineral exploration and reconnaissance has led to very little investment in minerals exploration over the past two decades. Abolishing VAT on mineral exploration and reconnaissance will revive investor confidence, stimulate greenfield activity, and ensure the long-term sustainability of the country's mining sector. This measure will promote responsible mining and help to mitigate the haphazard mineral prospecting that degrades our forests and water bodies.
796. Mr. Speaker, to support the domestic textile industry, Government zero-rated the VAT on supply of locally manufactured textiles which is due to end in December 2025. Government is resolute in supporting the domestic textile

industry which has demonstrated the capability to expand when given the appropriate fiscal incentives. In line with this and the Ghana Textile and Garment policy, Government has decided to extend the zero rating to end of December 2028, protecting over 2,000 direct jobs.

797. These VAT reforms will make Ghana a more business-friendly economy and create the opportunity for business expansion and more jobs.
798. Mr. Speaker, we are not only seeking to change the policy and legal framework of the VAT regime. We are also deploying electronic and digital solutions to improve VAT administration.
799. Specifically, the measures proposed include:
- The introduction of digital solutions for tax collection systems, allowing for the monitoring and collection of VAT on cross-border transactions conducted on digital platforms owned by non-resident taxpayers;
 - The introduction and operationalization of Fiscal Electronic Devices (FED) to enhance compliance and facilitate the monitoring of taxable transactions by VAT taxpayers; and
 - The introduction of a VAT reward scheme is designed to encourage the public to assist with policing VAT revenue by collecting VAT receipts for purchases they make. This will allow taxpayers to use their VAT receipts to benefit from a VAT promotion and reward scheme.
800. Mr. Speaker, these reforms mark a turning point in Ghana's value added tax administration.
801. They will make compliance easier for businesses, strengthen revenue mobilisation, and enhance the credibility of our fiscal framework for 2026 and the medium term.
802. The Ghana Revenue Authority will roll out a comprehensive public education and awareness campaign to ensure a smooth and transparent implementation of these reforms.
803. Mr. Speaker, this is not just a tax reform, it is a step toward a more just, predictable and business-friendly economy.
804. It honours our pledge to lighten the load on honest taxpayers while building a stronger, fairer foundation for national development.

Review of Core Tax Laws

805. Mr. Speaker, beyond VAT, Government will, in 2026, embark on a comprehensive reform of Ghana's key tax laws, including the Income Tax Act, 2015 (Act 896), Customs Act, 2015 (Act 891), and Excise Duty Act, 2014 (Act 878) to align them with global best practices, promote equity and competitiveness, simplify compliance, and enhance revenue generation.

806. The Ministry of Finance will commence these reviews in 2026, engage stakeholders and submit a draft bill to Parliament as part of the 2027 Budget.

Review and Consolidation of the Income Tax Act

807. Mr. Speaker, the Income Tax Act, 2015 (Act 896) has served Ghana well, but it now requires a full overhaul to keep pace with global tax developments and the digital transformation of the economy. The rise of e-commerce, the global push against Base Erosion and Profit Shifting (BEPS), and the OECD/G20 global minimum tax framework have all changed how countries mobilize tax revenue and protect their tax bases.
808. Over the years, incremental amendments to the Act have introduced inconsistencies and administrative burdens. We must now move from patchwork reforms to a coherent, modern framework.
809. The review will, therefore, consolidate past amendments, simplify the law, and align Ghana's income tax regime with international best practice, ensuring it remains fair, transparent, and investor-friendly.
810. Pending the completion of this comprehensive reform, Government will strengthen provisions in the current Act to allow the collection of taxes from non-resident entities with significant digital or economic presence in Ghana.
811. This ensures that global digital giants doing business in Ghana contribute their fair share to our national development

Review and Consolidation of the Customs Act

812. Mr. Speaker, trade and customs are the gateways of our economy. The Customs Act, 2015 (Act 891) will therefore be reviewed to align with emerging international standards in trade facilitation, digitalization, and border efficiency.
813. The reforms will be guided by the World Trade Organization's Trade Facilitation Agreement and the World Customs Organization's modern customs practices, which promote electronic processing, risk-based inspection, and trusted trader programmes.
814. This comprehensive review will simplify border procedures, reduce clearance times, and lower compliance costs for businesses. It will also strengthen Ghana's competitiveness in regional and global value chains, while improving the ability of Customs to combat smuggling, undervaluation, and illicit trade.
815. Importantly, the review will consolidate all existing amendments and subsidiary legislations into a single, coherent legal framework, making the Act simpler, clearer, and easy to implement.

Review and Consolidation of the Excise Duty Act

816. Mr. Speaker, excise taxation is no longer just a fiscal tool, it is a means to promote public health, environmental sustainability, and responsible consumption.

817. The Excise Duty Act, 2014 (Act 878) will, therefore, undergo a comprehensive review to reflect both global trends and Ghana's domestic priorities.
818. Internationally, many countries are expanding excise regimes to include carbon-intensive products, plastics, and sugary beverages, in line with the Paris Climate Agreement and World Health Organization frameworks.
819. Ghana must not be left behind.
820. The review will harmonise excise rates, broaden the tax base, and ensure that our excise policies encourage healthy living, environmental protection, and fiscal responsibility.
821. By modernising this Act, Government will also improve compliance, simplify administration, and create a consistent structure for businesses while ensuring that our excise system contributes meaningfully to both revenue mobilisation and social wellbeing.
822. Mr. Speaker, with this comprehensive review of our tax laws, we are laying the legal and policy foundation for a tax system that keeps pace with global trends, strengthens investor confidence, and delivers sustainable revenues to power our national transformation.

Closing Revenue Leakages at the Ports

823. Mr. Speaker, significant leakages at our ports continue to undermine revenue mobilization. A recent audit revealed systemic weaknesses in classification, valuation, and cargo inspection.
824. In 2024 alone, Ghana recorded imports valued at GH¢204 billion (CIF), yet only GH¢85 billion was taxable, pointing to misclassification and under-invoicing.
825. To tackle this, Government will deploy Artificial Intelligence (AI)-driven pre-arrival inspections for all cross-border shipments. This technology will detect under-valuation, flag high-risk goods, and strengthen Customs' capacity to combat smuggling, improve safety, and protect national security.
826. By integrating automation into port operations, we expect to significantly boost customs revenue, enhance trade efficiency, and close long-standing revenue gaps.

Deepening International Tax Cooperation

827. Mr. Speaker, Ghana continues to play a leadership role within the Africa Group in shaping the emerging United Nations Framework on International Tax Cooperation.
828. Once adopted, this framework will empower countries like ours to effectively tax non-resident digital and multinational companies, curb illicit financial flows, and recover revenues lost through evasion and avoidance.

829. This is a landmark opportunity to secure Ghana's fair share of global income and strengthen our capacity to finance national priorities without overburdening domestic taxpayers.
830. Mr. Speaker, our revenue strategy for 2026 is bold, fair, and forward-looking.
831. It rewards compliance, protects the vulnerable, and creates a tax system fit for a modern and inclusive Ghana.
832. Through these reforms, we are not merely raising revenue, we are rebuilding trust between citizens and the State, ensuring that every cedi collected is used to build the Ghana We Want.

Expenditure Measures

833. Mr. Speaker, on the expenditure side, we will continue to rationalize spending by eliminating low-value programmes, and streamlining earmarked funds, freeing fiscal space for critical priorities like roads, energy, and education.
834. Every cedi saved will be redirected to projects that create jobs and deliver tangible benefits to Ghanaians.
835. Mr. Speaker, to achieve and support the fiscal sustainability agenda, key expenditure measures for the 2026 fiscal year include the following:
- contain recurrent spending by capping non-essential expenditures such as foreign travel, workshops, and vehicle procurements and eliminating low-impact programmes;
 - rationalize earmarked funds towards high-impact and job-creating projects in roads, energy, agriculture, and education;
 - reinforce the commitment authorisation process, ensuring that no new projects are initiated without budgetary approval or funding. This will prevent the accumulation of arrears and strengthen accountability across all MDAs;
 - continue to strengthen social protection systems by safeguarding allocations to LEAP, NHIS, School Feeding, and Free Secondary Education. These programmes remain central to our vision of inclusive growth and shared prosperity; and
 - prioritize capital investment in infrastructure and growth-enabling sectors with special focus on the Big Push Programme and the 24-Hour Economy Programme, both designed to expand productive capacity, unlock private investment, and create jobs for the youth.
836. Mr. Speaker, to further strengthen expenditure discipline and improve value for money, the following operational **structural reforms** will be pursued:
- full roll-out of the Ghana Electronic Procurement System (GHANEPS) integration with the Ghana Integrated Financial Management Information System (GIFMIS);
 - government will enforce sanctions under Sections 96 to 98 of the Public Financial Management (PFM) Act, particularly for breaches relating to arrears accumulation and non-compliance with commitment controls;

- the payroll validation exercise, led by the Ministry of Finance in collaboration with the Controller and Accountant-General's Department, the Ghana Audit Service, and the Public Services Commission, will be sustained to remove ghost names and ensure that only legitimate employees remain on the public payroll;
 - a comprehensive review and audit of the budget preparation and implementation process will be undertaken to streamline workflows, enhance transparency, prevent arrears accumulation, and ensure value for money;
 - implement recommendations from the comprehensive arrears and commitments audit, conducted by the Ghana Audit Service with EY and PwC, to prevent accumulation of new arrears;
 - strengthen fiscal discipline and accountability through the operationalisation of the revised Fiscal Responsibility Act and stronger sanctions for non-compliance; and
 - institutionalize quarterly expenditure reviews and real-time audit monitoring to prevent overspending and improve efficiency.
837. Mr. Speaker, together, these measures will ensure that Ghana lives within its means, mobilises revenues fairly, and spends efficiently.
838. Fiscal discipline is not an end in itself, it is the bridge between stability and progress, between policy promises and real improvement in the lives of Ghanaians.

Review of Procurement Thresholds

839. Mr. Speaker, one of the silent challenges in our public financial management system has been the erosion of real value in our procurement thresholds. The Second, Third, and Fifth Schedules of the Public Procurement Act, 2003 (Act 663) define the financial ceilings that determine which procurement methods can be used, who has approval authority, and what level of advertisement is required.
840. Over time, however, inflation and currency depreciation have significantly reduced the real purchasing power of these thresholds, making even small, routine procurements subject to lengthy and expensive approval processes.
841. Mr. Speaker, the last upward review of these thresholds was undertaken in 2016, nine years ago. Since then, market prices, exchange rates, and the cost of construction materials have changed substantially, creating inefficiencies in public procurement. The current system has forced many entities, including District Assemblies, to use complex, high-level approval processes for basic community projects.
842. For instance, District Assemblies that could previously procure and construct a six-unit classroom block under their existing threshold can no longer do so today because of the loss in value. This has delayed critical local projects, disrupted service delivery, and increased administrative costs.

843. Mr. Speaker, this revision is therefore long overdue. The proposed amendment to the procurement thresholds seeks to restore purchasing power, reflect current market realities, and enhance efficiency across all levels of government. It will empower approving authorities to respond more quickly to community needs, accelerate the execution of projects, and ensure value for money.
844. Ultimately, this reform is about building a procurement system that is responsive, efficient, and fit for purpose, one that speeds up delivery without compromising transparency or accountability. It is another decisive step toward improving public sector performance and ensuring that every cedi spent delivers real, timely impact for the Ghanaian people.

Establishing the Value for Money Office (VfMO)

845. Mr. Speaker, even though the effective implementation of our strengthened public financial management laws has improved compliance, there is still leakage through inflated prices, budget overruns and abandoned projects. Our oversight largely focuses on procedures after the fact, not on results before money leaves the purse.
846. The nation needs a single, independent body to guarantee that public spending delivers real value for the first time and for every time.
847. Establishing a Value for Money Office (VfMO) will move us from box-ticking to outcome accountability, thereby, cutting waste, restoring trust, and freeing fiscal space for roads, schools, hospitals, and jobs. It will be Ghana's permanent guardian of economy, efficiency, effectiveness, equity, and accountability.
848. Mr. Speaker, after assessing several alternative options, Government has resolved to establish an independent statutory VfMO with legal power to review, certify, and sanction. This will end fragmented oversight, embed prevention, and institutionalise performance across the country.
849. Mr. Speaker, the key objectives of the VfMO are to, among others,:
- verify that major projects are economically justified and technically sound;
 - ensure prices reflect national cost benchmarks;
 - require measurable results from MDAs and MMDAs; and
 - publish transparent performance reports for citizens and Parliament.
850. Mr. Speaker, the Office will deliver three lines of defense across the project life cycle:
- pre-award reviews to certify scope, cost, financing, and timelines before approval;
 - post-award monitoring to prevent overruns and enforce quality during delivery; and
 - post-completion evaluations to confirm value created.
851. A mandatory VfM Certificate will be a condition for contract award, payment, or continuation, with a public electronic portal showing certifications, benchmarks, and savings.

852. Mr. Speaker, the VfMO will coordinate with the Public Procurement Authority (PPA), Internal Audit Agency (IAA), Auditor-General, and Ministry of Finance and apply real consequences for waste including administrative penalties, surcharges, referrals for prosecution, and blacklisting where warranted.
853. It is being designed in a manner that will make compliance simpler and evasion costly.
854. Mr. Speaker, we will launch a VfM Transparency Portal for real-time publication of certified projects, benchmarks, savings, and reviews, with a citizen feedback window to report waste and track responses.
855. Quarterly and annual reports will be submitted to Cabinet and Parliament and shared with the public.
856. Mr. Speaker, within five years of implementation, we expect the following outcome:
- 10–15 percent reduction in contract inflation and waste;
 - projected annual savings are about GH¢3 billion;
 - faster, better projects delivered at fair prices;
 - quarterly and annual VfM reports to Parliament and the public; and
 - higher investor and citizen confidence in how Ghana spends.
857. Mr. Speaker, this is more than a new office; it is a new standard. With the Value for Money Office, we choose prudence over waste, performance over process, and service over slogans. This initiative will deliver a permanent, professional watchdog that certifies major contracts before award, benchmarks costs across sectors, and tracks efficiency in real time. The result is better projects, lower prices, faster delivery, and stronger accountability.
858. The establishment and effective operationalisation of the Value for Money Office, will contribute significantly to sustain fiscal credibility, protect scarce resources, and deliver public goods at the right price.
859. Every cedi must count, and will count, for the Ghanaian people.

Designation of additional qualifying instruments for investment of the resources of the Ghana Petroleum Funds

860. Mr. Speaker, in 2026, Government will take bold and forward-looking steps to ensure that Ghana's petroleum wealth delivers greater value for its people.
861. In line with Section 27 (2) of the Petroleum Revenue Management Act, 2011 (Act 815), the Investment Advisory Committee on the investment policy and management of the Ghana Petroleum Funds has advised the Minister for Finance to designate additional qualifying instruments for investment of the resources of the Ghana Petroleum Funds.

862. This will allow a portion of the Ghana Petroleum Funds (GPFs) to be invested in Ghana's domestic market, particularly in commercially viable energy infrastructure that powers our industrial and economic transformation.
863. Under the current legal framework, however, investments from the GPFs are restricted to low-risk, foreign-denominated securities issued by entities outside Ghana, such as the IMF, World Bank, and other top-rated sovereigns.
864. Unfortunately, this approach has yielded very little returns. Since the establishment of these Funds in 2011, total reserves have reached US\$1.46 billion, yet only US\$194.9 million has been earned, an average return of just 1 percent per year over the last thirteen years.
865. Mr. Speaker, the time has come to make our oil wealth work harder for Ghanaians.
866. The designation of additional qualifying instruments will allow part of the Petroleum Funds to be strategically invested in commercially viable domestic energy sector projects. This will diversify the investment portfolio, improve long-term returns, and align the GPFs more closely with Ghana's national development and industrialisation agenda.
867. Mr. Speaker, the energy sector is at the heart of Ghana's transformation, powering industries, homes, and our 24-Hour Economy Programme. By directing a portion of our oil savings into critical projects such as thermal power plants and gas processing plants, we will not only increase the profitability of the Funds but also lower the cost of energy, enhance reliability, and boost industrial competitiveness.
868. This reform is a win-win for Ghana. It protects and grows the value of our Petroleum Funds while unlocking capital for projects that create jobs, expand local industries, and strengthen energy security. Every dollar saved from our oil resources will not only build reserves for the future but also lay the foundation for a stronger, more self-sufficient economy today.
869. Mr. Speaker, global experience confirms the wisdom of this approach. Around the world, sovereign wealth funds have evolved from passive savings instruments into engines of domestic growth. Over 25 percent of such funds now invest directly in infrastructure, innovation, and strategic industries.
870. Saudi Arabia's Public Investment Fund is driving the country's Vision 2030 through investments in smart cities and renewable energy. Nigeria's Sovereign Investment Authority is financing infrastructure to support job creation and industrial expansion. The UAE's Mubadala and Masdar Funds are powering technology and green energy transitions. Ghana must now take its place among these nations by putting our oil wealth to work for national transformation.

871. Mr. Speaker, this reform will not add any cost to the national budget. On the contrary, it will create fiscal space by improving returns on our savings and leveraging domestic capital for high-impact projects.
872. This is a mindset shift. It redefines how Ghana manages its natural wealth: from passive savings to productive investments; from external dependency to domestic empowerment.
873. Our oil resources must not sit idle abroad when they can light our homes, power our factories, and build a better future for our children.
874. Mr. Speaker, accountability and transparency will remain non-negotiable. The governance framework for the Ghana Petroleum Funds will be strengthened to ensure that any domestic investments adhere to strict financial, operational, and ethical standards. Only commercially viable projects with strong risk mitigation measures, such as escrow accounts, credit guarantees, and independent performance audits, will qualify.
875. This marks a new era in Ghana's resource management, an era where our oil wealth becomes a true engine of growth, powering not only our savings for tomorrow but also our development today.

Public Debt Management Initiatives and Reforms in 2026

876. Mr. Speaker, 2026 begins a new chapter in Ghana's public debt management, one anchored in foresight, discipline, and innovation. Having stabilised our debt trajectory through sound fiscal reforms and successful restructuring, our focus now shifts from crisis response to building lasting resilience.
877. Mr. Speaker, the priority for 2026 will be to borrow smarter, manage risks better, and ensure that every cedi borrowed supports growth and fiscal sustainability. Modern tools and transparent systems are being deployed so that debt management becomes not just about repayment but about strengthening Ghana's financial credibility and protecting the public purse.
878. A key focus will be on **liability management** within the domestic market. With post-DDEP restrictions expiring, Government will re-enter the domestic capital market strategically, not for expansionary borrowing, but to restructure and lengthen maturities, reduce rollover risks, and create fiscal space for investment in productive sectors.
879. Through **buybacks, bond exchanges, and targeted cash operations**, we will smoothen the maturity profile of domestic debt, lower interest costs, and support market stability, consistent with our Medium-Term Debt Strategy.
880. Mr. Speaker, the **Ghana Sinking Fund** is now fully operational, with dedicated cedi and dollar accounts. This Fund is our financial buffer, a disciplined savings mechanism designed to meet future debt repayments and prevent the buildup of repayment pressures. Contributions will come from annual budget allocations, loan recoveries, investment income, and surpluses from the

Stabilisation Fund cap. The Sinking Fund is not just a financial tool; it is a symbol of Ghana's renewed credibility and long-term fiscal prudence.

881. A robust operational framework, investment policy, and procedures manual are in place, with the Bank of Ghana managing the Fund under strict transparency and accountability standards to ensure returns and value retention.
882. Mr. Speaker, Government is also reforming the **Primary Dealer (PD) and Bond Market Specialist (BMS) framework** to restore integrity and efficiency in the domestic bond market. Only institutions with proven financial strength, capacity, and clean governance records will qualify. Politically exposed entities are excluded entirely. Mr. Speaker, let me assure you that the situation where companies connected to managers of the economy were also acting as Primary Dealers and Bond Market Specialists, will be a thing of the past.
883. Performance will be reviewed quarterly to ensure only the most credible institutions remain. These reforms will rebuild investor confidence, deepen liquidity, and enhance price discovery in our bond market.
884. Mr. Speaker, transparency remains the cornerstone of our debt strategy. Government will maintain continuous engagement with investors through **quarterly briefings, town halls, and data releases**, ensuring consistent communication on fiscal performance and debt operations.
885. In sum, Mr. Speaker, these reforms are not mere adjustments, they are a declaration of intent. We are institutionalising discipline, modernising debt management, and rebuilding trust. The result will be lower refinancing risks, reduced interest costs, improved credit ratings, and a more resilient financial system.
886. Every cedi borrowed will deliver value, every repayment will build confidence, and every reform will secure Ghana's fiscal future. This is how we earn the trust of investors and, more importantly, the confidence of the Ghanaian people.

Key Policy Initiatives

Energy Sector Initiatives

887. Mr. Speaker, energy is the engine of Ghana's transformation. Our goal is to turn power from a constraint into a competitive advantage for every home, factory, and enterprise. Reliable, affordable, and sustainable energy will be the fuel that drives the 24-Hour Economy, powers industry, lights communities, and creates jobs.
888. Through bold reforms, strategic investments, and smarter management, Government is building an energy system that not only keeps the lights on but propels inclusive growth across every corner of the nation.

Gas-to-Power Transformation

889. Mr. Speaker, we are advancing our Gas-to-Power Strategy to transition from the costly light crude oil for power generation to cleaner, domestically produced natural gas.
890. This strategic shift will cut generation costs by at least 75%, reducing the energy sector financing shortfalls and its fiscal impact on the budget, enhancing energy security and aligning with our climate commitments.
891. Mr. Speaker, within this framework, Ghana's Offshore Cape Three Point (OCTP) partners, led by ENI, have already completed a major upgrade in July 2025, expanding gas processing capacity from about 240 million to 270 million standard cubic feet of gas per day.
892. In addition, the Jubilee and TEN fields have increased gas production from 110 million to approximately 130 million standard cubic feet of gas per day.
893. Mr. Speaker, we have also secured a firm agreement with the OCTP partners, led by ENI, for an additional 80 million standard cubic feet of gas per day of new gas supply.
894. Mr. Speaker, this is not all. Government has also agreed with the Jubilee Partners to increase gas production by 70 million standard cubic feet of gas per day.
895. This will require an expansion of Ghana's gas processing infrastructure to offtake this gas for power generation.
896. In this regard, government has constituted a project implementation committee to ensure the accelerated deployment of a second gas processing plant, Ghana Gas Processing Plant Two (GPP 2), to offtake the gas from the Jubilee partners.

Construction of a 1,200 megawatts State-Owned Power Plant

897. Mr. Speaker, in the medium term, a total of 150 million standard cubic feet of gas per day will be produced by our OCTP and Jubilee partners, enough to generate up to **1,200 megawatts** of power.
898. Beginning 2026, Government will commence the construction of a **1,200-megawatt** state-owned thermal power plant to offtake the additional 150 million standard cubic feet of gas per day from the OCTP partners and GPP 2.
899. This plant will support the provision of reliable and affordable power and secure Ghana's energy future.

Reviving Ghana's Oil and Gas Sector

900. Mr. Speaker, Ghana's oil production has witnessed consistent decline over the years, falling from 71.4 million barrels in 2019 to an estimated 36 million barrels in 2025, almost 50% decline.
901. President John Dramani Mahama's administration has taken decisive action to reverse this trend.
902. Mr. Speaker, the Government's investor-friendly reforms have already secured over US\$3.5 billion in new investment commitments in 2025.
903. These include a US\$2 billion framework agreement for the Jubilee and TEN fields to drill 20 new wells, and a US\$1.5 billion Memorandum of Intent with Offshore Cape Three Points partners to expand operations.
904. Mr. Speaker, this new investor-friendly environment has also drawn the interest of oil and gas majors such as Shell. This is expected to bring in new capital, technology and expertise to increase our oil and gas production.
905. Mr. Speaker, also the Ghana National Petroleum Corporation (GNPC) will commence drilling for oil on the offshore Voltain Basin in October 2026. The prospects look good to expand Ghana's hydrocarbon production.
906. Mr. Speaker, an upstream regulatory and fiscal review is underway to make Ghana's petroleum regime more competitive, transparent and stable.

Rural Electricity Acceleration and Urban Intensification Initiative

907. Mr. Speaker, as part of our commitment to achieving universal access to electricity, Government will, in 2026, roll out the Rural Electricity Acceleration and Urban Intensification Initiative to connect every unserved and under-served community across the country.
908. Mr. Speaker, this initiative will be implemented through a Turnkey Implementation Model, designed to ensure faster, more efficient, and coordinated delivery.

909. Mr. Speaker, this initiative will not only extend the national grid to unserved and under-served communities but also unlock rural economic potential, improve access to education and health services, and drive Ghana's 24-Hour Economy programme.
910. Mr. Speaker, many communities with access to electricity still have households, schools, and businesses that remain unconnected, especially in fast-growing settlements and outer zones.
911. To bridge this critical gap, Government will, from 2026, launch an Electricity Intensification Programme to expand network connections in communities with limited electricity access.
912. Mr. Speaker, this initiative will extend service lines, transformers, and distribution poles to unserved and under-served homes and enterprises, ensuring that the benefits of electrification reach every Ghanaian family.
913. By intensifying these connections, we will support population growth and urban expansion, enhance local economic activity, and create jobs, particularly for electricians, contractors, and local suppliers.
914. The goal is to ensure that no community is counted as "electrified" until every home is truly powered.
915. Mr. Speaker, through this initiative, Government is reaffirming its commitment to a future where electricity access is not just widespread, but universal; not just available, but affordable; and not just delivered, but transformative.
916. Over a period of four years from 2026 to 2029, all sixteen regions will be covered under the initiative in a sequenced and results-oriented approach that guarantees regional balance and prevents project fragmentation.
917. Mr. Speaker, in 2026, government will commence the implementation of this initiative starting with the Volta, Oti, Savannah and Central regions.
918. Government will also continue the programme of extending off-grid solar to hard-to reach and remote communities such as island towns.

Hydroelectricity Power Plant

919. Mr. Speaker, government will undertake feasibility studies on mini-hydroelectric potential of the Red Volta and other southern river systems.

Securing Ghana's Energy Future

920. Mr. Speaker, through these coordinated reforms from:
- reviving the upstream oil and gas sector;
 - securing gas supply;
 - renegotiating IPPs;
 - building a national power plant; and

- expanding rural access.

921. we are securing affordable and reliable energy for individuals and businesses.
922. We are not just keeping the lights on; we are lighting the path to industrial transformation, job creation, and inclusive prosperity.
923. Our goal is simple and we are resolute. We will power every home and every business with clean, affordable, and reliable energy.

Agricultural Sector Initiatives

924. Mr. Speaker, agriculture remains the heartbeat of Ghana's economy, the source of food, jobs and dignity for millions of our people.
925. Under the able leadership of His Excellency President John Dramani Mahama, Government has set in motion an ambitious and practical plan to transform agriculture, anchored on the Agricultural Transformation Programme and the 24-Hour Economy and Accelerated Export Development Programme.
926. Mr. Speaker, our vision is to make Ghana's agriculture modern, mechanized, market-driven and youth and women-led.
927. The focus is on creating agro-industrial enclaves across the country, dynamic hubs where production, processing, and distribution happen around the clock.
928. This is how we will feed our people, provide raw materials for our industries, reduce imports, create jobs and make farming profitable again.

National Policy on Integrated Oil Palm Development (2026–2032)

929. Mr. Speaker, in fulfilment of our commitment to build a self-sufficient, industrially vibrant and export-ready agricultural economy, Government has developed the National Policy on Integrated Oil Palm Development (2026–2032).
930. This is a bold and strategic initiative to transform Ghana's "Red Gold" into a key driver of industrialization, rural prosperity, and foreign exchange earnings. The policy represents a new dawn for Ghana's agro-industrial future, drawing lessons from global leaders such as Malaysia and Indonesia while adapting them to our local context.
931. Mr. Speaker, Ghana remains one of the earliest countries in Africa to **cultivate oil palm**, yet we continue to import nearly 200,000 metric tonnes of crude palm oil annually, draining over US\$200 million in foreign exchange.
932. This policy seeks to change that reality by providing a coordinated national framework to expand sustainable plantations, strengthen local refining and processing, and build competitive value chains that create decent jobs and ensure food security.

933. The policy aims to:
- Cultivate 100,000 hectares of new oil palm plantations;
 - Create over 250,000 direct and indirect jobs across the value chain;
 - Achieve self-sufficiency in palm oil production and export competitiveness; and
 - Promote sustainability, gender inclusion, and equitable participation for women and youth.
934. Our next-door neighbour, Côte d'Ivoire, with similar climatic conditions, produces over 650,000 tonnes of crude palm oil annually compared to Ghana's 260,000 tonnes. This stark contrast underscores Ghana's vast untapped potential and the urgency for coordinated national action on oil palm production.
935. Mr. Speaker, access to suitable land has long been a bottleneck in Ghana's plantation development. To address this, Government through the Ministry of Lands and Natural Resources will acquire land banks to secure large, contiguous, and climate-suitable land for cultivation.
936. This model guarantees secure tenure, fair compensation, and transparent ownership structures.
937. The Ministry of Lands and Natural Resources through the Lands Commission, will oversee proper registration, mapping, and environmental compliance in line with the Lands Act, 2020 (Act 1036).

US\$500 Million Oil Palm Development Finance

938. Mr. Speaker, oil palm is a long-gestation crop that demands patient, affordable, and predictable capital. Conventional short-term commercial loans are ill-suited for a crop that takes nearly seven years to reach full maturity.
939. To address this, Government is establishing a Dedicated US\$500 million Oil Palm Development Finance Window in partnership with the World Bank, other development finance institutions (DFIs) and the Development Bank Ghana (DBG).
940. This facility will:
- Provide long-tenor loans aligned with the crop's growth cycle;
 - Offer a five-year moratorium on principal and interest payments;
 - Apply concessional interest rates to attract private investors; and
 - Finance up to 70 percent of project costs, with investors and cooperatives providing the remainder.
941. Funding will be tied to sustainability and governance standards, ensuring that capital flows only into projects that protect the environment, create decent employment, and uphold labour rights.

942. Through this patient capital model, Ghana will crowd in both domestic and foreign investors, unlocking the full potential of its agro-industrial base while ensuring benefits are shared equitably across rural communities.
943. Mr. Speaker, central to this policy is the inclusion of smallholder farmers as partners. Through a new Outgrower Partnership Scheme, smallholders will be linked directly to nucleus estates and processing facilities. They will have access to improved seedlings, mechanization services, subsidized fertilizer, and guaranteed off-take agreements at fair prices.
944. Government, through the Tree Crops Development Authority (TCDA), Oil Palm Research Institute (OPRI), and Ghana EXIM Bank, will provide financing, research, and technical assistance to organised cooperatives.
945. A Smallholder Support Fund will ensure women and youth gain access to affordable credit and skills training. This inclusive approach mirrors the successful models of Malaysia and Indonesia, where smallholder integration turned oil palm into an engine for shared growth.
946. By combining the scale of large estates with the dynamism of small farmers, Ghana will create a value chain that is both competitive and equitable.
947. Mr. Speaker, the National Oil Palm Policy will be anchored on robust implementation and strong regulatory oversight. The Tree Crops Development Authority (TCDA) will serve as the lead regulator, coordinating licensing, production planning, and data management. The Oil Palm Research Institute (OPRI) will focus on developing high-yield, climate-resilient varieties, while the Oil Palm Development Association of Ghana (OPDAG) will promote industry coordination and public-private dialogue.
948. To enhance compliance and revenue, Government will introduce a tax stamp regime for refined edible oils, modelled after the beverage industry. This will eliminate smuggling and under-declaration, ensure fair taxation, and protect domestic producers.
949. Mr. Speaker, these reforms will not only position Ghana to achieve self-sufficiency but also build an export-ready crude palm oil downstream sector that adds value and creates jobs.
950. Mr. Speaker, the National Policy on Integrated Oil Palm Development represents a bold commitment to re-industrialize agriculture, deepen rural transformation, and make Ghana a regional leader in sustainable palm oil production by 2032. It is a blueprint for agriculture transformation, export diversification, job creation, inclusive growth, community development, poverty reduction and shared prosperity.
951. Through strategic partnerships with investors, communities, and development partners, this policy will unlock Ghana's Red Gold potential and turn it into a pillar of our industrial and export-led future.

952. Ghana has the land and the people. What we are now adding is the vision, that ensures every palm planted today becomes a symbol of prosperity tomorrow.

Farmer Service Centers

953. Mr. Speaker, under the Farmer Service Centres initiative, the government will provide agriculture machinery for 50 agriculture districts with over 4000 different machinery.

954. Rt. Hon. Speaker, these machinery include the following:

- 660 Tractors;
- 300 Tractor Trailers;
- 200 Minitractors;
- 200 Minitractor Trailers;
- 200 Minitractor Tillers;
- 200 Minitractor Cultivators;
- 200 Minitractor Ploughs;
- 200 Minitractor Harrows;
- 200 Minitractor Cutter bars;
- 200 Minitractor Mowers;
- 460 3-Disc Ploughs;
- 200 4-Disc Ploughs;
- 330 16-Disc Harrows;
- 100 1000kg Mineral Fertilizer Spreaders;
- 100 4-Row Precision Seed Drills;
- 100 6-Row Precision Seed Drills;
- 100 32-Row Pneumatic Seed Drills;
- 300 800L Boom Sprayers;
- 50 Combine Harvesters;
- 50 Maize Headers for Combine Harvester; and
- 25 Soy Headers for Combine Harvester.

955. Mr. Speaker, our farmers have always carried Ghana on their shoulders. With these investments, we are returning the favour, giving them the tools, technology, and support to carry the nation into a future of food security and prosperity.

956. The transformation has begun. Agriculture is not just an occupation; it is the engine of Ghana's renewal.

957. Mr. Speaker, in response to the food glut across the country, President Mahama has directed the immediate release of an additional GH¢200 million to the National Food Buffer Stock Company to purchase and store the excess food to protect the investment and income of our cherished food crop and poultry farmers.

Feeding our students with what we grow

958. Mr. Speaker, President Mahama has also directed all schools, from basic to secondary, to purchase rice, maize, chicken and eggs produced in Ghana only.

959. The Ministry of Education, the Ghana Education Trust Fund (GETFund), the School Feeding Programme, the Free Secondary Education Secretariat and the National Food Buffer Stock Company are accordingly directed to ensure strict compliance.

The Big Push Infrastructure Programme

960. Mr. Speaker, the Big Push Infrastructure Programme, launched under the visionary leadership of His Excellency President John Dramani Mahama, represents the single largest investment in Ghana's physical infrastructure in recent years.
961. With an envelope of the cedi equivalent of **US\$10 billion**, this initiative is translating fiscal stability into physical progress, modernising roads, bridges, ports, and logistics corridors that drive inclusive growth, productivity, and job creation.
962. The Big Push embodies the spirit of our 2026 Budget theme, "Resetting for Growth, Jobs and Economic Transformation" by ensuring that infrastructure becomes not just an expenditure line, but a national growth engine for transformation.
963. Mr. Speaker, in 2025, Government dedicated **GH¢13.8 billion** to strategic road projects under this programme. Implementation is advancing across all regions, with projects selected based on economic returns, regional equity, and alignment with our 24-Hour Economy.
964. Mr. Speaker may recall that Parliament approved multi-year commitment in line Section 33 (1) of the PFM Act for 33 road projects under the Big Push Infrastructure Programme.
965. Mr. Speaker, I am happy to report that majority of the contractors have mobilized to site and works have begun in earnest. We expect completion of most of these road projects by mid-2027.
966. I also want to take this opportunity to assure contractors working on these road projects that they will be paid promptly.
967. The overarching goal is simple: to connect Ghana, end to end, and make infrastructure the backbone of industrialisation, trade, and job creation.
968. Mr. Speaker, the Big Push is ultimately about people, making it easier for farmers to reach markets, workers to reach jobs, and families to travel safely and affordably. It is about connecting every Ghanaian to opportunity.
969. Mr. Speaker, following the completion of feasibility studies and designs, Government is adding two more transformative projects, namely, the **Accra-Kumasi Expressway** and the **Ekye Amanfrom-Adawso Bridge** to the Big Push Infrastructure Programme.

970. Mr. Speaker, let me now provide some details about these two iconic infrastructure projects.

Accra-Kumasi Expressway: Building Ghana's Economic Spine

971. Mr. Speaker, a flagship of the Big Push Infrastructure Programme is the Accra-Kumasi Expressway Project, Ghana's first modern six-lane bi-directional Class A Expressway.

972. Stretching 198.7 kilometers, the Accra-Kumasi Expressway, will link the capital to the Ashanti Region, through the Greater Accra and Eastern Regions, linking the south to north.

973. The Accra-Kumasi Expressway, which is on a new alignment, reduces current travel distance by over 50 kilometers, from 250 kilometers to 198.7 kilometers.

974. Mr. Speaker, the Accra-Kumasi Expressway is also expected to halve travel time between Accra and Kumasi, reduce transport costs by nearly 40 percent, and create over 30,000 direct and indirect jobs during construction.

975. Beyond mobility, it will stimulate industrial parks, logistics hubs, and service economies along its route, powering the 24-Hour Economy and strengthening Ghana's competitiveness.

976. Mr. Speaker, the expressway will feature **eight major interchanges**, each designed to ease urban congestion and improve regional connectivity. The interchanges will be located at:

- Accra Hub;
- Adeiso;
- Asamankese;
- Akyem Oda;
- Ofoase;
- Lake Bosomtwe; and
- Kumasi.

977. It will also include three major bridges over the Birim and Pra Rivers.

978. Mr. Speaker, the project will include four full-service areas equipped with fuel stations, rest stops, restaurants, vehicle repair centres, and emergency medical facilities to support 24-hour operation. The service areas will be located at:

- Asamankese;
- Ayirebi;
- Ofoase; and
- Lake Bosomtwe.

979. Two modern 20 toll lane plazas, Accra Main-line Toll Plaza and the Kumasi Main-line Toll Plaza, will deploy automated systems to ensure efficient revenue collection and minimal delays.

Adawso-Ekye Amanfrom Bridge

980. Mr. Speaker, the Adawso-Ekye Amanfrom Bridge, and related road networks, will open the Afram Plains to large-scale commercial agricultural. This is urgently required to unlock the agricultural and economic potential of the Afram Plains enclave.

World Bank Funded 1,000 kilometers Agricultural Enclave Roads Programme

981. Mr. Speaker, Government has identified one of the major causes of food inflation to be bad roads linking food producing enclaves to markets.
982. As a result, Government is announcing a three-year programme to construct 1,000 kilometers of agricultural enclave roads.
983. This Agricultural Enclave Roads Programme will be implemented by the Department of Feeder Roads under the Ministry of Roads and Highways.
984. Mr. Speaker, the roads will be carefully selected to food producing enclaves only, to ensure that food produced is transported from farmgates to markets to reduce transportation costs, post-harvest losses and enhance food security generally.
985. Mr. Speaker, the Big Push Infrastructure Programme is more than a construction drive, it is a nation-building vision.
986. It will create thousands of jobs, empower local contractors, and strengthen linkages with domestic industries in agro-processing, manufacturing and construction.
987. It is about connecting opportunities, linking people and markets so that growth is not confined to a few cities, but shared across the entire country.
988. Mr. Speaker, through the Big Push, we are proving that Ghana can build its way into prosperity, one road, one bridge, at a time.
989. This is Ghana's era of infrastructure. Ghana will not only build to recover but build to transform.

Transport

990. Mr. Speaker, Ghana Airport Company Limited will introduce an airport development fee to rehabilitate Sunyani Airport, construct a new airport at Bolgatanga, build a multi-purpose car park and a connecting concourse between Terminals 2 and 3 at the Kotoka International Airport.

The 24-Hour Economy And Accelerated Export Development Programme

991. Mr. Speaker, under the visionary leadership of His Excellency President John Dramani Mahama, Government has launched the 24-Hour Economy and Accelerated Export Development Programme, a game-changing national

- programme designed to unlock Ghana's productive potential, expand decent and sustainable jobs, and transform our economy into a competitive, industrial, and export-driven powerhouse.
992. The 24-Hour Economy is not just another policy, it is a productivity revolution. It represents our determination to build an economy that works for everyone, every hour of the day. It is about making Ghana produce more, earn more, and employ more, turning idle hours into active growth, and ensuring that no opportunity goes to waste.
993. Mr. Speaker, this programme aims to accelerate industrialisation, boost exports, and drive inclusive growth through a fully integrated value chain approach, from production to processing, logistics, and market access. It will reduce import dependency, strengthen self-reliance, and create over 1.7 million decent jobs by 2028 across agriculture, manufacturing, logistics, and services.
994. Mr. Speaker, the 24-Hour Economy and Accelerated Export Development Programme (24H+) has now entered full implementation. Already, flagship projects are taking shape. Over 50 bankable projects have been identified, including regional garment parks, agro-industrial parks such as the Volo–Battor Agro-Industrial Park, and strategic logistics investments like the Volta Lake Multimodal Transport System, Tamale Air Cargo and Export Hub, and Yapei Inland Port.
995. Implementation of the 24-Hour Economy is being coordinated by a dedicated National Secretariat, working across ministries, agencies, and the private sector, the true engine of this transformation. Financing is designed to remain largely off the government's balance sheet, mobilising resources through the Ghana Infrastructure Investment Fund (GIIF), Development Bank Ghana (DBG), and other development finance and private investment partners. This value chain financing model is unlocking private capital for industrial parks, agroecological zones, logistics hubs, and innovation centres nationwide.
996. Mr. Speaker, the Volta Economic Corridor is a key hub in this transformation, anchored on rice, vegetables, aquaculture, and agro-processing. This corridor will link farmers, processors, and markets in a seamless value chain, while creating jobs and attracting private investment.
997. To sustain momentum, Government will introduce targeted tax incentives and rebates for agribusinesses engaged in mechanisation, irrigation, food processing, and storage infrastructure. These measures will make agricultural investment more profitable, enhance productivity, and ensure a fair return for those who deploy capital, technology, and innovation to modernise the sector.
998. Through the 24H+ framework, Government is laying the foundation for Ghana's industrial renaissance, a nation that produces, processes, and exports around the clock. This is not just a vision; it is Ghana's blueprint for a productive, self-reliant, and globally competitive economy that delivers prosperity for every Ghanaian, every day, and every hour.

Land And Natural Resources Reforms

999. Mr. Speaker, land and natural resources are not just assets, they are the soul of our nation. They hold the promise of wealth, opportunity, and shared prosperity for generations to come.
1000. Mr. Speaker, for too long, our land administration system has been slow, complex, and vulnerable to fraud. This has stifled investment, created conflict, and limited access to credit for citizens and businesses alike.
1001. That is why Government has launched a comprehensive Digital Land Administration Reform, designed to bring transparency, speed, and trust to land transactions.
1002. This reform will make it possible for every Ghanaian to register, verify, and transfer land documents online, thereby ending the days of missing files, duplicated records, and corruption in the land sector.
1003. Mr. Speaker, to make this reform sustainable, the Lands Commission will retain 100 percent of its Internally Generated Funds (IGF).
1004. This will empower the Commission to roll out full-scale technology-driven National Land Registry that integrates land, planning, and property data into a single, secure platform.
1005. Mr. Speaker, this transformation is not just about efficiency, it is about equity. By making land information accessible and reliable, we are unlocking new opportunities for farmers, entrepreneurs, and investors.
1006. It will make land ownership transparent, reduce litigation, and enable banks to confidently lend against land titles, fuelling job creation and industrial growth under the 24-Hour Economy Programme.
1007. Mr. Speaker, in this new chapter, our land will no longer be a source of conflict, but a foundation for progress.
1008. Mr. Speaker, in addition to transforming land administration, we are stepping up the protection of Ghana's forests, rivers, and mineral wealth.
1009. The devastation caused by illegal mining popularly known as galamsey, has gone far beyond economics; it threatens our survival.
1010. Government has therefore declared key water bodies and forest reserves as high-security zones, protected by law and by force.
1011. To enforce this, 1,000 dedicated security officers have been permanently deployed across waterbodies and forest reserves, supported by logistics, surveillance equipment, and rapid response units.

1012. Mr. Speaker, Government's unwavering commitment to the fight against illegal mining is being demonstrated through the enforcement of stringent measures on the use, importation, and management of excavators and other heavy machinery, while simultaneously promoting sustainable and regulated mining practices.
1013. In line with this policy, all importers of excavators are now required to obtain approval, prior to shipping, from the Ministry of Transport, which must also be verified by shipping companies and the Customs Division before clearance at the ports.
1014. Since August 2025, all machinery intended for mining operations must be registered with the Driver and Vehicle Licensing Authority (DVLA).
1015. To enhance monitoring and accountability, the Minerals Commission has commenced the installation of electronic tracking devices on all registered mining equipment to monitor their movement and usage in real time.
1016. Mr. Speaker, we are also investing in community-led restoration programmes, working with traditional authorities, youth groups, and mining communities to reclaim degraded lands, restore water bodies, and promote sustainable livelihoods in affected areas.
1017. This is how we will turn the fight against galamsey into a national movement for regeneration.
1018. Mr. Speaker, we have also made significant progress in advancing the nation's boundary management and cross-border cooperation agenda during the period under review. The Ghana Boundary Commission, working in close collaboration with its counterparts in Côte d'Ivoire, undertook preliminary orthophoto mapping and completed boundary reaffirmation exercise at Newtown in the Western Region.
1019. Mr. Speaker, Government's broader vision is to make Ghana a model of sustainable resource management in Africa. Our Lands and Natural Resources Reforms will integrate land use planning, mining regulation, and environmental conservation under a single national framework, ensuring that every acre of land, every forest, and every ounce of mineral contributes to Ghana's development, responsibly and transparently.
1020. Rt. Hon. Speaker, our forests will no longer shrink, but flourish. Our natural resources will no longer enrich a few but empower an entire nation. That is the Ghana we are building, a nation that respects its land, protects its people, and preserves its future.
1021. In 2025, government commenced the reclamation of 1,000 hectares of degraded land due to illegal mining (galamsey).

1022. Mr. Speaker, in 2026, government will invite interested private sector partners to collaborate in reclaiming 10,000 hectares of degraded land. Fast-growing tree species will be planted on the reclaimed land to restore their vegetative cover.

Trade and Agribusiness Initiatives

1023. Mr. Speaker, the Government, as part of its agenda to achieve industrial transformation, has identified modern textiles and garments manufacturing as a strategic industry, in terms of its potential to generate export revenue and create jobs on a large scale.
1024. In view of this, government would be supporting the establishment of 3 garment factories in collaboration with the private sector in the Bono East, Central and Eastern Regions. These are to operate in three shifts with the capacity to generate about 27,000 direct jobs; and improve the incomes and livelihoods of the communities.
1025. Mr. Speaker, non-ferrous scrap metals are critical raw materials for Ghana's recycling and manufacturing sectors, supporting industries such as construction, electronics, automotive, wire and cable production, batteries, tools, and jewelry.
1026. Ghana generates approximately 91,000 metric tons (MT) annually, with installed domestic processing capacity of 237,300 metric tons. However, in 2024, 43,430 metric tons were exported in raw form, resulting in underutilization of domestic processing capacity.
1027. As part of the Feed the Industry Programme and to support the local metals industry, government will be restricting the exportation of non-ferrous scrap metals. This is expected to enhance the value-chain for component manufacturing of automotive and machine parts.
1028. Mr. Speaker, currently, the total rubber processing capacity in-country is estimated at 178,420 tons per annum, which far exceeds the total annual production of approximately 100,000 tons. As part of efforts to secure sustainable supply of raw materials for domestic processing and the development of the local value chains, government will be restricting the export of raw rubber.
1029. Mr. Speaker, government will fully operationalize seven agro-processing plants in the Northern, Central, Ahafo, Bono, Northeast, Bono East and Western North Regions. These factories are expected to process the following value chains: yam, fish, poultry, cashew nut, rice, shea butter, and palm kernel oil. The plants will reduce post-harvest losses and create about 700 direct jobs while providing offtake opportunities for out-growers.
1030. Mr. Speaker, under the President's Accelerated Export Development initiative to enhance value addition, two new cashew processing plants to be financed

by the Ghana Exim Bank will be constructed at Sampa in the Jaman North Municipality of the Bono region and Aboabo, Techiman in the Bono East region.

Education Sector Initiatives

The Ghana Secondary Learning Improvement Programme (GSLIP): Transforming Secondary Education and Eliminating Double-Track

1031. Mr. Speaker, education is the ladder by which nations climb to prosperity, and for Ghana, that ladder must be strong, wide, and within the reach of every child.
1032. Under the RESET Agenda of His Excellency President John Dramani Mahama, Government is embarking on a bold and transformative initiative to upgrade, modernize, and expand access to secondary education across the country, ensuring that every Ghanaian child, regardless of background or location, can learn, grow, and succeed.
1033. Mr. Speaker, the Free Secondary Education policy has led to unprecedented enrolment growth, but it has also stretched our facilities to their limits. Many schools are overcrowded, and others lack the infrastructure or resources to deliver quality education.
1034. As a result of this, the previous administration introduced the double-track system which has adversely affected the academic calendar and quality of education.
1035. Mr. Speaker, Government is rolling out the Ghana Secondary Learning Improvement Programme (GSLIP), a two-year national initiative (2026–2027) to end the double-track system in our secondary schools.
1036. We will expand infrastructure, enhance quality, and improve access.
1037. This initiative will eliminate the double-track system and ensure that every child can attend school full-time, in dignity and in safety.
1038. Mr. Speaker, under this programme, we will:
- increase the enrollment capacity in selected Category A schools by building new classroom blocks, dormitories and quality improvement. This will ease congestion and create space for an additional students;
 - Upgrade 10 Category B schools to Category A status, equipping them with modern classrooms, dormitories, libraries, science and ICT laboratories.
1039. Mr. Speaker, the reality is that while Category A schools receive overwhelming demand, Category C schools, which hold more than half of available spaces, remain under-enrolled due to infrastructure and quality gaps. This inequity must end, and it will end.
1040. Rt. Hon. Speaker, we will accordingly;

- Upgrade another 30 Category C schools to Category B level, with new classrooms, dormitories, modern science resource centers, digital learning centers and water and sanitation systems; and
 - The government will complete 30 of the abandoned E-Blocks (Community Day Senior High Schools) in urban and peri-urban areas and expand access for students in high-demand regions.
1041. The programme will reduce placement pressures, quality of secondary education and boost national performance in the WASSCE.
1042. Mr. Speaker, these projects will deliver not just buildings, but opportunity.
1043. Every new classroom, every science lab, is a step toward a Ghana where quality education is not a privilege for the few but a birthright for every child.
1044. It is not just about eliminating double-track; it is about unlocking double potential, the potential of our youth to lead, create, and transform Ghana.
1045. Mr. Speaker, this Government made a promise to continue and make the Free Secondary Education better, truly free, fair, and high-quality.
1046. With these policy interventions, we are keeping that promise. We are building not just schools; we are building the future.

Basic Education Intervention

1047. Rt. Hon. Speaker, basic education has been neglected with over-concentration on secondary education.
1048. Government has decided to enhance infrastructure and textbooks provision at the basic level.
1049. In this regard, government, will construct:
- 200 new Junior High Schools;
 - 200 new primary schools;
 - 200 kindergartens;
 - 400 4-unit teachers' bungalows; and
 - 400 places of convenience in underserved communities.
1050. Mr. Speaker, each of these will come with furnishing. This will also provide access to more than 200,000 additional students annually.
1051. Mr. Speaker, government will provide free comprehensive curricula-based textbooks covering the following:
- four (4) sets of KG books and workbooks for about 1 million learners;
 - four (4) sets of primary textbook for 2 million learners; and
 - nine (9) sets of JHS 3 textbooks for 1 million learners.
1052. The Ghana Publishing Company will be mandated to print these textbooks.

1053. Mr. Speaker, again, provide the following for secondary schools and some selected district education directorates:
- 2 million pieces of metal mono-desks and chairs;
 - 200 units 66-seater buses;
 - 200 double-cabin pick-ups; and
 - 50 salon cars.
1054. Mr. Speaker, education is the most powerful investment in Ghana's future. Through this investment, we are building the human capital that will sustain our industrialization.
1055. Mr. Speaker, the President's economic diplomacy is yielding results. During his recent visit to China, he secured about US\$60 million for the construction of a science and technology university at Damongo and a modern market at Aflao.

Health Sector Initiatives

1056. Mr. Speaker, health is the heartbeat of national development, and no country can build lasting prosperity without a healthy population.
1057. Guided by the vision of His Excellency President John Dramani Mahama, Government is steadfast in its commitment to achieving Universal Health Coverage (UHC), ensuring that every Ghanaian, regardless of income or location, has access to quality, affordable, and dignified healthcare.
1058. The 2026 Budget therefore marks a decisive step in our national journey to reset, modernize and expand Ghana's health infrastructure.
1059. Mr. Speaker, to bridge the inequality in access to healthcare across our regions, Government will commence the processes towards the construction of six new regional hospitals for the six newly created regions, beginning with three hospitals in 2026 and two district hospitals at Bole and Shama.
1060. Also, in 2026, Government will complete ten (10) of the abandoned Agenda 111 hospital projects. This approach demonstrates our resolve not only to build new facilities but to complete existing ones efficiently and responsibly.
1061. Mr. Speaker, in addition, we will continue the following abandoned hospital projects:
- La General Hospital;
 - Effia Nkwanta Hospital in the Sekondi-Takoradi Metropolis and;
 - Komfo Anokye Maternity Block
 - Ashanti Regional Hospital in Sewua
1062. These projects symbolize our commitment to restoring trust and confidence in public healthcare delivery.
1063. By expanding access, modernizing infrastructure, and integrating technology, we are laying the foundation for a healthcare system that is efficient, inclusive, and resilient.

1064. This is how we will move from treatment to prevention, from inequality to access, and from promise to performance, ensuring that no Ghanaian is left behind in the pursuit of good health and national wellbeing.

1065. Mr. Speaker, government will upgrade seven hospitals to provide enhanced maternal and child health services.

Ghana Medical Trust Fund (MahamaCares)

1066. Mr. Speaker, the Ghana Medical Trust Fund, also known as MahamaCares, was established by Ghana Medical Trust Fund Act, 2025 (Act 1144) to guarantee sustainable financing in the treatment of non-communicable diseases (NCDs) and specialized medical services.

1067. In 2026, the focus of the Ghana Medical Trust Fund (MahamaCares) will be to guarantee sustainable financing in the treatment of Non-Communicable Diseases (NCDs) and specialized medical services.

1068. Mr. Speaker, too many Ghanaians battling chronic diseases such as cancer, hypertension, diabetes, stroke and kidney diseases are forced to choose between life and livelihood.

1069. The goal is to build a health system that provides care for every Ghanaian, regardless of income or location, and to move decisively toward Universal Health Coverage.

1070. This intervention will lay the foundation for a modern, equitable, and resilient health system.

1071. In 2026, MahamaCares will introduce a comprehensive NCD financing policy that defines eligible conditions, approved service lists, tariffs, and essential medicines.

1072. This will ensure that patients receive uninterrupted care without exorbitant out-of-pocket expenses.

1073. The Fund will also coordinate with the National Health Insurance Scheme to harmonize coverage and ensure that NCD management is not a privilege but a right.

1074. Mr. Speaker, diagnostic and treatment centers will be built on a public-private partnership (PPP) basis in all major hospitals across the country. These will provide testing and treatment facilities for all the identified NCDs under the MahamaCares programme.

Retooling of the Ghana Armed Forces (GAF)

1075. Mr. Speaker, let me now turn to the Ghana Armed Forces (GAF).
1076. Mr. Speaker, before I proceed, permit me to pay tribute to the late Dr. Edward Kofi Omane Boamah, a fallen hero of the tragic helicopter crash and the brain behind the strategy to retool the Ghana Armed Forces.
1077. Mr. Speaker, the Government of Ghana is embarking on a comprehensive retooling and modernization programme to strengthen the operational effectiveness of the Ghana Armed Forces (GAF) beginning 2026.
1078. This initiative forms part of a broader national strategy to enhance defence readiness in response to evolving security challenges.
1079. Significant investments are being made across all three Services, the Ghana Army, Navy and Air Force, to upgrade logistics, equipment and infrastructure.
1080. Mr. Speaker, the Ghana Army, as the land warfare component of the Ghana Armed Forces (GAF), will be well positioned in 2026 to enhance operational readiness.
1081. Mr. Speaker, on 13th August, 2020, the Government of Ghana entered into a supplier's credit agreement of US\$80 million with Messrs. ELBIT Systems Land Ltd for the procurement of nineteen (19) Armoured Personnel Carriers (APCs) and related defence systems.
1082. Mr. Speaker, sadly, despite the disbursement of US\$40 million to the supplier, the Ghana Army has not received a single APC.
1083. In light of the significant payment already made and to prevent financial loss to the State, Government has taken steps to renegotiate the existing agreement with the supplier and it will be re-presented to parliament for consideration.
1084. Mr. Speaker, the Ghana Navy remains a key pillar in safeguarding the nation's maritime domain, ensuring territorial integrity, and protecting strategic offshore assets, including oil and gas installations.
1085. Its mandate encompasses maritime security, fisheries protection, counter-piracy, anti-smuggling, as well as search and rescue operations within the country's Exclusive Economic Zone (EEZ).
1086. The Navy, however, faces significant challenges, including an ageing fleet, limited maintenance infrastructure, and uncompleted Forward Operating Base facilities in Ezinlibo in the Western Region.
1087. In line with the retooling efforts, Government in 2026 will acquire two (2) 72-meter Offshore Patrol Vessels (OPVs) equipped with helipads and combat systems.

1088. These vessels will enable the Navy to conduct long-endurance patrols, safeguard the Exclusive Economic Zone (EEZ), prevent maritime crimes, protect critical offshore infrastructure, and support bunkering operations and oil field security.
1089. Mr. Speaker, the Ghana Air Force remains a critical component of national defence, providing aerial surveillance, troop and logistics transport, air defence, maritime patrol support, disaster response, and medevac operations.
1090. The Air Force also faces significant operational challenges, including an ageing fleet and aircraft with high maintenance demands, which affect readiness and efficiency.
1091. Mr. Speaker, the Ghana Air Force will be retooled. Beginning 2026, the Government of Ghana will begin the procurement processes for the acquisition of four modern helicopters, one long-range and one medium-range aircrafts.
1092. Mr. Speaker, these aircrafts are expected to be delivered in four years' time, if the procurement processes are completed in 2026.

Retooling the Ghana National Fire Service

1093. Mr. Speaker, the Ghana National Fire Service lacks basic equipment to enable them function effectively in their duty to ensure public safety and to protect lives and property.
1094. To address this unfortunate situation, the government will retool the Ghana National Fire Service by procuring 100 fire tenders and assorted fire equipment for distribution across the country.
1095. Mr. Speaker, the government will also work with the private sector to bring in high-rise fire equipment.
1096. This will improve the effectiveness of the Ghana National Fire Service to respond to emergencies.

Water

1097. Mr. Speaker, access to clean water and safe sanitation is more than infrastructure. Indeed, it is a foundation of dignity, public health, and national resilience.
1098. Under the leadership of His Excellency President John Dramani Mahama, Government is steadfast in realizing its vision of “Water for All,” ensuring that no Ghanaian is left behind because of geography or income.
1099. In 2026, we will intensify our efforts with a bold and practical programme to complete key water treatment assets across the country.
1100. Mr. Speaker, in the coming year, we will begin the construction of critical water treatment plants in Damongo, Tamale, Yendi and their environs to provide quality drinking water for the rapidly expanding populations.
1101. The completion of these plants will double the treatment capacity in the Northern and Savannah Regions, reduce turn-around time for supply in peri-urban communities, and provide reliable access to safe water for about 1 million residents.

Sports and Recreation

1102. Mr. Speaker, sports remain one of Ghana’s greatest unifying forces and a powerful driver of youth development, community pride, and national identity.
1103. Yet, for far too long, large parts of our country, especially the newly created regions, have lacked the facilities to nurture and showcase talent.
1104. The Mahama administration is determined to change this.
1105. Mr. Speaker, beginning 2026, Government will commence the construction of modern sports stadia in 3 out the 8 regions without sport stadium.

1106. This marks a historic step toward equitable sports development and inclusive national growth.
1107. Mr. Speaker, the plan is to complete the construction of three stadia in 2026, with the remaining five completed by 2028.
1108. Architectural designs and feasibility assessments are far advanced, with a focus on functionality, accessibility, and sustainability.
1109. Mr. Speaker, this initiative is part of Government's broader Sports for Development Agenda, which aligns with our national goal of using sports as a tool for education, health, and employment creation.
1110. These new facilities will provide opportunities for young athletes to develop their skills, attract sports tourism, and serve as training hubs for regional and national teams.
1111. Beyond football, they will also support athletics, volleyball, boxing, and other disciplines that have long defined Ghana's sporting heritage.
1112. Mr. Speaker, we also take this opportunity to acknowledge the resilience and commitment of our Black Stars, whose qualification for the World Cup continues to inspire the nation.

Tourism, Culture and Creative Arts

1113. Mr. Speaker, in 2026, government will rehabilitate the National Theatre in Accra. We will also commence site acquisition and design of a second national theatre in Kumasi.
1114. We will establish the Film Fund to revive the film industry such as Kumawood and other film associations.
1115. We will also establish the Creative Arts Fund for the arts, music, fashion, food and other creative sectors.

Social Interventions

1116. Mr. Speaker, in 2026, government will increase allocation in the District Assembly Common Fund for disability from 3 to 5 percent. Part of this amount will be used to acquire and distribute rechargeable motorized wheelchairs to people with disability. The distribution will be done through the Ghana Federation of the Disabled.

Strengthening Statistics for Smarter Decisions and Sustainable Growth

1117. Mr. Speaker, at the heart of sound economic management lies a simple truth: what we cannot measure, we cannot manage.
1118. This Budget reaffirms Government's resolve to build a data-driven economy by strengthening Ghana's national statistical and data systems.

1119. Mr. Speaker, the strength of any economy lies in how well it understands itself. Accurate data is the compass of good governance, investment, and growth.
1120. Mr. Speaker in 2026, the Ghana Statistical Service will complete the **rebasings** of the **Gross Domestic Product (GDP)** and the **Consumer Price Index (CPI)** to reflect more accurately today's economy and cost of living. This will sharpen the accuracy of our growth and inflation numbers, improve fiscal, debt, and monetary planning, and give investors and other stakeholders a clearer picture of risk and opportunity. The result is cleaner signals for targeting jobs, taxes, social protection, and inflation management.
1121. The GDP rebasing exercise will capture the new drivers of growth including digital innovation, fintech, creative industries, construction, and real estate, and for the first time, produce regional GDP estimates to guide local planning and investment. The CPI rebasing on the other hand will modernise how we track inflation and provide a more accurate reflection of prices and living costs across all regions.
1122. Mr. Speaker, in 2026, the GSS will scale up its newly launched **Monthly Indicator of Economic Growth (MIEG)**, a pioneering tool that tracks the pulse of Ghana's economy in between quarters. The MIEG offers policymakers, businesses, and investors early signals on shifts in production, consumption, trade, and services, allowing faster, smarter responses to emerging economic trends. With this innovation, Ghana joins a select group of countries using high-frequency data to guide policy decisions, making our economic management more proactive, data-driven, and responsive to the realities on the ground.
1123. In 2026, GSS will launch Ghana's first **Tourism Satellite Account** to capture the full economic contribution of the tourism industry to GDP following the successful execution of the Ghana International Travellers' Survey (GITS), Domestic and Outbound Tourism Survey (DOTS) and the Accommodation User Survey (AUS).
1124. Mr. Speaker, one of the most transformative innovations underway is the integration of **administrative data** across all Ministries, Departments, and Agencies. Through partnerships with key institutions, GSS is developing population-based registers that leverage the Ghana Card's unique identifier. When fully operational, this system will drastically cut census costs by over 70 percent and ensure continuous, high-quality data for decision-making at every level of governance.
1125. Mr. Speaker, in 2026, the GSS will unveil a flagship annual publication, **Ghana in Numbers**, that tells our national story through data. Accessible, visual, and globally benchmarked, this report will serve as the definitive reference for policymakers, investors, academics, and citizens. Each edition will spotlight a key national theme, such as youth, jobs, or climate, turning statistics into stories that inform public debate and guide national priorities. It will deepen transparency, strengthen accountability, and place Ghana among the world's leaders in data-driven governance.

1126. Mr. Speaker, these reforms are anchored in the forthcoming **National Strategy for the Development of Statistics III (NSDS III)**, covering 2026–2030. Building on the successes of NSDS II, which enabled the 2021 Population and Housing Census, this strategy will deliver a coordinated, well-financed statistical system capable of supporting all sectors of government, tracking progress toward national priorities and the Sustainable Development Goals, and informing long-term national planning.
1127. Mr. Speaker, to sustain this momentum, Government is reviewing the Statistical Service Act to further strengthen the independence, credibility, and authority of the GSS as a world-class national statistics office.
1128. Mr. Speaker, Ghana’s transformation depends on our ability to govern by evidence, not assumption. By investing in data, we are investing in smarter policy, efficient resource allocation, and inclusive national progress. In the words of the President, H.E. John Dramani Mahama, *"Data is not just numbers—it is the mirror of our progress and the compass for our future."* With these reforms, Ghana is becoming a continental leader in statistical innovation, a country where every decision is measured, every policy is informed, and every Ghanaian counts.

SECTION 7: RESOURCE ALLOCATIONS

1129. Mr. Speaker, as we enter 2026, we move from stabilisation to acceleration.
1130. This Budget translates confidence into concrete investments that improve daily life, including the provision of better roads, stronger schools and hospitals, reliable power, more jobs, and targeted support for the vulnerable.
1131. What follows are the headline allocations that will drive delivery in 2026 and set the pace for the medium-term.
1132. Mr. Speaker, to unlock round-the-clock productivity, exports, and decent jobs under the 24-Hour Economy, we are providing an allocation of GH¢110 million in 2026 for the implementation of the 24-Hour Economy programme. This will be leveraged with GIIF/DBG and private capital to keep financing largely off the sovereign balance sheet.
1133. Mr. Speaker, to scale-up food security and agro-industrial value-chains, covering Feed Ghana, grains and vegetables, and the Nkoko Nkitinkiti livestock programme, among others, we are providing GH¢245 million in 2026 to the Ministry of Food and Agriculture.
1134. To transform our “red gold” into a true engine of rural prosperity, export growth, and job creation, we are establishing a dedicated GH¢6.9 billion Oil Palm finance window to support the implementation of the National Policy on Integrated Oil Palm Development (2026–2032). An initial rollout support will be provided in 2026 for nurseries, out-growers, land-bank activation, long-term crop financing, smallholder inclusion, and value addition through local processing.
1135. To facilitate the transportation of farm produce to markets and reduce food inflation, we have allocated GH¢828 million for the construction of 1,000km of agriculture enclave roads.
1136. We have allocated GH¢690 million to commence the operationalization of the Farmer Service Centers.
1137. We have allocated GH¢200 million to the Ghana Buffer Stock Company to purchase the glut in food produce and reduce the losses to our farmers.
1138. We have allocated GH¢100 million for aquaculture development.
1139. We have allocated GH¢2.0 billion for Phase I of the Rural Electricity Acceleration and Urban Intensification Initiative in 2026.
1140. We have also allocated an amount GH¢15.2 billion for energy sector shortfall payments.
1141. We have allocated an amount of GH¢4.8 billion to pay legacy IPP debt in 2026.

1142. Mr. Speaker, we have allocated an amount of GH¢4.3 billion to the Ministry of Road and Highways for road construction.
1143. In addition to the Ministry of Road and Highways allocation, we have allocated GH¢3.0 billion to the Ghana Road Maintenance Trust Fund to construct 10km each in 166 constituencies in 2026 to keep roads motorable in constituencies in dire need of road infrastructure.
1144. Mr. Speaker, to strategically open up the country, linking national and regional capitals, we are allocating GH¢30.0 billion in 2026 for the Big Push Infrastructure Programme for strategic roads and bridges.
1145. Mr. Speaker, we have allocated GH¢33.3 billion to the Ministry of Education for its programmes and activities in 2026. Aside the amount allocated to the Ministry of Education, an amount of GH¢9.9 billion has been allocated for the Ghana Education Trust Fund (GETFund).
1146. Mr. Speaker, we have provisioned an amount of GH¢4.2 billion for implementation of the Free Secondary Education in 2026.
1147. Mr. Speaker, to end the double-track system and to improve the quality of our secondary education, we have allocated an amount of GH¢1.1 billion under the Ghana Secondary Learning Improvement Programme (GSLIP) in 2026.
1148. Mr. Speaker, the “No-Fee-Stress” policy will continue and we have allocated GH¢537 million in 2026.
1149. We have allocated GH¢25 million for Free Tertiary Education for Persons with Disabilities.
1150. We have also allocated GH¢3.0 billion for:
- four (4) sets of KG books and workbooks for about 200,000 learners;
 - four (4) sets of primary textbooks for 2 million learners; and
 - nine (9) sets of JHS 3 textbooks for 500,000 learners; and
 - procurement of over 2 million pieces of metal mono-desks and chairs, 200 units 66-seater buses and 200 double-cabin pick-ups for distribution to secondary schools across the country.
1151. In addition, we have allocated an amount of GH¢2.0 billion for the construction of 200 new Junior High Schools, 200 new primary schools, 200 kindergartens, 400 4-unit teachers’ bungalows and 400 places of convenience in underserved communities.
1152. To improve learning outcomes, we have allocated GH¢157 million for Capitation Grants.
1153. We have allocated GH¢1.98 billion for the School Feeding Programme.

1154. We have allocated GH¢292 million for free sanitary pads for girls.
1155. We have also allocated GH¢207 million for Teacher Trainee Allowances.
1156. Additionally, we have allocated GH¢169 million for BECE registration.
1157. Mr. Speaker, in line with policy of uncapping the NHIL to ensure full, timely financing, we have programmed an amount of GH¢9.0 billion in 2026 for NHIS claims, essential medicines, vaccines, bridging support and Free Primary Healthcare.
1158. We have also allocated an amount of GH¢2.3 billion for the Ghana Medical Care Trust (MahamaCares) to support Ghanaians battling chronic diseases such as cancer, hypertension, diabetes, stroke and kidney diseases.
1159. GH¢474 million for Nursing Trainee Allowances to shore up frontline capacity.
1160. We have also allocated GH¢600 million to construct three new regional hospitals.
1161. Again, we have allocated GH¢79 million to upgrade seven hospitals and provide enhanced maternal and child health services.
1162. Additionally, we have allocated GH¢100 million to complete 10 of the Agenda 111 hospital projects.
1163. Mr. Speaker, we have allocated GH¢1.1 billion to the LEAP programme to protect the vulnerable.
1164. Mr. Speaker, to crowd-in finance for women-owned MSMEs, we are providing another GH¢401 million to the Women's Development Bank.
1165. To scale skills-for-jobs at pace, we are allocating GH¢170 million for the National Apprenticeship Programme.
1166. To accelerate digital skills and SME competitiveness, we are providing GH¢100 million for the National Coders Programme and GH¢160 million for 'Adwumawura' enterprise support.
1167. We have also provisioned GH¢100 million for monthly allowances to Assembly Members to strengthen local governance and service delivery.
1168. Mr. Speaker, to revitalise local service delivery and spur district-level growth, we are allocating GH¢8.9 billion to the District Assemblies Common Fund, with a minimum of 80 percent of releases flowing directly to the Assemblies to execute priority projects.

1169. Mr. Speaker, we are repeating the 2025 guideline for spending the 80% in 2026.
1170. For emphasis, the 80% of the monies allocated for the assemblies will be expended as follows:
- 25% of the amount transferred to the District Assemblies is to be utilised for the design and construction of 24-Hour Economy Model Markets;
 - 10% for the construction of health facilities (minimum of 2 CHPS compounds) per Assembly;
 - 10% for the construction of educational facilities (1 KG block, 1 primary school block and 1 Junior High School block);
 - 10% for the provision of potable water (minimum of 10 boreholes for rural Assemblies);
 - 10% for environmental sanitation (solid and liquid waste management);
 - 10% for the provision of school furniture;
 - 5% for the administration of the Assemblies, including monitoring and evaluation; and
 - 20% for the completion of legacy projects.
1171. Mr. Speaker, we have allocated an amount of GH¢207 million for the rebasing of the GDP and CPI and for related activities including completion of key surveys to enable a more accurate assessment of economic performance and price changes.
1172. An amount of GH¢150 million has been allocated to the National Anti-Illegal Mining Operations Secretariat (NAIMOS) for their activities against illegal mining and forest degradation.
1173. Mr. Speaker, Government has allocated an amount of GH¢20 million to the Film Fund as seed money to revive the film industry such as Kumawood and other film associations.
1174. Mr. Speaker, Government has also allocated an amount of GH¢20 million to the Creative Arts Fund as seed money for the arts, music, fashion, food and other creative sectors.
1175. Mr. Speaker, Government has also allocated GH¢400 million for the Integrated Recycling and Compost Plant (IRECOP).
1176. An amount of GH¢100 million has been allocated for the construction of fishing markets.
1177. An amount of GH¢50 million has been allocated for the purchase of fishing nets and outboard motors.
1178. Mr. Speaker, Government has allocated GH¢500 million for District Housing including resettlement of Akosombo Dam spillage victims.

1179. An amount of GH¢200 million has been allocated for the construction of mini stadiums.
1180. An amount of GH¢150 million has been allocated for the procurement of fire tenders and assorted fire equipment.
1181. An amount of GH¢150 million has been allocated for the Black Stars to participate in the World Cup.
1182. Mr. Speaker, the 2026 Budget Statement and Economic of government is specifically designed to create up to 800,000 new jobs.
1183. The GH¢63 billion road contracts awarded so far under the Big Push, will generate an estimated 490,000 jobs.
1184. This estimation is consistent with World Bank metrics on job creation from road investment.
1185. The three new garment factories will create over 20,000 direct jobs.
1186. The seven agro-processing plants will employ about 700 people directly and thousands more through supply chains.
1187. The National Policy on Integrated Oil Palm Development will create 250,000 jobs across the value chain.
1188. The Farmer Service Centres will engage thousands in machinery operation, maintenance, and logistics.
1189. These investments are not isolated; they are part of an integrated national effort to turn stability into jobs and growth.
1190. Mr. Speaker, government is putting real capital behind the private sector which is the engine of jobs and growth.
1191. In this regard, we have recapitalized the National Investment Bank and will recapitalize the ADB and CBG with GH¢1 billion before end-2025.
1192. The GH¢401 million allocated to the Women's Development Bank will deliver affordable finance to small businesses and entrepreneurs such as Lamisi Adam, Priscilla Yovu and Caroline Sfeir, who I met during my engagements at the Takoradi Market Circle and the Kotokoraba Market.

SECTION 8: CONCLUSION

1193. Mr. Speaker, as I conclude the 2026 Budget Statement and Economic Policy, let us take a moment to appreciate how far Ghana has come in just 10 months.
1194. When the Mahama Administration assumed office on 7th January 2025, we inherited an economy on the brink, crippled by:
- high debt service swallowing nearly 36.4 percent of tax revenue;
 - fiscal recklessness characterized by high accumulation of payables, huge expenditure commitments, unguided recruitment in the public service, and unsustainable wage bill;
 - high inflation above 23 percent with households reeling under the weight of high costs of living and businesses faced with high uncertainties;
 - untoward hardships for pensioners, businesses, and other key stakeholders who suffered severe haircuts on their investments, losing the savings they had worked a lifetime to build.
 - a fast-depreciating Cedi that had lost over 53 percent of its value against the US dollar in 2022 with businesses facing spiralling import costs, households struggling under rising prices for food, fuel, and essentials, and savings lost value almost overnight;
 - vanishing investor confidence and collapsing foreign direct investment flows;
 - pervasive corruption that had become endemic, draining public resources and suffocating growth;
 - high energy insecurity, with persistent power outages driving up costs for households and firms;
 - high unemployment, especially among the youth; and
 - unbearable hardship for ordinary families.
1195. Ghana was indeed at the bottom of the abyss, a nation in distress with its economy bleeding and its people weary yet yearning for a government with the courage and vision to rebuild.
1196. But through decisive leadership, bold reforms, and the resilience of the Ghanaian people, we began to turn the tide.
1197. Mr. Speaker, the results speak for themselves in less than a year in office:
- **Strong Economic Growth:** GDP growth rose from 5.3 percent in 2024 to 6.3 percent in the first half of 2025, driven by robust performance in services, agriculture, and construction;
 - **Falling Inflation:** Inflation dropped sharply from 23.8 percent at the end of December 2024 to single digits, 8 percent, by October 2025; the first time in four years, restoring purchasing power for households;
 - **A Stronger Cedi:** The Cedi cumulatively appreciated by 34.9 percent against the US dollar compared to a depreciation of 27.1 percent same period last year, ranking among the best-performing currencies globally and boosting business confidence;

- **Improved External Buffers:** International reserves climbed to \$11.4 billion, covering nearly five months of imports;
- **Restored Fiscal Discipline:** The fiscal position improved significantly, recording a primary surplus of 1.6 percent of GDP by September 2025 compared to a deficit of 2.2 percent same period last year;
- **Deep Fiscal Reforms:** The Public Financial Management Act was amended to cap public debt at 45 percent of GDP by 2034 and mandate a minimum primary surplus of 1.5 percent annually;
- **Independent Fiscal Oversight:** A law that establishes an Independent Fiscal Council has been passed. The Council will be constituted in January 2026 to enforce discipline, transparency, and accountability in public finance;
- **Lower Borrowing Costs:** Treasury bill rates dropped from over 30 percent at the end of 2024 to around 10 percent now, easing borrowing pressures on Government and freeing space for private sector credit;
- **Debt Reduction:** Ghana's total public debt declined sharply from GH¢726.7 billion (61.8% of GDP) in December 2024 to GH¢630.2 billion (45.0% of GDP) by October 2025, one of the steepest debt improvements in our history;
- **Restored Investor Confidence:** Ghana successfully completed the Fourth IMF Review in July 2025 and secured US\$367 million in fresh IMF disbursements and reached a Staff-Level Agreement for the Fifth Review in October. All three credit rating agencies, Fitch, Moody's, and S&P upgraded Ghana's credit ratings, the first upgrades in years, citing credible fiscal consolidation and macroeconomic stability;
- **Social Protection Expansion:** The Government expanded LEAP coverage, sustained Free SHS and NHIS, and introduced targeted subsidies for food and energy to cushion the vulnerable;
- **Debt Sustainability and Sinking Fund:** For the first time in decades, we established both cedi and dollar Sinking Fund accounts to ensure timely debt repayment and strengthen fiscal resilience;
- **Launch of the 24-Hour Economy:** The 24-Hour Economy and Accelerated Export Development Programme (24H+) entered full implementation, unlocking industrial growth with a potential to create over 1.7 million jobs by 2028;
- **Infrastructure Development:** The Big Push Programme is underway, delivering new roads and bridges and connecting towns and people across the country;
- **Data and Statistical Reform:** The Ghana Statistical Service is rebasing GDP and CPI, modernizing the national data system, and launching Ghana in Numbers, a flagship annual publication to guide evidence-based policy; and
- **Anti-Corruption and Public Safety:** The Office of the Special Prosecutor, EOCO, and CHRAJ have intensified investigations, asset recoveries, and prosecutions, reaffirming this Government's commitment to integrity and accountability.

1198. Mr. Speaker, this progress is the fruit of sacrifice and discipline. Ghanaians tightened their belts, businesses adapted, and government stayed the course.

Barely a year ago, our economy was uncertain. Today, the cedi in your pocket is stronger, prices are stabilising, and new opportunities are emerging across agriculture, industry, and technology.

1199. To our international partners and investors, Ghana is back, strong, credible, and open for business. The story of Ghana is no longer one of crisis but of recovery and renewal. The reforms we have undertaken are not quick fixes; they are the foundations of a resilient, competitive, and inclusive economy.
1200. Mr. Speaker, the Mahama Administration is not just stabilising an economy, it is rebuilding a nation. Through the Big Push Programme, we are connecting regions with modern infrastructure; through the Agricultural Transformation Programme, we are turning our farmers into wealth creators; through the 24-Hour Economy and Accelerated Export Development Programme, we are building a productive, export-led economy that never sleeps.
1201. Our commitment to fiscal discipline, social equity, and sustainable growth remains firm. We will protect the gains we have made, consolidate stability, and ensure that no Ghanaian is left behind.
1202. Mr. Speaker, this Budget is more than numbers, it is a message of hope. It tells every Ghanaian child, farmer, teacher, trader, and entrepreneur that their sacrifices matter, that Ghana's recovery is real, and that their government is working tirelessly to build a fair, prosperous, and self-reliant nation.
1203. The storm has passed. The foundation is firm. The horizon is bright. Together, under the visionary leadership of President John Dramani Mahama, the nation builder, we are building The Ghana We Want, a Ghana that works for all, thrives in peace, and stands tall once again as the beacon of Africa's renewal.
1204. Mr. Speaker, our eyes are on the future, our purpose is clear, and our resolve unshakable. Ghana is rising - stronger, fairer, and unstoppable.
1205. We are indeed **"Resetting for Growth, Jobs, and Economic Transformation."**
1206. Mr. Speaker, I so move.

APPENDICES

Appendix 9: Government's measures to implement the recommendations of Parliament in respect of the Auditor-General's report

Parliament's Recommendation	Measures to Implement the Recommendation
Recommendation to address tax irregularities	• GRA will pursue the integration of taxpayer data with the NIA database and GIFMIS to enhance real-time tax compliance monitoring. • GRA will enforce the digital tax filing by continuously operationalising the amended VAT Act 870. (e-VAT, e-Invoicing). • GRA will enhance independent tax audit reviews in various MDAs and Limited Liability Companies. • The GRA will continue to use automated and electronic systems to enhance tax revenue mobilisation. • Withholding tax agents will continuously be educated on their responsibility by GRA to ensure deductions are made according to the requirements of the law.
Recommendation to address cash irregularities	• CAGD will continue to enforce the use of GIFMIS by public institutions for all government transactions. • CAGD will continue to enforce section 46 of the PFM Act, 2016, which establishes the Treasury Single Account to enable the consolidation of government cash resources for optimum utilisation. • CAGD will encourage the electronic bank transfer system on all government accounts while the use of manual cheques is eliminated.
Recommendation to address staff indebtedness, loans, and advances	• Internal Auditors should perform, quarterly reviews of debtor balances and produce age analysis report. • CAGD will circulate periodic reports of employees' indebtedness. • CAGD, IAA, and Heads of Departments would collaborate to ensure recovery from recalcitrant defaulters.
Recommendation to address payroll irregularities.	• CAGD would implement Budgetary control over payroll cost. • The CAGD will train heads of institutions and internal auditors on the validation of payroll. • Payroll validation will be enhanced across covered entities on the GoG payroll. This will enable internal auditors and heads of institutions to promptly have access to the payroll through the ESPV system and report on separated staff. • Integrate biometric verification with HRMIS and CAGD payroll. • The CAGD will continue to enforce the mandatory monthly staff validation by heads of department. • Link payroll data at CAGD to Ghana Card and SSNIT numbers. • Sanction all personnel identified in payroll fraud.
Recommendation to address stores/procurement irregularities	• The government has introduced Commitment Authorisation to approve spending against a verified budget at the outset to ensure funds are available and reserved before commitments are made by MDAs. • A PFM Compliance Division has been established at the Ministry of Finance to help control Government commitments, prevent arrears build up and enforce PFM laws to elevate compliance. • The Ministry of Finance, through the Compliance Division in collaboration with the IAA, will continue to monitor compliance and publish the PFM Compliance League Table to rank covered entities in good standing in terms of compliance with the

Parliament's Recommendation	Measures to Implement the Recommendation
	Commitment Control Compliance Checklist (CCCC) and the PFM laws. • The government has integrated GIFMIS with the GHANEPS to create a seamless, fully automated public financial management system that enhances fiscal discipline, prevents accumulation of arrears, and promotes transparency and accountability in government spending. • The Ministry of Finance, in collaboration with the CAGD, has conducted training on the GIFMIS and GHANEPS integration solution for procurement officers and internal auditors of the 23 Ministries, while there is ongoing similar training to cover all covered entities in the country. • Procurement processes of the 23 Ministries would be solely done through the GIFMIS-GHANEPS integrated solution. Effective 1st December 2025 all procurement processes of all Departments and Agencies must also be conducted through the GIFMIS-GHANEPS integrated solution.
